FAHRENHEIT
WELLNESS

HOT THERAPY

Feel stress dissolve as waves of heat envelop your body.

Steam purifies and refreshes, sauna warmth penetrates deep, easing muscles, boosting circulation, and leaving you glowing with vitality. Bask in the enveloping warmth that melts tension from muscle and mind alike. In the steam room, clouds of soothing vapour open pores, cleanse skin, and encourage deep detoxification, while the gentle heat calms the nervous system.

In the sauna, dry waves of penetrating warmth reach deep into the body, easing stiffness, improving circulation, and inviting a blissful state of renewal. Whether bathed in aromatic steam or embraced by the dry, golden glow of sauna heat, every breath restores balance, vitality, and an unshakable sense of well-being.

HOT THERAPY

mr.steam®

Feel Good Inc.

WE ARE STEAM
NO ONE KNOWS STEAM
LIKE MR.STEAM

With over 100 years of experience, MrSteam has a legacy of helping people feel good and live well. Steam helps us physically by supporting heart, lung and vascular well-being. By promoting relaxation and managing stress, it calms the mind. These benefits are why we believe that steam is not a luxury but a necessity. Each and every innovation is designed to deliver steam with ease in every home.

A traditional shower cleans, but a MrSteam shower cleanses - mind, body and spirit. As innovators of wellness, we are more than purveyors of steam. We bring wellness to life.

RESIDENTIAL.

BRING WELLNESS HOME
WITH NATURE'S
OLDEST THERAPY

MrSteam has a legacy of innovation designed to help people feel good and live well. By promoting relaxation and helping manage stress, it purifies emotionally. The benefits of steam therapies are why we stand behind our belief that wellness is not a luxury but a necessity. That's why each and every innovation we create is designed to deliver comprehensive wellness to every home. A traditional shower cleans, but a MrSteam steam shower cleanses — mind, body and spirit.

INNOVATION !

Enhanced MrSteam Generators feature updated electrical components and new 3/4" steam line offering state of the art performance and a quieter more refined steam experience.

STEAM GENERATORS THE HEART OF OUR INTELLIGENT STEAM SHOWER

LIMITED LIFETIME WARRANTY
Free from defects in materials and craftsmanship for its lifetime. MrSteam will repair or replace (at its option) a generator which fails to conform to this

AUTOSTEAM
Maintains constant steam by introducing just the right amount of water through a proprietary

INSTALL UP TO 60 FT AWAY
Installs in areas such as a cabinet, closet, under a sealed bench or in an insulated attic.

SAFETY FIRST
60 minute automatic cut-off, low voltage board, designed for easy access and safe service.

STEAM IQ
Exclusive micro processor operating system is the brains of our intelligent steam generator.

ONE PLATFORM
All MS Generators work with all MrSteam Controls and with the SteamLinX Mobile App.

PLUG & PLAY STEAM SHOWER ACCESSORIES
Easily install spa therapy accessories or components such as AromaTherapy, ChromaTherapy, SteamLinX, and more.

UNMATCHED QUALITY AND CERTIFIED FOR SAFETY
US and Canadian UL listed, and CE and NOM certified for unsurpassed quality and safety.

SELF-DIAGNOSTICS
LED indicators to help you troubleshoot any connection and maintenance challenges.

WHISPER QUIET
Our water solenoid technology ensures that the generator is whisper-quiet and never hammers or

BUILT WITH SURGICAL STAINLESS STEEL
Naturally corrosion resistant, 100 percent recyclable

EASY ON THE ENVIRONMENT
Designed to save water and energy. Uses less than two gallons of water vs 40 gallons for an ordinary

SMALL FOOTPRINT
Compact, easy to install, and about the size of a large briefcase. Requires zero clearance, so it can be placed flush against the wall.

INDUSTRIAL HEATING ELEMENT
Reliable, industrial grade, and the industries largest copper heating element heats fast and is easy to remove and service.

FIND THE PERFECT GENERATOR FOR YOUR SPACE WITH SMARTSIZING.

Start by choosing the control that lets you intuitively blend steam, scent, light and sound to create the customized experience you desire. Your control will manage temperature, time settings and personalized presets selected from an array of upscale designs crafted to match your bath decor preferences. Then, select from our curated spa packages that allow you to awaken a new world of wellness with easy, convenient ordering at a reduced cost.

Visit VirtualSpa.MrSteam.com to enter your room specifications and receive tailored recommendations to

ONE — MEASURE

TWO — MATERIALS

Select your construction materials.

For ceramic or porcelain tile on cement board or mortar bed, no adjustment. _____

For natural stones — natural marble, stone, shale, glass block or concrete, multiply room volume by 1.5. _____

THREE — ROOM VOLUME

For rooms 8 feet high or less, no adjustment. _____

For ceilings higher than 8ft to 9ft multiply adjusted room volume by 1.15. _____

For ceilings higher than 9ft to 10ft max multiply adjusted room volume by 1.3. _____

