ABOUT ALMAR

Made in Italy.

Stile italiano. Etica. Innovazione.

I **sistemi doccia ALMAR** rielaborano il concetto di design all'interno dello spazio bagno, attraverso l'innata eleganza del Made in Italy e una nuova sensibilità etica nell'abitare. Una **filosofia legata alla tradizione**, sostenuta da una **visione innovativa e funzionale**, porta ALMAR a realizzare ogni singolo componente di prodotto all'interno dei suoi stabilimenti.

Moderne tecniche di ingegneristica, unite a una **ricercata attenzione al dettaglio**, garantiscono ai prodotti ALMAR finiture preziose e i più alti standard di qualità e precisione.

Italian Style. Ethics. Innovation.

ALMAR's shower systems refashion the concept of design in the bathroom, through the inborn elegance of Made in Italy products and a new ethical sensitivity in living.

*Thanks to a **philosophy bound to tradition**, supported by an **innovative and functional vision**, ALMAR realizes all product components in its factory.*

Modern engineering technics, together with a **studied attention to details**, ensure ALMAR's products precious finishes and the highest quality and precision standards.

LA NOSTRA STORIA

OUR HISTORY

1900

DAL 1900 | UN'AUTENTICA PASSIONE PER L'ACQUA

La storia di un'azienda è spesso intrecciata con la **storia del luogo in cui tutto è nato**. Per ALMAR, quel luogo è un **mulino ad acqua**.

Era il 1900 quando il capostipite della **famiglia Civelli** comprò un mulino ad acqua per la macina del grano. Un antico mestiere di famiglia, profondamente legato a una **passione per l'acqua** che verrà tramandata di generazione in generazione.

La stessa passione con cui, oltre un secolo dopo, Marco e Aldo Civelli accompagneranno ALMAR sul mercato internazionale, emozionando i propri clienti attraverso una **nuova esperienza con l'acqua** che rivoluzionerà il modo di abitare lo spazio bagno.

SINCE 1900 | A REAL PASSION FOR WATER

The history of a company is often interlaced with the one of the **place where everything began**. As far as ALMAR is concerned, this place is a **water mill**.

In 1900, the progenitor of **Civelli family** bought a water mill to grind wheat. An old family craft, deeply bound with a **passion for water**, that will be handed down to the following generations.

The same passion with which, after more than one century, Marco and Aldo Civelli will accompany ALMAR on the international market, providing their customers with a **new experience with water**, that will revolutionize the way of living the bathroom.

LA NOSTRA STORIA

OUR HISTORY

Almar

1969

Gianluigi Civelli fonda la Civelli Gianluigi & C. snc, un'azienda artigiana specializzata nella costruzione di stampi, che inizierà presto ad operare nel mercato delle rubinetterie.

1996

NASCE ALMAR.
I figli Marco e Aldo iniziano la loro attività imprenditoriale: la nuova azienda dedica la sua attività al **settore bagno**, attraverso la produzione di accessori per rubinetterie per conto terzi.

1999

Nascono i primi prodotti e **sistemi doccia ALMAR**: ogni pezzo è ideato, progettato e prodotto internamente.

2006

Inizia la partecipazione di ALMAR alle più importanti **fiere internazionali** di settore.

2009

ALMAR ottiene la **certificazione ISO 9001**.

2010

Nasce il nuovo sistema **EcoAir**, progettato per un utilizzo ecologico dell'acqua.

2012

L'inedito concept di **Sistemi Doccia by ALMAR** segna la nuova direzione dell'azienda: regalare ai propri clienti esperienze emozionali attraverso le proprie creazioni.

2015

ALMAR inaugura la sua **nuova sede** a Cocquio Trevisago.

2017

L'azienda ottiene la **certificazione OHSAS 18001** e il passaggio alla nuova **norma ISO 9001**.

2018

ALMAR è tra le prime aziende in Italia a introdurre all'interno dei suoi processi produttivi il **rivestimento PVD** (Physical Vapor Deposition).

2019

La produzione si amplia con un nuovo **reparto di torneria e fresatura** in acciaio e ottone.

2020

ALMAR inaugura il suo **nuovo showroom**. Uno spazio accogliente e ricercato in cui visionare le collezioni nel luogo stesso in cui hanno origine.

2022

2022, ALMAR CRESCE.
La forte espansione dell'azienda porta all'**ampliamento del reparto PVD** e all'**introduzione di nuovi macchinari e tecnologie**, capaci di far fronte alle più esigenti richieste di produzione.

1969

Gianluigi Civelli establishes Civelli Gianluigi & C. snc, a craft business specialized in the production of moulds and in the moulding of thermoplastic materials. Soon, the company will start operating in the market of taps and fittings.

1996

***ALMAR is born.** After a period of apprenticeship in other companies of the sector, Gianluigi's sons – Marco and Aldo – start their entrepreneurial activity. The new company devotes itself to the **bathroom sector**, producing taps and fittings on behalf of third parties.*

1999

***ALMAR's first products and shower systems** are born: every piece is designed, planned and produced internally.*

2006

ALMAR starts attending the most important international exhibitions of the sector.

