# TOTO

## Life Anew

To create a culture of comfortable, healthy living.

Since our founding, we have continuously pursued innovations that offer greater wellness and comfort to daily life.

Honoring the trust that our customers and society place in us, TOTO remains dedicated to delivering products that offer inclusive functionality and respect for the environment.

We embrace these values every day to create a future that surpasses all expectations.

F A U

SILH●UETTES  
by **TOTO**

Inspired by the shapes and essence of Nature and Japanese Culture, the Silhouette collections exudes beauty from every angle. The range is minimalistic yet aesthetically alluring at the same time. It magnificently unifies the beauty of nature's shapes and the dignity of traditional culture.

# ZA series

reddot award 2019  
winner

**S**harp edges, the beauty of generous curves, and the contrast of polished and hairline finishes combine in a modulated design that achieves balance of a different order. The handle, asymmetrically shaped like a small stone, is beautiful from any angle and settles in rhythmically.

Lightness and dignity in a natural shape  
for a timeless design.

# ZA series

An asymmetrical faucet handle and washbasin bowl in beautiful harmony.

**W**ith the thinness of a flower petal, the organically shaped ZA series handle matches the delicate curve of the washbasin bowl in a way that suggests a breeze or a melody, further enhancing the appeal of the design for a fresher everyday in spaces that share its natural motif.

# ZL series

A precise, ultra-thin form delivers a tranquil, keenly framed beauty.

The smooth, flat, mirror-like surface and ultra-thin edge generates a contrast in two dimensions whose overwhelmingly delicate look – made possibly by advanced processing technology – shares a design philosophy with the square-lined, sharp-edged washbasin bowl.

# ZL series

Enhancing flow and gesture,  
the design fits the sharp washbasin bowl.

**A** bundant water flows like a waterfall from the horizontal spout, while the handle can be operated gracefully with a gentle pinch of the fingers. Beautifying even the flow of water and human gestures, the design resonates with the sharp, square washbasin bowl to create a richer space.

# GE series

reddot award 2019  
winner

The beauty of traditional craft in  
a characteristic sculptural form.

**T**he sharp, taut V-shaped edge that extends up to the end of the spout generates multi-sided reflections revealing a range of expressions. The polished gold finish further accentuates the distinctive design for a richer, more luxurious look that helps generate extraordinary, inspirational spaces.

# GC series

reddot award 2019  
winner

The breadth and symbolism of classical design in a contemporary form.

**W**ith the composure of an elegant serif typeface and a base shaped to reconfigure the stability at the heart of traditional architecture, we pay homage to designs that have stood the test of time while transitioning to a modern design that reflects the present day.

# GC series

The two-handle design captures the rich aesthetic of an elegant hotel.

**A**ligned along a straight line, the faucet and handles present a strikingly consistent design. The horizontal line crossing each base serves as a boundary that tightens the gaps between them. The low center of gravity adds a dignified accent to interior spaces without getting in the way.

# GM series

reddot award 2019  
winner

Bold parallel arches  
and reflective curves in  
an assertive design.

**S**uggesting the majestic dignity of outstanding architecture, the shape combines – in the arch of its spout and a columnar body – elements seen in traditional shrine gates. Its imposing presence is further accentuated by the highlights that trace its edges.

# GF series

The refined cylinder and fine finish inspire a high-end luxury feel.

The delicate workmanship at the joints and gaps are set off to advantage by the simple shape. The high-quality, spindle-processed handle has a delightful feel to the touch. Using a hairline finish for the handle and a polished finish for the body generates a rich contrast in textures even while using the same rose gold color.

# GS series

reddot award 2018  
winner

A modern design wrapping a relaxed, unassuming shape in matte black.

Adding soft curves to a universal basic shape results in smart proportions that convey a gentle visual and textural impression in a timeless design suited for everyday use. Expanded color and finish options leave an even fresher impression.

## COMFORT GLIDE

## Everyday ease-of-use that is grounded in the senses.

Comfort. For TOTO, this does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on users' touch. Designed from the ground up to provide a fundamental comfort in operation.

### Special coating for prolonged comfort.

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

### Precise flow control, exclusive to TOTO.

Our exclusive technology means new functionality. We took the core component of the valve, the ceramic disc, and customized its shape for ease of use. Compared to conventional faucets, it's easier to control water flow when just a little is required, such as when you are washing a contact lens. Because you can achieve the right amount of water flow instantly, it helps conserve water. \*Adjustable flow functionality is not available on side-handle models.