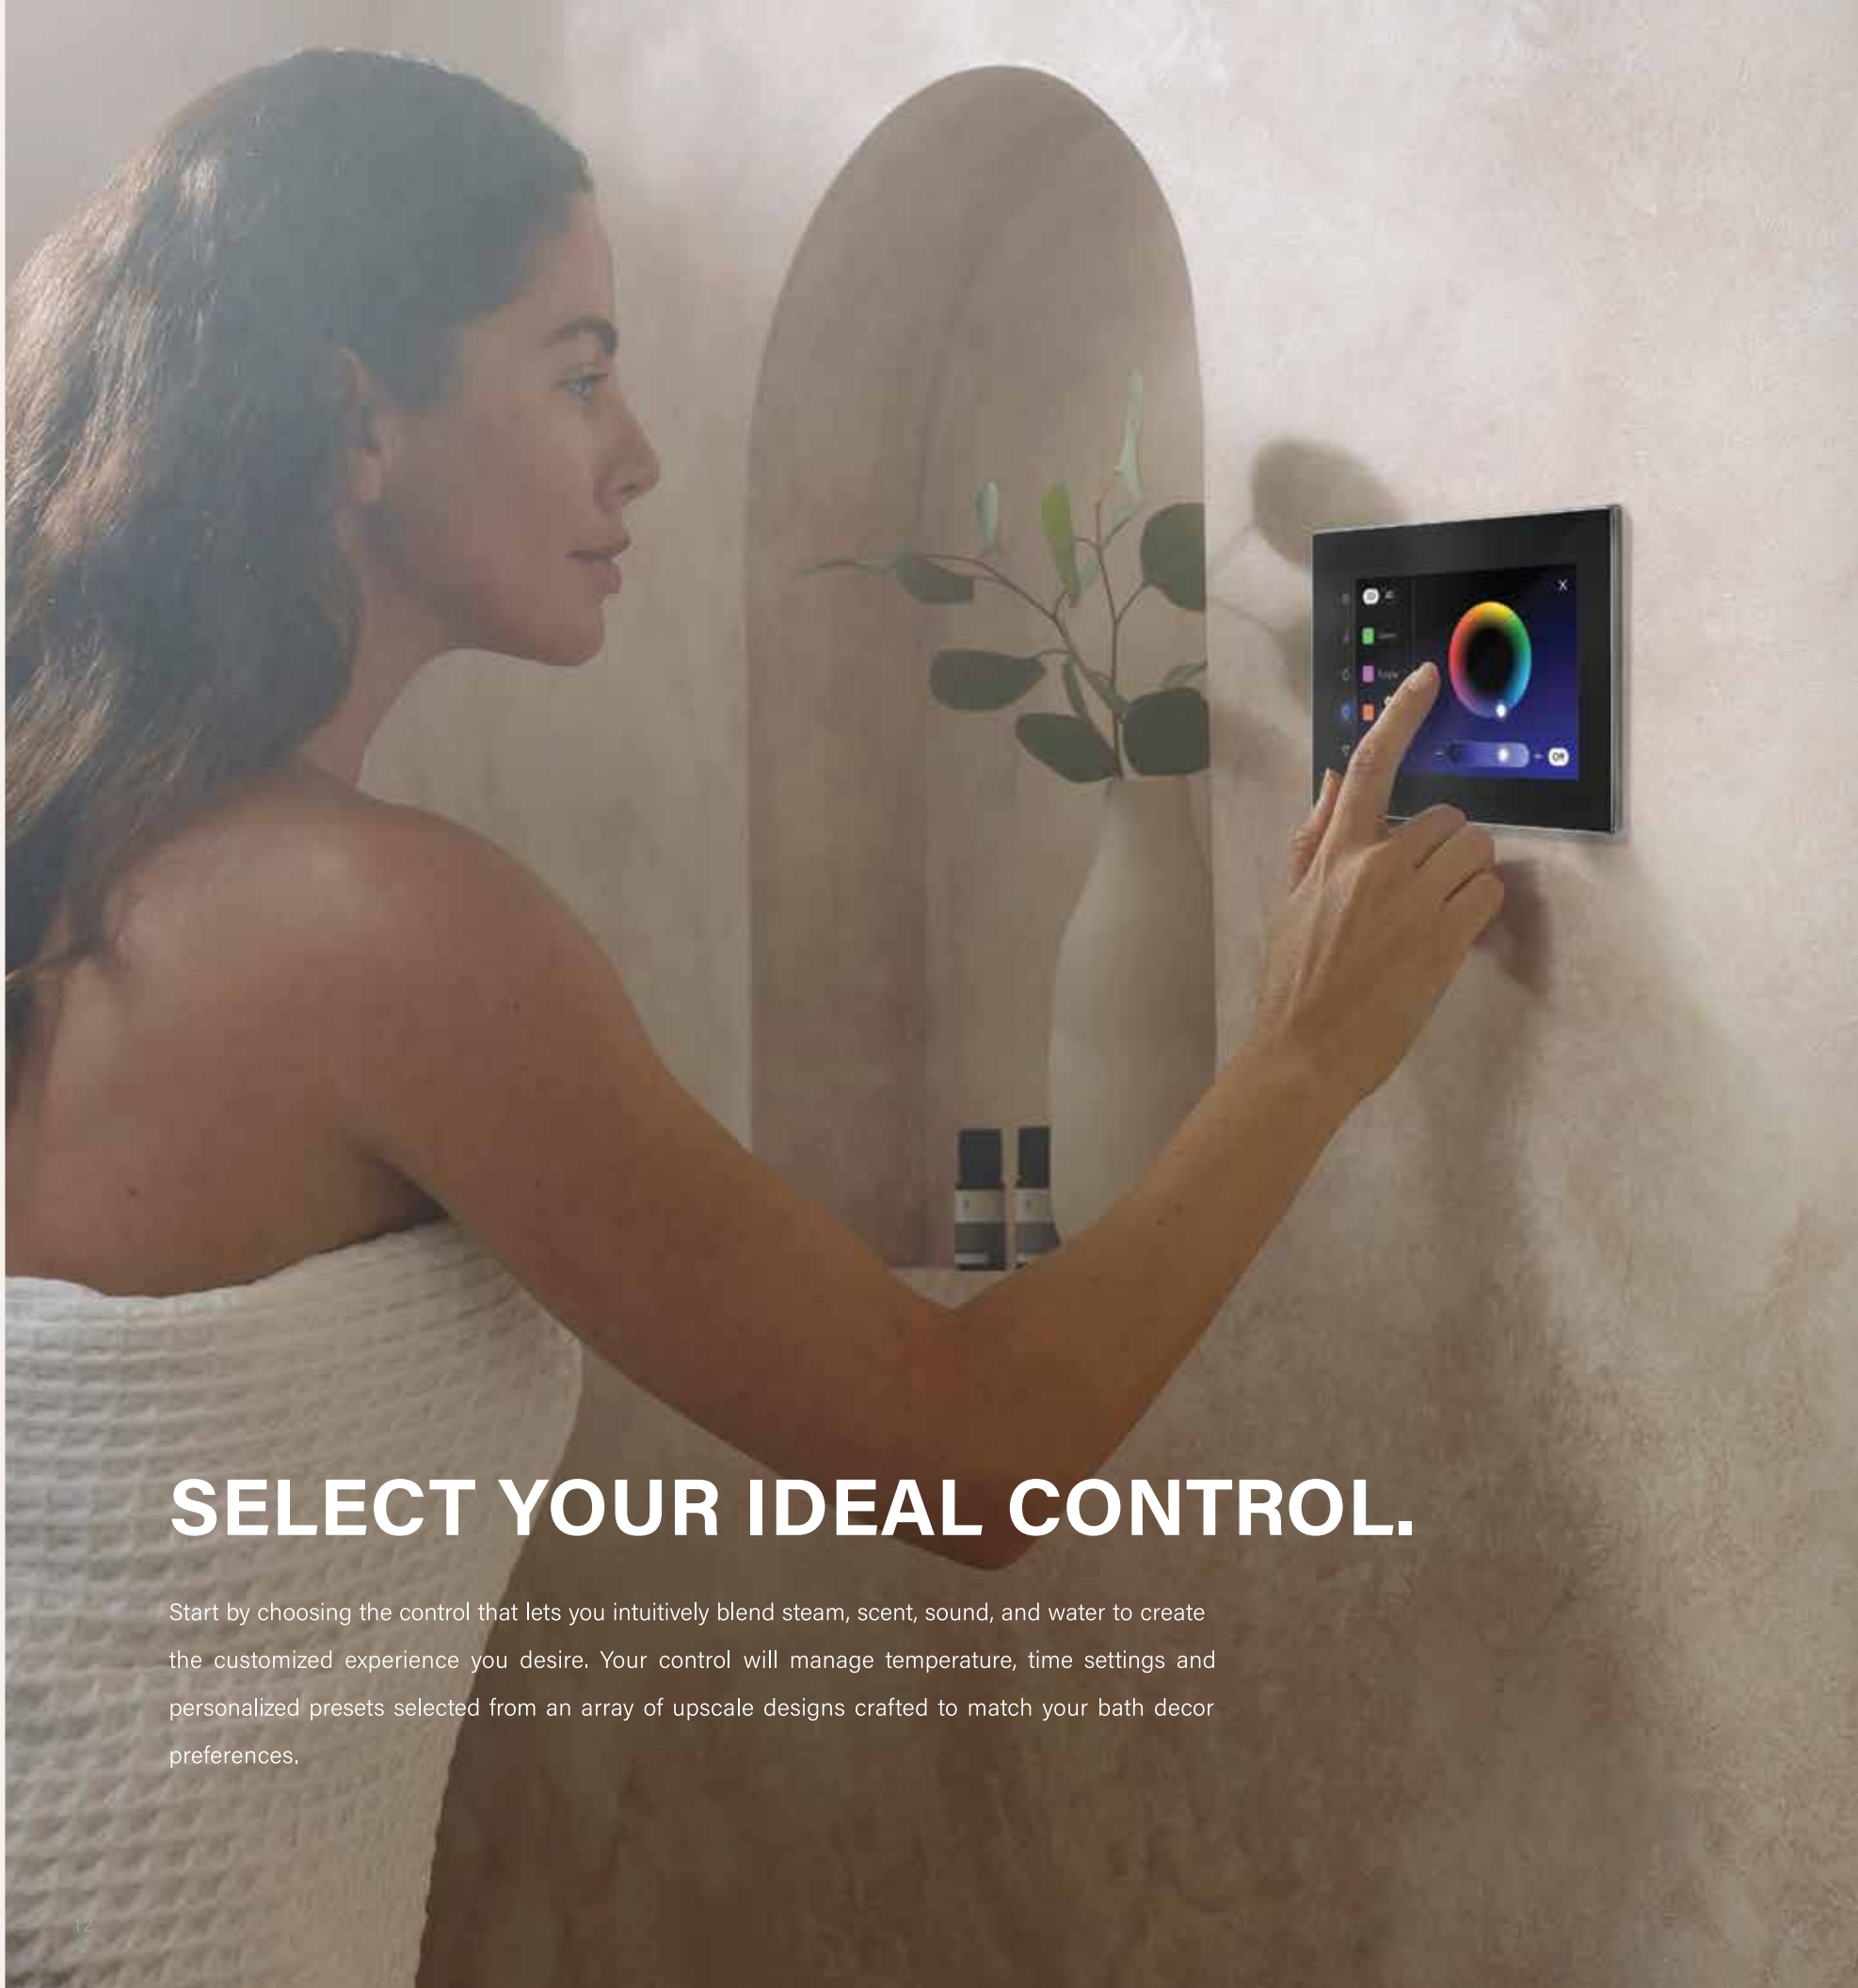

Occasionally, a steam room has unforeseeable or hidden construction that warrants special sizing or other consideration. MrSteam is not responsible if unconventional and/or unforeseeable materials or construction details result in a unit that does not operate to specification. Refer to the applicable MrSteam Installation, Operation & Maintenance Manual, available at MrSteam.com, and consult a properly licensed contractor, architect and/or design professional. Failure to do so may result in inoperable or hazardous conditions.

AROMATHERAPY

Aromatherapy was mankind’s first remedy, a practice of caring for the body guided by one of our primary senses, scent. Adding AromaTherapy to any steam experience allows you to achieve a higher state of relaxation overall and enhances the unique properties of each botanical infusion, providing new pathways to activate the mind and care for the body.

AromaFlo System

Fragrance Metering Pump

- MS AROMA

PRODUCT DETAILS

By merging fragrance and steam into a beautiful mix, the AromaSteam system metering pump atomizes the fragrance and creates the perfect in-steam AromaTherapy experience. MrSteam’s specially formulated fragrances use ingredients extracted from flowers and plants. Each aromatic fragrance offers a distinct aroma with characteristics that may support the body’s specific needs.

- The collection of MrSteam essential aroma fragrances are available in replaceable, long-lasting 1-liter (33 oz.) bottles.
- Integral Fragrance Bottle Caddy.

*Aroma Fragrance not included. Order separately.

Aroma Fragrance

1-Liter Bottle

- See fragrances below for part numbers.

