Quality and **INNOVATION**

Villeroy & Boch — a sound choice through and through

Tap fittings from Villeroy & Boch offer perfect comfort, are low on water consumption and simple to use. To achieve these benefits, we apply the highest standards to materials and components, validation and installation. See for yourself!

CERTAINTY OF CHOICE

Choosing Villeroy & Boch is a choice for life. It means choosing tap fittings that spell out quality at first glance. Taps that live up to the highest standards in functionality and materials — right down to the smallest detail. And with a timeless aesthetic that complements every bathroom design. Eye-catching, but not attention-seeking. Your Villeroy & Boch tap fittings are something to be enjoyed for many years to come. Because right from the first day you will know that you have made the right choice. Read on and find out what sure design, sure quality and sure function means for Villeroy & Boch taps and fittings.

SURE QUALITY

Since 1748, the name Villeroy & Boch has stood for quality and reliability “made in Germany”. This unrivalled wealth of experience means we know exactly what matters when it comes to developing high-quality bathroom products. Visionary ideas, state-of-the-art production technologies and strict quality controls enable us to make fittings of exceptional precision that live up to the highest standards in every detail. With Villeroy & Boch bathroom products you can always rely on sure quality.

Treat yourself to something special

SURE DESIGN

Design and Villeroy & Boch are an inseparable unit. From the outset we have been working closely together with the best designers and architects. This is what gives our bathroom products their unmistakable style. It's how we develop unique bathroom fittings with a timeless aesthetic, while offering the highest functionality and exceptional comfort. It's why our tap fittings are always in perfect harmony with our bathroom ceramics, creating elegant bathroom solutions in a vast range of styles — all with one thing in common: our sure design.

Reliability for many years to come

SURE FUNCTION

Smooth handling and innovative details are a hallmark of our taps and fittings. Unique comfort, efficient use of water and easy operation make them a pleasure to use, day in, day out. Careful design, meticulous production and consistent quality control all ensure that our products still function like they did on day one, even after many years of use. These are things we are proud of and which are valued by Villeroy & Boch customers all around the world. Try for yourself and be impressed by the sure function of our tap fittings.

STEP BY STEP
TO A TOP-CLASS
SURFACE FINISH

Step 1:
Brass base

Step 2:
Nickel coating

Step 3:
Chrome finish

QUALITY BEGINS WITH HIGH-GRADE MATERIALS

A high-quality chrome finish lends Villeroy & Boch tap fittings a perfect lustre.

- Our tap fittings boast a very special surface lustre. This results from a sophisticated polishing process prior to the actual chrome coating.
- The chrome is applied evenly in a special electrolytic process.
- After chroming, a transparent, hardened coating is applied to the surface. This is crucial to ensuring the special lustre.
- We verify our tap fittings' resistance to corrosion in a 200-hour salt spray test. This ensures uniformly smooth and brilliant surfaces.
- It goes without saying that we have minimised the lead content in all tap fittings. We additionally verify the lead levels by means of subsequent spectral analysis in the laboratory.

*Perfect quality in
every detail*

HIGH-QUALITY COMPONENTS — MORE THAN THE SUM OF THEIR PARTS

Villeroy & Boch tap fittings last more than 7 times longer than the European standard requires. They continue to work even after endurance tests comprising 500,000 cycles.

Neoperl perlator

Our high-quality perlators are produced by the market leader in Switzerland and are certified in accordance with DIN EN 246.

Limited flow rate

Water-saving with a maximum flow rate of 5 l/min. This cuts costs and benefits the environment.

Hoses

All plastics meet the strict EU standards. The hoses are fully suitable for use without any reservations. They are microbiologically pure, tasteless and comply with all relevant drinking water hygiene regulations.

Limescale control

The smart anti-limescale function ensures that the perlator is easy to clean and continues to work perfectly even after many years of use.

Ceramic cartridges

We use only state-of-the-art cartridges from the market leader — made in Europe.

SUPREMELY INSTALLATION- FRIENDLY

Flexible hoses

The high-quality hoses provide for swift and simple installation.
All hoses are made in Europe.

Perfect matches

All tap fittings undergo comprehensive testing with the Villeroy & Boch washbasins. Our recommended tap fitting/washbasin combinations make choosing the appropriate products particularly easy.

One for all

The ViBox makes particularly easy work of installing tap fittings:

- Colour-coded connections for hot and cold water ensure correct connection.
- Arrows on the rear of the ViBox indicate the direction of installation.
- The enclosed brass stopper serves to close off unrequired connections.
- Including rubber cuff to seal the ViBox.
- Decoupled from the system to eliminate noise transmission.

CONTINUAL VALIDATION: OUR TAP FITTINGS STAY THE COURSE

Brilliant finish

The chrome-coated surface of each individual tap fitting is examined and tested according to 13 special quality criteria.