WARM SPA

**Embraced in warmth,  
relaxed and ready for rest .**

The feeling of a warm bath, in a shower. This is the power of the WARM SPA. A single pillar of warm water running quietly from the shower head. When water hits the body, it follows the curves and envelops it without a splash. A completely new shower experience, warming your body efficiently.

**Let no heat escape. Be warmer.**

Smooth water release means less heat loss. The water cloaks your body, quickly warming it. This feature is now available not only in conventional overhead showers, but hand showers too.

**Large drops of water, rich and dense, giving a luxurious sense of comfort.**

Comfort Wave emits powerful, swinging streams of larger-than-usual water drops for an ultra-comfortable, moderately intense shower that uses only a small amount of water. Mixing conventional shower spray into the flow adds pleasant stimulation.

**COMFORT WAVE**

**Stimulates body  
and mind  
and awakens  
the senses.**

Active Wave specializes in the swinging, large-drop streams found in Comfort Wave. More powerful than Comfort Wave, it offers a more intense showering experience.

**ACTIVE WAVE**

# Z Selection

**A new style that crystallizes bold design and advanced technology.**

A higher-dimension integration of design and technology, with bold linear shapes that make hairline accents shine, artfully arranged controls, and precision details reminiscent of high-end audio equipment. Brought together in a single, shelf-equipped unit, these combine in a richer shower experience.

# Z Selection

**Meticulous attention to design and function for an even richer shower.**

Stainless steel panels in a rich array of colors and finishes combine with artificial marble shelf-tops. The fine materiality resonates richly in the shower room, raising it to a higher level. Equipped with a rack that enables unobtrusive storage and an overhead shower that envelops the entire body for a rich shower time.

TBW02004B  
Thermostatic Shower Column with Shelf

# G Selection

Choose your ideal showering experience at the touch of a switch.

For the hand shower we installed a switch right at your fingertip, and for the overhead shower the switch is located inside the showerhead. For the hand shower you can change easily between WARM SPA / COMFORT WAVE / ACTIVE WAVE, and for the overhead shower between WARM SPA and COMFORT WAVE. Feel free to enjoy the perfect shower for your mood.

## HEAT PROTECT

**Prevents getting too hot and is beautifully shaped for a more pleasant daily bath time.**

When you use hot water, the surface of the faucet also gets hot. TOTO's solution is a unique innovation in design. By covering the path of the hot water with a layer of cold, HEAT PROTECT is able to prevent burns when accidentally touching the fixtures.

**Industry-leading compactness brings sophisticated style.**

We created the industry's smallest diameter of Ø45mm while providing superior insulation performance.

**SAFETY THERMO**

## Prevents rapid rises in temperature for a safer bath time.

Let's say a family member uses water while you are in the shower. This can often create a sudden, unwanted increase in the shower water temperature. SAFETY THERMO prevents this from happening. A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

### Temperature control, 6 times stronger.

Our SMA coil detects water temperature instantly. Compared to a traditional wax type, it reacts to hot water 6 times faster (in-house comparison).

## MINI UNIT

Ø112mm

mass  
710g

## A compact unit offering freedom of choice for more beautiful bathrooms.

Concealed faucets liven up the bathroom. TOTO's MINI UNIT is a technology that gives you more freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a single lever type, thermostat type, or touch button type, and also make choices based on design features such as circle or square fixtures.

### Easier to install. Less load on the frame.

A high degree of flexibility when installing the MINI UNIT is one of its most attractive features. We were able to achieve one of the industry's smallest and lightest bodies for the concealed system. It puts only a minimal load on the architectural frames and has improved manageability during installation. In order to conceal the unit, the wall only needs to be 97mm, and the system is able to absorb installation errors of  $\pm 13\text{mm}$ .

**Industry-leading miniaturization.  
Beauty in balance.**

We shrunk the unit to one of the industry's smallest. The trims are also some of the most compact. In addition, our progress towards uniform sizes mean units can be used simultaneously to create a beautiful space. We also strived to make the trim as thin as possible. A bathroom of unity and style can be yours.

# Shower Systems

Choose from three types to match your lifestyle and create a bathroom all your own.

## 1 OUTLET

### Thermostat Mixer

With Volume Control

- a Flow Rate Control
- b Temp. Control