2009

*The company obtains the **ISO 9001 certification**.*

2010

*The new **EcoAir system**, designed for an ecological employment of water, is born.*

2012

*The new concept of **Shower Systems by ALMAR** marks the new direction of the company: providing their customers with emotional experiences through their creations.*

2015

*ALMAR opens the **new seat** in Cocquio Trevisago.*

2017

*The company obtains the **OHSAS 18001 certification** and the passage to the new **ISO 9001** standard.*

2018

*ALMAR is one of the first companies in Italy that introduces within its production processes the **PVD** (Physical Vapor Deposition) **coating**.*

2019

*The production enlarges with a new **steel and brass turnery and milling department**.*

2020

*ALMAR opens its **new showroom**. A friendly and refined space where the collections can be seen in the place where they are created.*

2022

***ALMAR IS GROWING**
The big expansion of the company leads to the **widening of the PVD department** and the **introduction of new machines and technologies**, able to meet the most demanding production requests.*

Gli **stabilimenti ALMAR** si estendono su una superficie totale di **10.000 mq** divisa in 2 stabilimenti produttivi:
1_stabilimento di Gavirate in cui hanno sede gli uffici commerciali, tecnici ed amministrativi e la produzione per i reparti acciaio, PVD e assemblaggio oltre al **nuovo showroom espositivo**, inaugurato a gennaio 2020.
2_stabilimento di Cocquio Trevisago in cui trovano collocazione i reparti di stampaggio materie plastiche e il reparto torneria.

ALMAR's factory covers a total surface of 10,000 square meters.
More than the production departments and the technical and administrative offices, the company hosts **a new showroom**, opened in January 2020. A friendly and refined space where ALMAR's collections can be tested in the same place where they have been produced, through an **exclusive water experience**.

* L'antico mulino è stato restaurato e si trova nel comune di Barasso, a testimonianza della storia di ALMAR e del suo legame con le tradizioni.
* The ancient mill has been restored and is located in the municipality of Barasso, to testify ALMAR's history and its bond with traditions.

WATER

L'essenza della vita sulla terra.

The essence of the life on earth.

MATERIAL

La materia di cui una cosa è o può essere fatta.

The matter from which a thing is or can be done.

Waterial rappresenta la nostra visione

per un futuro sostenibile, un modo

di fare impresa nel rispetto di tutto

ciò che è **materiale**, a partire dalla

risorsa più preziosa per la vita, l'**acqua**.

Waterial represents our vision

for a sustainable future, a way of doing

business respecting any material,

starting from the most precious

resource for life: **water**.

UN DOVERE PER IL FUTURO

A DUTY FOR THE FUTURE

Con il neologismo “**Waterial**”, abbiamo

voluto sintetizzare il nostro impegno verso

un modo di fare impresa che tenga sempre

in considerazione gli elementi materiali, ossia

rilevanti che caratterizzano la nostra azienda.

Elementi tangibili come le materie prime

che ci impegniamo ad utilizzare in modo

sempre più responsabile, a partire dall'acqua,

la fonte di vita sulla Terra. Elementi

intangibili come l'impegno, la dedizione,

la passione delle persone di Almar.

Il nostro dovere è di porre una crescente

attenzione sull' impatto che le nostre attività

lavorative possano avere in ambito sociale,

ambientale ed economico-produttivo.

È il nostro impegno per il futuro nei confronti

dei nostri portatori d'interesse, il nostro

modo per creare valore insieme.

*Through the neologism “**Waterial**”,*

we wanted to sum up our commitment

to a way of doing business that always

considers material, i.e. relevant,

elements characterizing our company.

Tangible elements such as the

raw materials that we commit to use

more and more responsibly, starting

with water, the source of life on Earth.

Intangibles such as the commitment,

dedication and passion of Almar's people.

Our duty is to focus on the social,

environmental and economic-

productive impact that our business

operations may generate.

It's our commitment for the future

towards our stakeholders, it's

our way of creating shared value.

STRATEGIA DI SOSTENIBILITÀ

THE SUSTAINABILITY STRATEGY

La strategia di sostenibilità nasce dall'analisi dei temi materiali selezionati dall'azienda e dai propri stakeholder. Per ciascun tema, sono stati individuati i target strategici nelle dimensioni ESG (Environment, Social Governance).

The sustainability strategy comes from the analysis of material issues selected by the Company and its stakeholders. ESG Strategic targets have been identified for each material issue.

ATTENZIONE AL PIANETA

la nostra sostenibilità

Abbiamo a cuore il nostro pianeta: il nostro impegno cresce di anno in anno, e si concretizza con il raggiungimento di obiettivi ambiziosi.

We care about our planet: our commitment is growing year by year and becomes reality with the achievement of ambitious targets.

1 Water Saving

2 trattamento PVD

4 energia da fonti rinnovabili

3 stampaggio con canale caldo

Water Saving

ALMAR è sempre alla ricerca di soluzioni orientate al risparmio idrico. **Velvet Collection** è la nuova collezione di soffioni e docce con un rigoroso controllo sui consumi per la salvaguardia dell'elemento più importante per il Pianeta: l'acqua. **Velvet Collection** è pensata per diminuire il fabbisogno d'acqua per ogni doccia, grazie a un getto uniforme e delicato, capace di coniugare ecologia e funzionalità.

*ALMAR is always in search of water saving oriented solutions. **Velvet Collection** is the new Collection of head showers and hand showers with a strict control on consumption to safeguard the most important element. Even the new **Velvet Collection** is designed to reduce the water requirements of every shower, thanks to a steady and gentle jet, able to join ecology with functionality.*

trattamento PVD I PVD coating

Il PVD (Physical Vapour Deposition) è un'ottima alternativa ai processi di rivestimento tradizionali: l'intero processo è sicuro ed ecosostenibile, non produce scorie di lavorazione e non utilizza materiali tossici.