PRODUCT DETAILS

MrSteam’s Aroma Fragrances are specially formulated and packaged for use with the AromaSteam System. Each aromatic fragrance offers a distinct scent with characteristic benefits. These long-lasting 1-liter bottles (33 oz.) work in conjunction with the AromaSteam metering pump. The fragrance mixes with steam to create a rich AromaTherapy experience.

C NEXT GENERATION POWER

Now, big things come in an impeccably designed, thoughtfully engineered, compact and concise unit.

The CX GENERATOR is innovation in action. Like computing that once took up an entire room and can now be held in your hand, the CX is pure brawn in a small package; engineered for peak performance.

CX GENERATOR SYSTEM

INCLUDES:

- CX GENERATOR
- CX CONTROL
- FACTORY INSTALLED AUTOFLUSH
- COMMERCIAL GRADE STEAM HEAD
- DRIP PAN

QUIETER POWER

The CX Generator is an atmospheric generator that is quieter than a pressurized system. CX also has an internal temperature shut off to prevent low water condition, and an integral high water cut-off feature.

TOUCH-SCREEN CONTROL

The CX generator interface is programmed to preheat steam room at the start of each day. During operation the water in the system is kept at an elevated temperature for fast steaming time.

EASIER INSTALLATION

The compact size offers designers, builders, and contractors more flexibility with room design and straightforward installation, making large equipment rooms traditionally built to house auxiliary pressure and mechanical systems no longer a necessity.

CX GENERATOR PACKAGES

CX Generator Packages now include a CX Generator, CX Control, CX SteamHead, factory installed AutoFlush, Commercial Grade SteamHead, and Drip Pan.

CX GENERATOR SYSTEM NEXT GENERATION POWER / INUITIVE CONTROL & STRAIGHTFORWARD INSTALLATION

- CX GENERATOR CONTROL
- 7" color touch screen control with menu driven user interface.
 - Can be mounted up to 30 feet from the steam generator.
 - Easily set on/off time from control.
 - View system status while the unit is running.
 - Room temperature shown on display.
 - Controls multiple CX Generators in series.

Important:
All CX commercial steam bath generators are available in 208/3, 240/3, 480/3, and 600v/3. Consult factory for other voltage/phase. Specify voltage/phase when ordering.
Refer to Installation Manual for dimensions and installation instructions.

All MrSteam CX units are cULus Listed.

THE CT DAY SPA PACKAGE

includes everything an owner / operator needs for optimum control and superior performance, while also providing guests with an enhanced therapeutic experience.

PREMIUM PERFORMANCE FOR DAY SPAS AND RESORTS.

DAY SPAS, MEDICAL SPAS, BOUTIQUE RESORTS AND CLUBS

Even small spaces can be transformed into steam rooms. Compactly designed for performance, longevity and durability, MrSteam CT steam generators combine safety and aesthetics with reliability.

CT STEAM GENERATORS

Designed for steam rooms operating for six hours or less each day that do not exceed 482 cubic feet and ideal for up to two guests at a time.

- Easily installed in most service closets, storage areas or similar dry, heated location.
- Ideal for smaller day spas or resorts that may not have the space or need for a larger, multiple-user steam room requiring CX equipment.

CT Day Spa ® Package

The CT Day Spa steam system is ideal for light commercial venues such as day spas and resort spas. Featuring the iTempo control, the owner/operator can control the entire steam bathing experience, and along with the Acrylic Steam Shield and CT-Steam Stop, this package gives you everything you need to be operational once installed.

 CT Generator	 iTempo Control	 Aroma Designer Finish SteamHead*
 CT Steam Stop	 AutoFlush	 Condensation Pan

CT Day Spa is equipped with Express Steam® and has the MSTs.

