PERFECT WELLNESS
BY EFFGIBI

QUATTROLUXE

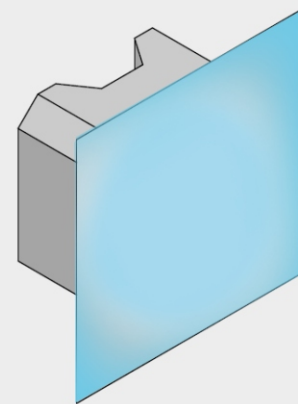

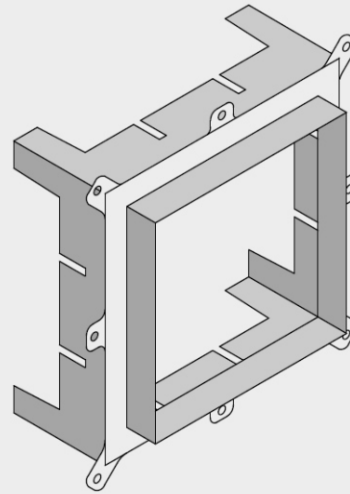

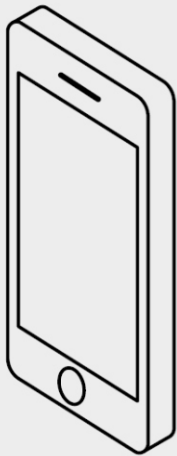

Light fixture with colour therapy and Loudspeakers

You can listen to your favourite music inside the sauna or hammam using a Bluetooth connection and your own device. The Effe Sound System, which has two stereo speakers, connects automatically to the internal speaker with no need to install any software or make special connections.

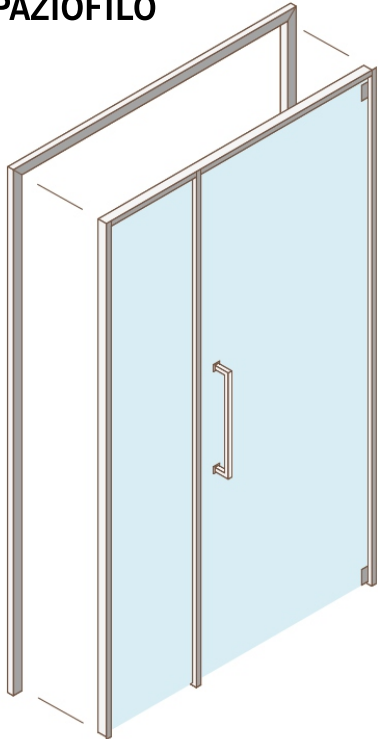

ESS - Effe Sound System Kit with colour therapy, white light and Bluetooth speakers

There is a choice of five fixed colours (red, yellow, green, blue, aquamarine) and four programs providing tonal variations within one colour range (dawn, sunset, sea, forest).

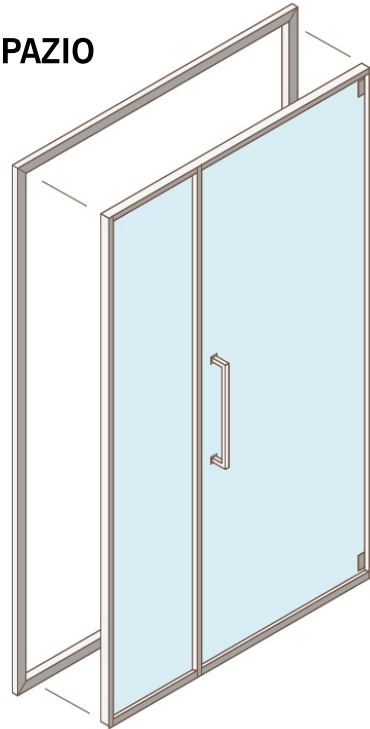

The special doors created by Effe for Hammams are designed to ensure a perfect seal against the escape of steam thus ensuring proper air circulation.