*the PVD coating (Physical Vapour Deposition) is a great alternative to the traditional coating methods: The whole PVD process is **safe and ecologically sustainable**: it does not produce processing waste and does not use toxic materials.*

energia da fonti rinnovabili I renewable power plant

Nel 2019 ALMAR installa presso lo stabilimento di Cocquio Trevisago 430 pannelli fotovoltaici ad alta efficienza.

In 2019, ALMAR installs 430 highly efficient photovoltaic panels in the factory of Cocquio Trevisago.

stampaggio plastico con canale caldo I thermoplastic moulding

Lo stampaggio dei materiali termoplastici con "sistema a canale caldo" ha migliorato sensibilmente il livello di sostenibilità delle nostre lavorazioni: grazie all'eliminazione dei canali di colata, gli scarti sono ridotti e i materiali di sfido vengono reinseriti nel ciclo di lavorazione.

ALMAR si impegna ogni giorno nei confronti di una produzione più sostenibile, con l'obiettivo di ridurre ulteriormente la produzione di componenti in termoplastico secondo metodo tradizionale (utilizzata per tutte quelle lavorazioni in cui il canale caldo non è applicabile).

The thermoplastic moulding with "hot channel system" considerably improved the sustainability level of our processing operations: thanks to the elimination of the pouring channels, wastes are reduced, and the swarf materials are reintroduced in the processing cycle.

ALMAR undertakes every day to achieve a more sustainable production, with the purpose of furtherly reducing the production of thermoplastic components according to the traditional method (used for all processing operations where the hot channel cannot be applied).

rinnovo del packaging I packaging renovation

ALMAR investe sugli imballaggi dei propri prodotti, riducendo i materiali non riciclabili a favore del cartone. Per tutti gli imballaggi in plastica che non possono essere sostituiti con materiali più sostenibili, utilizziamo solo plastica riciclata.

ALMAR invest in the packaging of its products, reducing the non-recyclable materials in favour of cardboard. For all plastic packaging that cannot be replaced with more sustainable materials, we only use recycled plastic.

PRODUZIONE

PRODUCTION

UNA PRODUZIONE MADE IN ALMAR

Non ci limitiamo a progettare sistemi doccia. Creiamo emozioni.
Nati da una passione per il design che si libera da ogni comune interpretazione, i prodotti ALMAR si trasformano in oggetti capaci di dare valore anche al più piccolo gesto.

I sistemi doccia ALMAR sono **prodotti in Italia da oltre 20 anni**. Moderne tecniche di ingegneristica e l’eleganza del design italiano garantiscono finiture di pregio e i più alti standard di qualità e precisione.
La **filosofia dell’azienda** porta ALMAR a realizzare ogni singolo componente di prodotto all’interno dei propri stabilimenti: l’intero ciclo produttivo, dal design alla produzione e logistica, viene gestito da uno **staff interno attento e qualificato**, orgoglioso di fornire solo il risultato più perfetto.
Durante i processi di lavorazione vengono impiegati soltanto materiali di altissima qualità. In ogni fase di produzione, ALMAR tiene in forte considerazione le sue responsabilità sociall ambientali, ponendosi come obiettivo primario la **sicurezza dei propri dipendenti** e la **salvaguardia dell’ambiente**.

ALMAR è certificata secondo gli standard di qualità UNI ENI ISO 9001:2015 (sistema gestione qualità) e ISO 45001 (sicurezza sul posto di lavoro).

A MADE IN ALMAR PRODUCTION

We don’t merely design shower systems. We create emotions.
Born from a passion for design, free from any common interpretation, ALMAR’s products convert into objects able to enhance even the littlest gesture

*ALMAR’s shower systems have been **produced in Italy for more than 20 years**. Modern engineering techniques and the elegance of Italian design ensure refined finishes and the highest quality and precision standards.*
*The **company philosophy** takes ALMAR to realize every product component in its plants: the whole production cycle, from design to production and logistic, is managed by a careful and **skilled inner staff**, proud to provide only a perfect result.*
*During the processing stages, only highest quality materials are used. In every production stage, ALMAR takes into great consideration its social and environmental responsibilities, setting itself as a primary goal its **employees’ security** and the **environment protection**.*

ALMAR is certified according to ISO 9001 (quality management system) and OHSAS 18001 (security on the working place) quality standards.

CERTIFICAZIONI DI PRODOTTO

PRODUCT CERTIFICATIONS

La sicurezza e la conformità dei sistemi doccia ALMAR sono garantite dai più importanti enti di certificazione mondiale. Ogni certificazione testimonia l'esclusività e l'unicità di ogni prodotto, e la volontà di ALMAR di assicurare ai propri clienti i più alti standard qualitativi presenti sul mercato.

POTABILITA' DELL'ACQUA

I prodotti ALMAR sono dotati di valvole di non ritorno, per **impedire reflussi dannosi e contaminazioni dell'acqua** provenienti dall'esterno. Ogni componente è prodotto con tecnopolimeri omologati secondo le più severe **normative internazionali** per il contatto con acqua potabile:

ACS ~ WRAS ~ KIWA ~ CSA ~ NSF 61 ~ W270 ~ KTW

[VERIFICARE LE LISTE UFFICIALI DI OGNI ENTE]

RIDUZIONE DEI CONSUMI

ALMAR si pone come obiettivo un comportamento ecologico a protezione del clima e dell'ambiente. Mediante la produzione di articoli in grado di funzionare con un ridotto utilizzo di acqua e un invariato comfort di getto, ALMAR ottiene le più ambite certificazioni in merito al risparmio idrico.