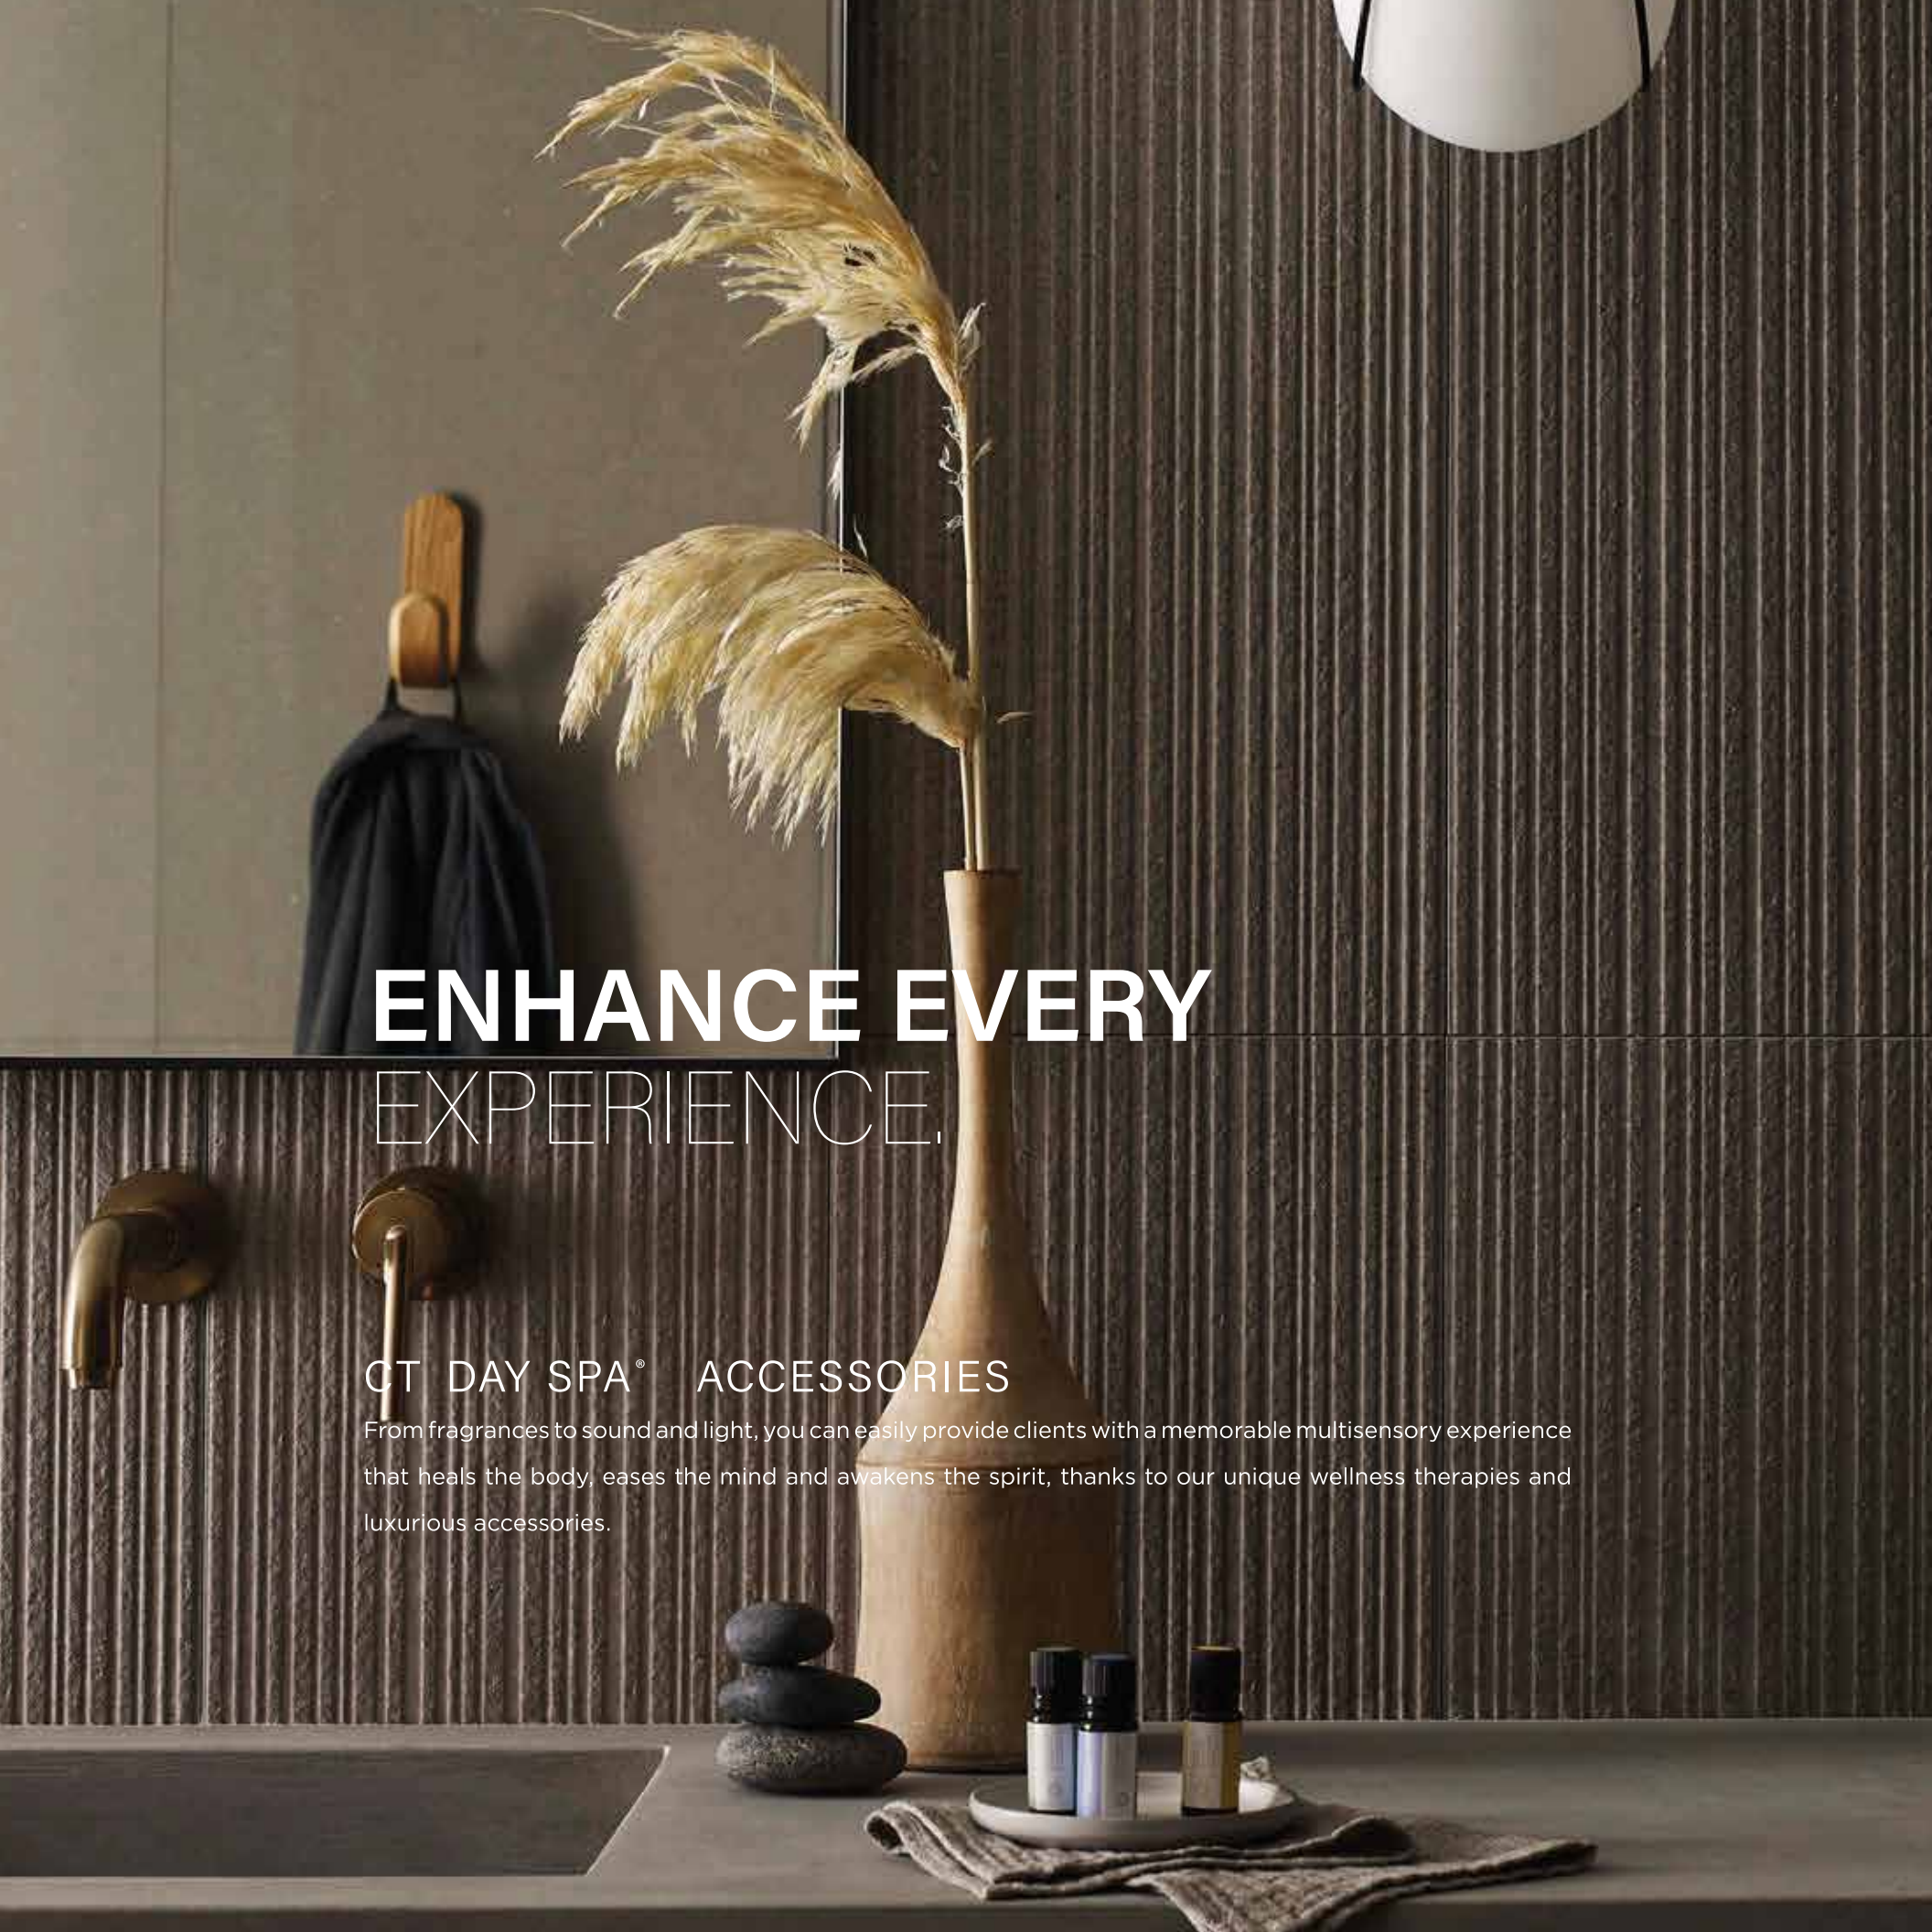

All CT generators come in 240V/1PH standard; other voltages/phases available.

1. Wire size (AWG) based on minimum 90°C THHN insulation for copper conductors.

2. Water usage based on 20-minute steam bathing session.

All MrSteam CT units are cULus Listed and CE approved. Refer to Installation Manual for dimensions and installation instructions.

Occasionally, a steam room has unforeseeable or hidden construction that warrants special sizing or other consideration. MrSteam is not responsible if unconventional and/or unforeseeable materials or construction details result in a unit that does not operate to specification. Refer to the applicable MrSteam Installation, Operation & Maintenance Manual, available at MrSteam.com, and consult a properly licensed contractor, architect and/or design professional. Failure to do so may result in an inoperable or hazardous condition. See product packaging and labeling for additional important information.

THE STEAMPOD

THE PERSONAL STANDALONE STEAM ROOM

Introducing the SteamPod. Finally, the luxury of a private steam room with no contractor needed, no plumbing or bathroom renovation necessary. The SteamPod is your freestanding, full-body steam therapy space. Whether its before an early workout or after a late workday, the SteamPod is ready for use Indoor and outdoor. SteamPod brings the spa experience to every home... it's steam for everyone.

Imagine stepping into your personal steam sanctuary after an exhausting day. Let the steam melt away the stress stored within you, bringing you the relaxation and wellbeing that you've been aching for.