500,000 cycles and counting

Our tap fittings are particularly robust and reliable. It is not by chance that they withstand stress tests covering 500,000 cycles. This is 7 times more than required by the industrial and regulatory standards (70,000 cycles).

Handling the pressure

Each individual tap fitting undergoes leak testing at a maximum of 25 bar before it is packed and dispatched. In contrast, the average water pressure in a German single-family home is around 3 bar.

Three-fold validation

1st validation:

More than 24 design tests at our base in Mettlach.

2nd validation:

Testing of first off-tool parts according to 16 criteria by our quality management in Mettlach.

3rd validation:

Final release for series production by the product development team and quality management. In order to ensure the high standard of quality, we subject each batch to spectral analysis and carry out ongoing sampling tests at the warehouses.

ARCHITECTURA

The definition of design

Consistent straight lines

NEAT AND TIDY

The very slender, geometric design of the tap fittings emphasises the quiet charisma of modern bathroom architecture.

Sleek contours and unmistakable detailing, such as the flat spouts, dovetail perfectly in the Architectura range. With its straight-lined contours, the modern design is perfect for creating individual home interiors.

CLASSIC

A characteristic guise

ELEGANT SOLUTION
The flush-mounted versions of the tap fittings for baths and showers have a particularly elegant charm. Installation is especially easy, thanks to ViBox.

*True style
is timeless*

An expressive design and clear styling lend Classic its appeal. The precise edges chart a strikingly angular tap fitting collection with softly curved detailing. The epitome of elegance, with a unique character.

villeroyboch.com/classic

PERFECT SHOWERING PLEASURE
A thermostat ensures constant pressure; the selected temperature is reached within seconds and a 38 °C temperature limiter protects against scalding; ideal for a great showering experience.

DAWN

A fresh take on minimalism

*Pure
form*

Featuring minimalist design in a host of variants, Dawn establishes a new design idiom for contemporary tap fittings. The mix-and-match spouts and handles allow for diverse interior design options and add a fresh touch to modern bathrooms.

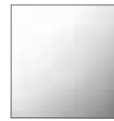

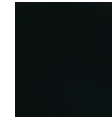

villeroyboch.com/dawn

LESS IS MORE
Delicate, minimalist and at the same time extremely elegant, the tap fittings from the Dawn range actively blend into modern bathroom architecture.

DAWN Finishes

		
Brushed Chrome	Brushed Gold	Brushed Nickel
		
Chrome	Dune	English Gold
		
Polished Nickel	Graphite	Matt Black

The sophisticated fittings are made to order for a very exclusive touch to the bathroom.

INDIVIDUAL PERFECTION
From purist to elegant or luxurious, whether glossy or brushed, the high-quality finishes lend the minimalist Dawn tap fittings an air of superiority. Enjoy new freedom in contemporary bathroom design.

Mix and match

SINGLE-LEVER MIXER

STYLISTIC VARIETY

Choose your combination from a variety of taps and levers and fashion your Dawn fittings to reflect your personal style.

AWARD-WINNING DESIGN

Dawn's design-oriented mix-and-match concept won the prestigious iF Design Award for 2017.

EMBRACE

Feel the spirit of water

FROM GENTLE TO INTENSE
Relax, massage or intense?
Simply change the spray mode
with the smooth-running
control with lock feature.

Pure pleasure

With Embrace, the new range of shower fittings from Villeroy & Boch, you can transform your daily ritual into a refreshing experience. Indulge yourself with different shower modes and enjoy your own personal showering pleasure. Be wowed by timeless design that blends seamlessly with your bathroom and can be combined with all the Villeroy & Boch bathroom collections and styles.

villeroyboch.com/embrace

DESIGN MEETS COMFORT

With the discrete surface-mounted mixer tap you can easily select the temperature you feel most comfortable with.

The integrated scald-protection feature limits the water temperature to 38 °C.

BENEFICIAL ENJOYMENT

Whether you prefer a gentle rain shower from the swivel-mounted, removable overhead shower or an invigorating shower spray from the hand-held shower head, the Embrace shower system makes showering pure pleasure.

PERFECT SETTING

Perfect comfort for every body size. The height and angle of the hand-held shower holder are easy to adjust.

*For pleasurable
showering*

ANTI-TWIST SHOWER HOSE

Thanks to the anti-twist connection, the flexible Embrace shower hose, made of kink-resistant plastic, cannot twist.

EMBRACE PLUS

*Feel the spirit
of water*

ELEGANT DESIGN
The stylish contours of the modern shower fitting designs are a delight to behold. Subtle yet expressive, they complete the harmonious overall appearance of your bathroom.