TEST MECCANICI

Il laboratorio tecnico ALMAR è **certificato per l'esecuzione dei test CSA**: tale abilitazione consente all'azienda di eseguire internamente la maggior parte dei test richiesti dalla normativa, accorciando il lead time necessario al conseguimento di tale certificazione. Il funzionamento e la resistenza nel tempo dei prodotti ALMAR sono inoltre garantiti dalle normative NFe CSA.

The security and compliance of ALMAR's shower systems are ensured by the most important world certification authorities. Every certification witnesses the exclusiveness and uniqueness of each product and ALMAR's will to ensure its customers the highest quality standards present on the market.

WATER POTABILITY

ALMAR's products are equipped with non-return valves, in order to **avoid harmful backflows and water contaminations** coming from outside. All components are produced with thermoplastics homologated according to the strictest **international standards** for the contact with drinkable water.

ACS ~ WRAS ~ KIWA ~ CSA ~ NSF 61 ~ W270 ~ KTW

[CHECK THE OFFICIAL LISTS]

CONSUMPTIONS REDUCTION

ALMAR's purpose is an ecological behaviour aimed at protecting the climate and the environment. Through the production of items operating with a reduced employment of water and an unchanged jet comfort, ALMAR obtains the most sought-after certifications on water saving.

MECHANICAL TESTS

ALMAR'S technical laboratory is **certified for the execution of the CSA tests**: such qualification allows the company to carry out internally most of the tests required by the regulation, reducing the lead time needed to achieve such certifications. The operation and endurance of ALMAR's products are also ensured by the NF and CSA regulations.

RIVESTIMENTO PVD

ALMAR è tra le prime aziende in Italia, e tra le poche in Europa, a introdurre all'interno dei suoi processi produttivi una lavorazione che cambierà l'idea di rivestimento: il **PVD** (Physical Vapor Deposition).

Ottenuto dall'evaporazione dei metalli che compongono lo strato di rivestimento esterno, il PVD **migliora le caratteristiche funzionali del prodotto**, rendendolo più duraturo e resistente agli agenti atmosferici.

L'intero processo PVD è **sicuro ed ecosostenibile**: non produce scorie di lavorazione e non utilizza materiali tossici.

Il rivestimento PVD Brushed è disponibile anche nella collezione Acciaio 316

PVD COATING

ALMAR is one of the first companies in Italy, and one of the few in Europe, that introduced in its production stages a processing that will change the idea of coating: the **PVD** (Physical Vapor Deposition).

Obtained from the evaporation of the metals constituting the external coating layer, the PVD **improves the functional features of the product**, making it more lasting and resistant to atmospheric agents.

The whole PVD process is **safe and ecologically sustainable**: it does not produce processing waste and does not use toxic materials.

The coating PVD Brushed is also available in the 316 Stainless Steel Collection.

SHOWER SYSTEMS | ABITA IL TUO BAGNO CON ALMAR

SHOWER SYSTEM | LIVE YOUR BATHROOM WITH ALMAR

Una LifeSpa in cui coccolarti.
Un luogo di raccoglimento per far scivolare via i pensieri.
Una soluzione d'arredo capace di stupire.

I sistemi doccia ALMAR traducono in soluzioni ogni aspirazione.

La **stanza da bagno** – l'ambiente più intimo e personale della nostra casa – rivela il nostro modo di essere e di vivere gli spazi.

In una casa moderna, la sala da bagno abbandona il suo ruolo di spazio puramente funzionale per trasformarsi in un **ambiente ricercato e accogliente**, in cui concedersi del tempo e prendersi cura del proprio corpo.

Ecco perché la **scelta della doccia**, protagonista indiscussa del nostro bagno, diventa tanto importante.

*A LifeSpa to enjoy.
A contemplation place to escape your thoughts.
An amazing furniture solution.*

ALMAR's shower system converts every aspiration into solution.

The **bathroom** – the most intimate and personal environment of our homes – reveals our way of being and living spaces.

In a modern house, the bathroom abandons its role of merely functional space and converts into a **refined and pleasant environment**, where you can take your time and take care of our body.

That's why the **choice of the shower**, undisputed protagonist of our bathroom, is so important.

VELVET COLLECTION

Product Range

Una nuova collezione caratterizzata da un innovativo getto: **Velvet Rain**.

I **soffioni Velvet** sono disponibili in variante monogetto e multigetto, declinati in versione con braccio o a incasso.

La nuova collezione Velvet nasce dalla responsabilità che abbiamo verso il bene più prezioso per la vita: **l'acqua**.

*A new collection characterized by a new innovative jet: **Velvet Rain**.*

*The **Velvet head showers** are available both with single and multiple jet, in two versions: with arm or built-in.*

*The new Velvet collection is born from the responsibility we have towards the most precious good for life: **water**.*

Dal desiderio di rispettare il pianeta alla realtà il passo è breve e si chiama **Velvet Rain**.

Con questo rinnovato impegno verso il Pianeta la gamma Velvet Rain entra con stile e personalità nell'ambiente bagno.

*From the desire to respect our Planet to reality, it's a short step and is called **Velvet Rain**.*

With this renewed commitment to our Planet, the Velvet Rain range enters with style and personality into the bathrooms.

BEAM

Design e funzionalità

Design & functionality

Il nuovo soffione **Beam** unisce estetica pulita e rigorosa a un'estroversa funzionalità, e si lascia scoprire nelle versioni monogetto e multigetto.

Adatto anche a spazi contenuti, **Beam** va oltre il suo ruolo di soffione e diventa un elemento di arredo capace di stupire, indicato per soluzioni a parete e a soffitto.