- The SteamPod is a Freestanding, Personal, Full-Body Steam Enclosure
- The SteamPod is designed for Indoor and Outdoor Environments
- 120v Powered Steam Generator- Simply plug the SteamPod into your standard wall outlet
- Portable & Flexible- able to be assemble, disassemble, and reassemble when/if required
- Fillable Water Reservoir. No plumbing of water lines or drain lines required
- Simple, push of a button on/off control
- Steam for Everyone- People leasing or renting can now have a private steam room

TOWEL WARMERS

A TOWEL WARMER FROM Mr.Steam
IS THE BATHROOM LUXURY THAT
YOU DESERVE.

Warm fluffy towels are a simple way to fight off the post-shower shivers. The caress of a warm towel makes you feel pampered and indulged. MrSteam towel warmers are aesthetically pleasing and functional, adding a unique touch to the design of any bathroom space while also supplementing the heat in your bathroom, making it cozier and more comfortable.

The Metro Collection

Thanks to durable yet refined stainless steel construction, the Metro Collection provides a unique opportunity to let bliss linger even longer. Each style within this collection comes standard with a digital timer and coordinating cover plate, so you can easily replicate the sophisticated environment of a five-star spa experience in your own home. Plus, with the additional built-in aroma infuser, you can extend your relaxation experience long after the steam shower has ended.

- Allows pre-start and automatic shutoff of towel warmer.
- Fits into standard 4" x 2" junction box.
- Seven programmable on/off times.