*Pamper yourself
with comfort*

Immerse yourself in an extraordinary showering experience. Savour the pampering comfort and stylish design of the new Embrace Plus range of shower fittings. Its elegant forms blend in seamlessly with all the Villeroy & Boch bathroom collections and styles. At the touch of a button, you can treat yourself to one of various shower modes. From a gentle rain shower to an intensive massage, you can experience your own personal showering moments. Many other luxury features and intuitive controls ensure outstanding functionality at a very high level.

INDULGENCE AT THE PUSH
OF A BUTTON
Intuitively select your
favourite spray mode at the
touch of a button and enjoy
your own personal shower
moments. The easy-to-operate
button is ergonomically
shaped and integrated flush
with the shower head.

*Adapts to your
requirements*

GENEROUS COMFORT
Enjoy a soothing shower experience
with the up to 300 mm overhead
shower. This ultra-thin shower head
is swivel-mounted and easy to remove.

SHOWERING AND BATHING
The optimal shower solution for the bath:
use the Embrace Plus thermostat with bath
inlet to either shower comfortably or fill the
bath with water. As you like it!

OPTIMUM HEIGHT
There is plenty of room here, even for the
very tall. Thanks to the height-adjustable
shower rail, you can individually adjust the
overhead shower to suit your height.

UNIVERSAL SHOWERING

Enjoy sensual moments

STYLISH ON THE WALL

The wall-mounted models bring a modern look to the bathroom. Neat solutions for relaxed showering.

ELEGANT OVERHEAD

The Universal overhead showers are real eye-catchers when mounted on the ceiling. Relish the freshness from above.

EXCLUSIVE IN THE CEILING

Our variants integrated in the ceiling are a special highlight combining a discreet appearance with a delightful showering experience.

From an invigorating freshen-up to a soothing relaxation ritual, the Universal Showering products are always a perfect joy. The designs can be combined flexibly with all Villeroy & Boch collections, and numerous forms, sizes, shower modes plus 3 concealed installation variants accommodate your personal furnishing style. Discover the new design options for an all-round pleasurable showering experience.

UNIVERSAL TAPS AND FITTINGS

At home in any bathroom

A TOUCH OF LUXURY
The free-standing bath tap fitting with its solid base and integrated hand-held spray head combines design and comfort in exclusive style.

**A SINGLE BOX
AND ALL OPTIONS COVERED**
Installation the easy way: The pre-assembled ViBox is installed inside the wall. You can then take your time choosing your preferred tap fittings and connect them later without any fuss.

BLISSFULLY CLEAN
The bidet shower offers hygienic freshness together with a variety of hose lengths, designs and finishes that you can combine in individual fashion for your bathroom.

SAFE SHOWERING
Enjoy a constant water temperature while you shower. The elegant thermostat compensates pressure and temperature fluctuations and the scald-protection feature limits the water temperature to 38°C. Simply choose between 2 or 3 valves.

The perfect fix

Here you will find everything to add that finishing touch for perfect comfort in your bathroom: From a pillar bath tap to a concealed thermostat for the shower. From the ViBox for simple installation to a shower for your bidet. Items designed to match all Villeroy & Boch tap fitting ranges, but each with an individual touch. Discover the Universal taps and fittings.

THE BEST CARE FOR YOUR TAP FITTINGS

Whether elegantly curved, classically simple or purist – with their elegant appearance, tap fittings from Villeroy & Boch introduce a special atmosphere to your bathroom. And with the right care, it will last for years to come.

CLEANING AND CARE

- Regular cleaning of the tap fittings is important to prevent limescale build-up.
- Use only cleaning agents suitable for the application in question.
- Never leave cleaning agents to work for longer than necessary.
- Water droplets should be wiped away with a soft cloth after each use.
- Never spray cleaning solutions directly onto the tap fitting, but always onto the cleaning cloth or sponge.
- Residues of personal-hygiene products such as shampoo, shower gel or liquid soap should be removed quickly as these can cause damage.
- Varnished and galvanised surfaces should be regularly provided with a thin, protective coating. Use of a preserving agent specially tailored to varnished or galvanised surfaces is recommended for this purpose.
- Showers with anti-limescale system: Deposits on the plastic nozzles can be removed by stroking across the nozzle studs.

IMPORTANT:

Please do not use any agents containing hydrochloric, formic or acetic acid, as these may cause damage.

The same applies to cleaning agents containing chlorine bleach. Do not mix cleaning agents.

Do not use abrasive agents or equipment (scouring agents, microfibre cloths).

Cleaning products containing phosphoric acid should only be used to a limited extent.

VILLEROY & BOCH SERVICE

Our customer-oriented range of services makes the decision to choose products from Villeroy & Boch really easy. We will be there to assist you from the initial idea right through to completion of your dream bathroom – and beyond: with inspirational brochures and helpful tips on bathroom design, with different room solutions, inspirational planning tools and naturally with all the advice and support you will need to create a perfect Villeroy & Boch bathroom.