Nella versione multigetto ruotando la ghiera in finitura è possibile scegliere fra tre diversi tipi di getto, con possibilità di getti combinati.

*The new shower head **Beam** joins a clean and strict look with an innovative functionality and is available in two versions: single and multiple jet.*

*Suitable also for small spaces, **Beam** goes beyond its role of shower head and becomes a **fitting able to surprise**, suitable to be mounted on the wall or in the ceiling. Rotating the ferrule, you can choose among **three different types of jet**, with the possibility of combining them.*

● INCLINAZIONE REGOLABILE

L'inclinazione del soffione può essere regolata manualmente dall'utilizzatore per assicurare il massimo del comfort nell'utilizzo.

ADJUSTABLE INCLINATION

The shower head inclination can be adjusted manually, to ensure the maximum comfort while using it.

BEAM

Tre getti in un solo soffione

Three jets in one shower head

MASSAGE

Un **getto vigoroso** ad azione massaggiante intermittente, che conquista con la sua azione energizzante.

A **strong jet** with an intermittent massaging action, conquering with its energizing action.

AIRSTREAM

Una delicata combinazione di aria ed acqua, per una **sensazione piena e avvolgente**.

A soft mix of air and water, for a **full and enveloping feeling**.

RAIN

Una **morbida pioggia** che accarezza il corpo e trasforma la doccia in un momento di vero piacere.

A **soft rain** caressing the body and converting the shower into a moment of real pleasure.

New Water Experience

Relax
Comfort
Regeneration
Wellbeing

Regalati ogni giorno l'**esperienza di un'esclusiva LifeSpa**:
le docce ALMAR ti accolgono in un'elegante oasi di pace, in
cui rifugiarti dalla frenesia quotidiana e lasciarti andare.

I **sistemi doccia ALMAR sono pensati sulla tua unicità**: la
combinazione di differenti getti d'acqua ti offre la possibilità
di creare il tuo sistema doccia ideale. Per un'esperienza
intima, legata alle emozioni.

Enjoy every day the **experience of an exclusive LifeSpa**:
ALMAR's showers welcome you in an elegant haven of peace,
where you can escape the daily frenzy and let your hair down.

**ALMAR's shower systems are thought for your
uniqueness**: the mix of different water jets offers you the
possibility of creating your ideal shower system. For an intimate
experience, connected with emotions.

VELVET EXPERIENCE

Feel the Water

Il nuovo getto Velvet Rain trasforma la doccia in un'esperienza **morbida, avvolgente e silenziosa**, che coniuga eleganza, ecologia e benessere.

*The new Velvet Rain jet elevates the concept of shower, converting it into an **enveloping experience**, joining elegance, ecology and wellbeing.*

VELVET RAIN

una **pioggia sottile e vellutata**, per un effetto uniforme, avvolgente e rilassante.

*a **thin and velvety rain**, for a steady, enveloping, and relaxing effect.*

Nella sua variante multigetto, Velvet Rain è affiancato dal nuovo getto **Intense Rain**, o dal getto a cascata **XL Waterfall**.

*In the **multi-jet version**, Velvet Rain is matched to the new **Intense Rain** jet, or the **XL Waterfall** jet in the configuration Temptation 500.*

INTENSE RAIN

corposi fili d'acqua per un getto intenso e profondamente rigenerante.

***robust water threads**, for a strong and deeply regenerating jet.*

XL WATERFALL

Un'ampia lama, un **getto piacevole e voluminoso**, per un profondo effetto distensivo sul corpo.

*A wide water blade, a **pleasant and dense jet**, for a deep relaxing effect from one shoulder to the other.*

Velvet Rain: una pioggia vellutata che garantisce un risciacquo completo e uniforme da sapone e shampoo in una coccola silenziosa e avvolgente.

***A velvety and silent rain**, ensuring a complete and even rinsing from soap and shampoo in an enveloping and silent cuddle.*

Water experience | soffioni

Water experience | head showers

Una pioggia sottile e vellutata, per un effetto uniforme, avvolgente e rilassante. Garantisce un risciacquo completo e uniforme da sapone e shampoo in una coccola silenziosa e avvolgente.

A thin and velvety rain, for a steady, enveloping, and relaxing effect ensuring a complete and even rinsing from soap and shampoo in an enveloping and silent cuddle.

Un elegante cilindro d'acqua che impatta sul corpo in un **getto pieno e coinvolgente**, per poi distribuirsi sulla pelle in modo delicato e uniforme. Per chi in una doccia cerca carattere e unicità.

An elegant water cylinder hitting the body with a full and involving jet, that then distributes softly and evenly on the skin. For those who look for character and uniqueness in a shower.

Un'ampia lama d'acqua si riversa sul corpo in un **getto piacevole e corposo**, per un profondo effetto distensivo da spalla a spalla.

A wide water blade flows onto the body in a pleasant and dense jet, for a deep relaxing effect from one shoulder to the other.

La perfetta armonia di un movimento a spirale ad **intensa azione massaggiante e tonificante**. Il getto ideale per sciogliere tensioni e contratture dopo un allenamento sportivo o una giornata di lavoro.

The perfect harmony of a double spiral jet with a deep massaging and tonic action. The ideal jet to loosen tensions and contractures after a sports training or a long working day.

Copiosi cilindri d'acqua creano un'ampia **cascata a pettine** e si distribuiscono con uniformità sul corpo, senza perdere la loro consistenza durante la caduta.

Rich water cylinders create a wide diagonal waterfall and distribute uniformly on the body, without losing their consistency during the fall.