HARVIA

Sauna & Spa

SAUNA BATH THERAPY

Step inside and feel the heat take hold — dry, pure, and powerful. It drives deep into your muscles, sparking circulation and flushing toxins with every bead of sweat. The air is hot yet clean, sharpening your senses and waking every cell. This is more than warmth — it's a fiery reset, a surge of energy that leaves you lighter, stronger, and primed for whatever comes next.

The sauna is not merely a room — it is a ritual of purification, a retreat where heat becomes healing.

HEALING WITH HEAT

Sauna's heat is good for the heart

Taking 2–3 sauna baths per week is enough to lower the risk of cardiovascular disease by 20% compared to those sauna bathing only once a week. The risks may decrease by up to 65% the more one sauna bathes.
Laukkanen, Khan, Zaccardi & Laukkanen 2015

Sauna bathing improves sleep quality

A study investigating the connection between sauna bathing and sleep saw a 70% increase in deep sleep during the first two hours and 45% increase in six hours. There was a statistically significant decrease in the participants' staying-up time after sauna bathing.
Putkonen & Elomaa 1976

Sauna bathing is exercise

The heat of the sauna makes the heart pump blood faster, expanding the blood vessels and relieving the heart.
Brunt, Howard, Francisco, Ely, Minston 2016

Sauna bathing improves memory

Sauna bathing twice a week decreases the risk of dementia by one fifth compared to those sauna bathing only once a week. The risk is up to 60% less for people sauna bathing 4–7 times a week.
Laukkanen, Kunutsor, Kauhanen & Laukkanen 2016

Sauna bathing cherishes the skin

The heat of the sauna multiplies the amount of blood pumping through superficial veins, which boosts the skin's metabolism. The skin feels nourished, maintains moisture and stays soft and elastic.
Viinikka 2020

Sauna bathing treats muscles

Sauna is a great place for relaxing tense muscles. However, sauna bathing before exercise prevents muscle pains and increases muscle mobility afterwards.
Khamwong, Paungmali, Pirunsan & Joseph 2015

HARVIA

Sauna & Spa

ENJOY

More and more people around the world are recognizing that the sauna is not only a place for peace, relaxation, and socialization – but also a practice which promotes health and well-being. Sauna bathing as a traditional healing method is supported by numerous scientific studies and continues to be a hot topic within the wellness megatrend. In this brochure, you can become more familiar with saunas from Harvia, and get exactly the kind of sauna you want.

Make your sauna into an oasis of well-being

We want to create new, relaxing sauna experiences in the midst of hectic everyday life. There you can find harmony of body and mind – on the sauna bench, in the gentle embrace of heat and steam.

Harvia offers everything your sauna needs

A wood-heated sauna by a lake, an electric sauna in a detached house, an outdoor sauna in the city, an infrared cabin in the living room of an apartment, a steam room at a spa, a mobile sauna on the road or...

What is your dream sauna like? Learn more about Harvia's sauna interiors and find your answer.

We will provide you with everything you need for designing and building a sauna – with more than 70 years of experience. In addition to sauna interior models, you can find sauna heaters, safety equipment and sauna accessories in our selection. Our selection also includes bathroom, indoor and outdoor saunas and infrared cabins.

ELECTRIC SAUNA HEATERS

Sauna heaters that are intended for home saunas are perfectly suited for small or medium-sized saunas. The size and properties of the heaters vary depending on the purpose of use and design of the heater.

From Harvia's selection, you can easily find a heater that is best suited for your preferences and sauna.

Sauna & Spa

INFRARED CABINS

This is heat with intent — targeted, penetrating, and energizing. Infrared waves go straight to your core, heating your body from inside out, igniting circulation, speeding recovery, and flushing out fatigue from the inside out.

Here, heat is different — softer, deeper, more personal. Invisible waves of gentle infrared warmth sink directly into your skin, reaching muscles, joints, and tissues with soothing precision. No uncomfortable extra hot environment — just a clean surge of warmth inside out that fuels performance, sharpens focus, and leaves your body humming with renewed strength. It is warmth you don't just feel — you absorb.

HOP ON THE WAVE OF INFRARED WAVES – EVERYTHING YOU NEED TO KNOW ABOUT THE WARMING SENSATION!

Infrared sauna, infrared room, infrared cabin... is known by many names among people. The rising trend of infrared in the sauna is still an unfamiliar experience to many. While infrared saunas are technically not saunas in the traditional sense, the term has been normalized in our daily speech and is now commonly used. In this short text we will help you get acquainted with the basics and the benefits of infrared.

THE SAFEST, SIMPLEST, AND MOST COMFORTING INFRARED EXPERIENCE

Infrared technology utilizes panels that heat up the room to approximately 60 °C. These panels use infrared elements to radiate heat of differing wavelengths depending on the infrared category: near, mid, or far. This heat can penetrate skin more deeply than just warmed air, which causes the users to develop more intense sweating with lower temperatures than in traditional saunas (1). Infrared mimics the warming effect of sunlight without containing the harmful UV rays. Keeping with the promise of Healing with Heat, Harvia's portfolio of Infrared solutions are designed to provide penetrating heat that will help you better relax, recover, and rejuvenate.

From ready-made, dedicated Infrared cabins to hybrid cabins that combine a traditional sauna and infrared into one, each of our products are designed with one aim – provide the safest, simplest, and most comforting infrared experience to our customers.

WHY CHOOSE INFRARED?

Infrared shares the health benefits of the traditional sauna. For example, it can lower your risk for heart and vascular diseases (2) and help your muscles recover and relax (3). In addition to these physiological effects, sauna bathing also has beneficial psychological effects, such as releasing endorphins and improving the quality of sleep (4).

Another case to be made for infrared is its ease of use: just turn the power on and the panels will warm up and be ready for use almost immediately. Additionally, due to the dry nature of infrared, you can read a book or listen to music while enjoying an infrared experience without having to worry about ruining your books or audio devices.

TO WHOM INFRARED IS SUITABLE?