Una pioggia rigenerante: miliardi di cristalli d'acqua si infrangono sulla pelle, facendo scivolare via la stanchezza. Un **vivace getto basculante**, perfetto per iniziare la giornata con una nuova energia.

A sensual and regenerating rain: thousand water crystals break on the skin, letting tiredness flow away. A lively tilting jet, perfect to start the day with a new energy.

Una rinfrescante pioggia nebulizzata che avvolge in un **tocco silenzioso, leggero e avvolgente**. Ideale, dopo il getto pioggia, per concludere la doccia quotidiana.

A refreshing nebulized rain wrapping up in a silent, light and enveloping touch. Ideal, after rain jet, to end the daily shower.

Per una doccia quotidiana speciale nella sua semplicità. Un **getto uniforme, rapido e versatile**, adatto ad ogni momento della giornata.

A special, simple daily shower. An even, quick and versatile jet, suitable for every moment of the day.

Water experience | bodyjet

Water experience | bodyjets

La potenza del getto spin unita all’installazione a parete, per un **massaggio localizzato su gambe e schiena**, capace di riattivare la circolazione sanguigna e tonificare i tessuti.

*The power of the spin jet, joined with the installation on the wall, for **localized massage on legs and back**, able to reactivate the blood circulation and tone up the tissues.*

Un’onda basculante che accarezza con vigore, per un **rigenerante massaggio total body**.

*A tilting wave caressing with strength, for a **regenerating total body massage**.*

Un ampio getto a pioggia, per un **effetto drenante e profondamente avvolgente**.

*A wide rain jet, for a **relaxing and deeply enveloping effect**.*

Un rinfrescante getto nebulizzato che avvolge in un **tocco silenzioso, leggero e avvolgente**.

*A refreshing nebulized jet wrapping up in **a silent, light and enveloping touch**.*

EMOTION PROGRAM

Quando l'esperienza incontra l'eleganza.

La collezione di docce **Emotion** soddisfa le esigenze più ricercate attraverso un design pulito e contenuto nelle proporzioni. Un'elegante fusione tra linee essenziali e coinvolgenti funzionalità.

In un solo prodotto **3 tipi di getto differenti**: il comando permette di selezionare comodamente il getto desiderato con possibilità di getti combinati.

When experience meets elegance.

Emotion collection of showers meets the most sought-after needs through a clean and contained design as to proportions.

An elegant fusion between essential lines and fascinating functionalities.

Three jets in a product. The switch allows you to select the jet desired with the possibility to choose among other jet combinations.

RAIN

Una **morbida pioggia** che accarezza il corpo e trasforma la doccia in un momento di vero piacere.

*A **soft rain** caressing the body and converting the shower into a moment of real pleasure.*

Rain

AIRSTREAM

Una delicata combinazione di aria ed acqua, per una **sensazione piena e avvolgente**.

*A soft mix of air and water, for a **full and enveloping feeling**.*

AIRSTREAM

MASSAGE

Un **getto vigoroso** ad azione massaggiante intermittente, che conquista con la sua azione energizzante.

*A **strong jet** with an intermittent massaging action, conquering with its energizing action.*

POSH

Un amore per l'acqua ancora più prezioso.

An even more precious love for water

Realizzata in ottone, Posh abbandona il suo ruolo di doccetta per trasformarsi in un prezioso oggetto d'arredo. La sua **raffinatezza senza tempo** si accompagna a un'**eclettica versatilità nelle finiture**, rendendola adatta sia a un contesto classico sia a un ambiente più moderno.

*Made of brass, Posh abandons the pure role of shower and converts into a precious furniture object. Its **timeless elegance** matches with an eclectic **versatility of finish**, making it suitable both for a classic and for a modern environment.*

La versatilità dell'erogatore in finitura la rende adatta a ogni ambiente.

Il fascino contemporaneo del manico nero si completa attraverso la nuova serie di flessibili neri con conici in finitura.

The versatility of the finish makes Posh suitable to every environment.

The contemporary charm of the black handle is completed with the new series of black flexible hoses with finishing cones.

MODULAR

un nuovo concetto di miscelazione

Modular è il nuovo sistema di moduli a incasso brevettato da ALMAR: una serie di **moduli configurabili in diverse soluzioni**, per soddisfare il massimo delle aspettative in termini di funzionalità ed estetica.

Una **nuova concezione di miscelazione**, che fa dell'equilibrio visivo il suo punto di forza: grazie a un moderno studio sullo spazio della cartuccia, il **sistema Modular** permette di ridurre lo spazio di installazione e di ottenere un sistema doccia multifunzione con estetiche della stessa dimensione.

Per sistemi doccia e vasca da 1 a 3 funzioni.

a new mixing concept

Modular is the new system of built-in modules designed by ALMAR: a series of **modules configurable in different solutions**, to meet the maximum expectations in terms of functionality and aesthetics.

A new concept of mixing, that makes of visual balance its strong points: thanks to the modern study of the cartridge, the **Modular system** allows to reduce the installation space and to obtain a multi-function shower system with rosettes with the same size.

For shower and bath systems from 1 to 3 functions.

LE NOSTRE PROPOSTE

OUR PROPOSALS

Orientamento orizzontale o verticale, termostatico o meccanico, da 1 a 3 vie, con estetiche tonde o quadrate: **con il sistema Modular** ogni combinazione diventa possibile.
Almar ha studiato e selezionato delle combinazioni per sistemi da 1 a 3 uscite, in versione meccanica e termostatica e adatte ad installazioni doccia e/o bordo vasca.