Infrared heat is safe and suitable for anyone who values efficiency and deep muscle relaxation. We especially recommend infrared to people who lead busy lives and appreciate the speed and convenience of infrared solutions. Those who are short on space can benefit from infrared solutions, as our Harvia Radiant infrared cabin only requires one square meter of floor space to be installed. In addition, you do not require a special building permit or waterproofing to set up an infrared cabin in your apartment, which makes the process hassle-free.

The lower temperatures provided by infrared compared to electric or wood-burning heaters can also be more suitable to people who have circulatory problems. A lighter load on the body typically results in lower heart rates compared to traditional sauna methods (3).

- Along with heating the body. Infrared panels are also suitable for heating up the infrared cabin
- Infrared panels can be installed on the side walls, or even under the bench to provide direct heating for calves

Vitamyl

HYBRID SAUNA

Having trouble choosing between traditional sauna with an electric heater and infrared room? Why not combine them! You can install our infrared panels into the traditional sauna and control them separately. The slim and sleek design of our infrared panels doesn't require much space, and the panels can be integrated, for example, into the backrest of our saunas.

Where traditional sauna relies on indirect body heating (warm air touching the skin), an infrared radiator directly affects to your body. Traditional sauna normally takes 20 to 90 minutes to heat up but an infrared radiator starts working in 10 to 15 minutes. By combining these two different heat sources in your sauna you can enjoy them both by starting with the infrared and then moving on to the traditional sauna and higher temperatures. Alternatively, you can use them separately depending on your needs and preferences. Infrared saunas use thermal radiation which provides deeper, targeted heating of the body. This results in deeper sweating and a lower ambient temperature. In fact, infrared saunas usually operate between 45 to 60°C while traditional saunas are usually warm from 60°C upwards. Our infrared elements work up to 60°C and from there on you can enjoy the traditional sauna.

Hybrid saunas combine the best aspects of infrared and traditional sauna in one sauna.

Infrared shares the health benefits of the traditional sauna. For example, it can lower your risk for heart and vascular diseases and help your muscles recover and relax. In addition to these physiological effects, sauna bathing also has beneficial psychological effects, such as releasing endorphins and improving the quality of sleep.

Infrared heat is safe and suitable for anyone who values efficiency and deep muscle relaxation. We especially recommend infrared to people who lead busy lives and appreciate the speed and convenience of infrared solutions.

SALT THERAPY

Each breath boosts immunity, clears the head, and sharpens energy. Skin feels smoother, breathing comes easier, and the body feels recharged as if you've stepped straight from the ocean, alive and unstoppable.

It is the timeless healing of the shore, captured in a room of stillness.

Key Benefits

- Promotes clearer breathing and lung function
- Supports relief from allergies, asthma, and sinus congestion Naturally antibacterial and anti-inflammatory for skin health
- Encourages deep relaxation and stress relief
- Boosts overall vitality and immunity

Clean, crisp, and revitalizing — every breath is a rush of mineral-rich air that clears the lungs and sharpens the mind. Microscopic salt particles sweep deep into the respiratory system through your airways, cleansing the lungs, soothing the senses, flushing impurities, boosting immunity, feeling fresh energy and leaving the mind unburdened. The salt's natural antibacterial and anti-inflammatory properties calm the skin, easing irritation and restoring balance.

SALT CAVES & HALOTHERAPY THERAPY

Salt therapy, or Halotherapy, is an ancient tradition celebrated for its ability to support respiratory health, enhance skin vitality, and promote deep relaxation. Fahrenheit offers three distinct ways to bring this natural therapy into modern wellness spaces:

- **OPTION 1 : HIMALAYAN SALT BRICKS** – Illuminated, hand-carved salt bricks form glowing walls that create a serene atmosphere while releasing trace minerals into the air.
- **OPTION 2 : SALT PLASTER** – A seamless salt coating applied to walls or interiors, blending natural aesthetics with wellness benefits.
- **OPTION 3 : SALT VAPORISER MACHINES** – Advanced systems that disperse micronized salt particles into the air, simulating the therapeutic atmosphere of natural salt caves.

Each option can be used independently or combined to create bespoke salt therapy environments — from glowing salt chambers to integrated spa suites — where ancient healing meets modern design.

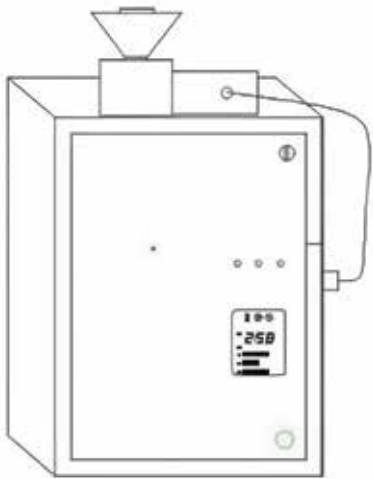

OPTION 2 : SALT PLASTER

OPTION 1 : HIMALAYAN SALT BRICKS

OPTION 3 : SALT VAPORISER MACHINES

OUTDOOR SAUNA

Nestled beneath open skies, Step into a sanctuary where the crisp freshness of the outdoors meets the warmth of sauna therapy. Enveloped in rich natural wood, the outdoor sauna transforms every session into an elemental ritual — the scent of wood mingling with cool mountain or ocean air, while waves of heat coax away tension from deep within. As your body relaxes, your mind drifts to the rhythm of the wind, the call of distant birds. An outdoor sauna is not merely a retreat — it's a seamless dance between nature's invigorating energy and the profound calm of thermal wellness.

Designed for gardens, terraces, or lakesides, this is heat therapy at its most elemental and exhilarating. Step outside for the exhilarating contrast of fresh air. Wellness, nature, and design — in perfect harmony.

Sauna & Spa

BUILD YOUR CUSTOM SAUNA

Crafted Around You

With Fahrenheit, your sauna becomes a personal sanctuary designed to match your vision of wellness. Choose from premium sauna woods, high-performance heaters, intuitive controls, and an array of accessories to create a truly bespoke space.

Enhance your experience with mood lighting, aromatherapy, chromatherapy, salt therapy, or even integrated entertainment with LED TV. Every detail can be tailored, from finishes to features, ensuring your sauna is not just built — but crafted as a reflection of you.