*Horizontal or vertical orientation, Thermostat or mechanical version, from 1 to 3 or more ways, with round or square aesthetics: with the **Modular system** all combinations are possible.
Discover the solution we designed for you: system from 1 to 3 exits, in mechanical and Thermostatic version, suitable to be installed in a shower and/or on the edge of the bath tub.*

VERSIONE TERMOSTATICA | THERMOSTAT VERSION

- .01 presa acqua con doccia | water outlet with hand shower
- .02 apertura/chiusura + deviatore | open/close + diverter
- .03 regolazione temperatura | temperature regulation

VERSIONE MECCANICA | SINGLE LEVER MIXER VERSION

- .01 presa acqua con doccia | water outlet with hand shower
- .02 deviatore | diverter
- .03 apertura/chiusura + regolazione temperatura | open/close + temperature regulation

1 PROFONDITA' DI INCASSO

*Massima profondità di incasso senza l'utilizzo di prolunghe speciali.

BUILT-IN DEPTH

Maximum built-in depth without any special extension kit.

MODULAR

2 FACILITA' D'INSTALLAZIONE

I pianetti posizionati sulla cover di protezione permettono di **evitare errori di posizionamento** durante l'installazione.

I singoli moduli sono assemblati in unico corpo, così da facilitare la fase di installazione.

EASY INSTALLATION

The flat areas placed on the protection cover allow to **avoid positioning errors** during the installation.

Each module is assembled in a single body, to facilitate the installation stage.

3 ERMETICITA' VERSO L'ESTERNO

Il **guscio protettivo in materiale termoplastico** protegge il muro da condense e isola dal rumore, consentendo una maggiore insonorizzazione.

WATERTIGHTNESS TOWARDS THE OUTSIDE

The **protection shell made of thermoplastic material** protects the wall from condensation and insulates against noise, allowing a greater soundproofing.

4 SEMPLICITA' NELLE SOLUZIONI

Possibilità di **inversione delle acque** nel caso di errata installazione idraulica.

EASY SOLUTIONS

Possibility of **inverting water** in case of wrong hydraulic installation.

5 EASY ORIENTATION

Il "cuore" del sistema, i moduli temperatura, consentono di installare il prodotto in orizzontale e verticale. 1 ingresso acque e 3 uscite daranno la massima libertà di impiego

EASY ORIENTATION

The heart of the system, the temperature modules, allow to install the product in horizontal or vertical. 1 water inlet end 3 water outlets will give maximum freedom of use.

versione meccanica | single lever mixer version

CARATTERISTICHE

- **Facile e veloce installazione** del box universale su qualsiasi tipologia di muro (cemento, cartongesso, legno).
- Il **corpo centrale** in ottone della scatola a incasso è **completamente rivestito in materiale termoplastico**, per garantire la massima ermeticità e per ridurre il livello di rumorosità durante l'utilizzo.
- Gli **ingressi di acqua calda e fredda** sono posizionati nella parte inferiore, al fine di evitare raccordi ad angolo durante l'installazione.
- Le **portate di acqua (l/min)** di ogni singola uscita sono studiate per poter installare qualsiasi prodotto della gamma ALMAR.
- **Cartuccia termostatica ad alta precisione** per una regolazione della temperatura immediata.
- Tappo fornito di gradini per un uso preciso della bolla e per **evitare errori di installazione**.
- **Estetiche** con rosoni tondi o quadri.

SMART FEATURES

- **Easy and quick installation** of the universal box on any type of wall (concrete, bricks, plasterboard, wood).
- The brass **central body** of the embedded box is **covered with thermoplastic rubber**, to ensure the maximum watertightness and reduce the level of noise during the employment.
- The **hot and cold water inlets** are placed in the lower part of the universal box, in order to avoid corner joints during the installation.
- The **water flows (l/min)** of each outlet are studied so that any product of the range Shower System by ALMAR can be installed.
- **High precision Thermostat cartridge** for an immediate temperature regulation.
- Plastic protection cover for the installation.
- **Trim sets** with round or square rosettes.

CORE

UNIVERSAL BOX

CORE universal box è il cuore di ogni miscelatore CORE.

Un corpo a incasso universale che ti permette di cambiare idea. **Ancora e ancora.**

Prenditi del tempo per scegliere funzionalità ed estetica del tuo miscelatore: installando **CORE universal box** potrai cambiare moduli, placche e finiture in qualsiasi momento, senza alcun intervento di muratura.

CORE universal box is the heart of each CORE mixer tap.

*A universal embedded body allows you to change your mind. **Once and once again.***

*Take your time to choose the functionalities and look of your mixer tap: installing **CORE universal box** you can change your modules, plates and finishing at any moment, without any masonry interventions.*

EASY INSTALLATION

Con **CORE** scegli tu la disposizione delle vie.

With **CORE**, you can choose the arrangement of the outlets.

DA 1 A 3 GETTI

Un unico corpo a incasso che ti permette di personalizzare in qualsiasi momento **estetica e funzionalità** del tuo miscelatore.

Con **CORE** potrai scegliere tra:

- moduli meccanici;
- moduli termostatici;
- moduli termostatici push.

L'unica decisione che dovrai prendere al momento dell'installazione è il numero di funzioni del tuo miscelatore. Per tutto il resto, concediti il lusso di cambiare idea.

Installando **CORE universal box**, potrai sostituire moduli, placche e finiture in qualsiasi momento, senza nuovi interventi di muratura.

FROM 1 TO 3 FUNCTIONS

A single embedded body that allows you to personalize at any moment the **look and functionality** of your mixer tap.

With **CORE** you can choose among:

- single lever shower mixer;
- Thermostat modules;
- push Thermostat modules.

The only decision you have to make at the moment of the installation concerns the number of functions of your mixer tap. As to the rest, you can change your mind whenever you want.

Installing **CORE universal box**, you can change modules, plates and finishing at any moment, without masonry interventions.

SMART FEATURES

- **Scatola a incasso universale** per versione meccanica, termostatica e termostatica con pulsanti per 1, 2 o 3 vie.
- **Universal embedded box** for mechanical and Thermostat version, for 1, 2 or 3 ways.
- **Facile e veloce installazione** del box universale su qualsiasi tipologia di muro (cemento, cartongesso, legno).
- **Easy and quick installation** of the universal box on any type of wall (concrete, bricks, plasterboard, wood).
- Il **corpo centrale** in ottone della scatola a incasso è **completamente rivestito di gomma termoplastica**, per garantire la massima ermeticità e per ridurre il livello di rumorosità durante l'utilizzo.
- The brass **central body** of the embedded box is **covered with thermoplastic rubber**, to ensure the maximum watertightness and reduce the level of noise during the employment.
- Gli **ingressi di acqua calda e fredda** sono posizionati nella parte inferiore del box universale, al fine di evitare raccordi ad angolo durante l'installazione.
- The **hot and cold water inlets** are placed in the lower part of the universal box, in order to avoid corner joints during the installation.
- Le **versioni** meccanica e termostatica sono **intercambiabili** tra loro in ogni momento.
- The mechanical and Thermostat **versions** are **interchangeable** among them at any moment.
- Il prodotto viene fornito in **due diversi imballi**: il primo per il box universale da incasso, il secondo per le parti estetiche e i moduli funzionali.
- The product is supplied in **two different packaging**: the first one for the universal embedded box, the second for the aesthetical parts and the functional modules.
- Le **portate di acqua (l/min)** di ogni singola uscita sono studiate per poter installare qualsiasi prodotto della gamma Shower System di ALMAR.
- The **water flows (l/min)** of each outlet are studied so that any product of the range Shower System by ALMAR can be installed.

HIGH FLOW

High Flow è l'innovativo **miscelatore ad alta portata di ALMAR**. Una sofisticata soluzione che ti permette di configurare il tuo sistema doccia, personalizzando il numero di getti, l'orientamento del miscelatore e l'estetica delle maniglie. Per un'esperienza doccia che ha dell'incredibile.

***High Flow** is the innovative **high flow mixer tap by ALMAR**. A refined solution that allows you to shape your shower system, personalizing the number of jets, the orientation of the mixer tap and the look of the handles. For an incredible shower experience.*

INCREDIBLE SHOWER EXPERIENCE

Intensa potenza di getto e **uso simultaneo di più funzionalità**
A deep jet power and simultaneous employment of several functionalities

HIGH PERFORMANCES

Alte portate anche a bassa pressione (raccordi 3/4”).
High flows even at low pressure (3/4” connections).

Cartuccia termostatica ad alta precisione per una regolazione della temperatura immediata.
High precision Thermostat cartridge for an immediate temperature regulation.

Uso simultaneo di più funzioni.
Simultaneous employment of several functions.

Maniglie in ottone con rosoni singoli o placca unica.
Brass handles with single rosette or plate.

SMART FEATURES

Installazione orizzontale o verticale.
Horizontal or vertical installation.

Raccordi su ciascun lato del modulo deviatore per una facile installazione dei tubi.
Connections on each side of the switch unit for an easy installation of the pipes.

Facile e veloce installazione con “easy box” su qualsiasi tipologia di muro (cemento, cartongesso, legno).
Easy and quick installation with “easy box” on any type of walls (concrete, bricks, plasterboard, wood).

Tappo di protezione in plastica per le fasi di installazione.
Plastic protection cover for the installation procedure.

Raccordi acqua calda e fredda in basso al modulo termostatico per evitare tubi con angoli di 90° e per ridurre gli spazi.
Hot and cold water connections placed in the lower part of the Thermostat module, to reduce the spaces and avoid installing pipes with 90° angles.

Tappo fornito di gradini per un uso preciso della bolla e per evitare errori di installazione.
Cover equipped with notches for a precise use of the level and to avoid installation mistakes.

Estetiche con placca unica o rosoni singoli.
Single plate or single rosette possibilities.

COMPLEMENTI D'ARREDO | ACCESSORIES

In una stanza da bagno esclusività ed eleganza si rispecchiano anche nei particolari: gli **accessori ALMAR** sono disponibili in differenti finiture coordinate, e possono essere utilizzati come soluzione singola o come elementi da combinare tra loro.

Per chi è attento anche al più piccolo dettaglio.

*In a bathroom, exclusiveness and elegance are reflected also in details: **ALMAR accessories** are available in different coordinated finishing and can be employed as a single solution or as elements to be combined among them.*

For those who are interested even to the littlest detail.

bathrobe holder

roll holder

1_codice del prodotto | product code **2**_informazioni aggiuntive | additional product informations **3**_tipi di getto | type of jets | **4**_numero di getti/funzioni | number of jets (WAYS) | **5**_numero di pezzi in cartonbox | number of pieces in a cartonbox **6**_finiture disponibili | availabe finishes

Per la comunicazione dell'ordine indicare, dopo il codice del prodotto, il punto seguito dalle due lettere corrispondenti alla finitura scelta.

esempio:
E044200.**CR** per finitura Cromo
E044200.**HB** per finitura PVD Brushed High Brass
E044200.**HB316** per finitura 316 PVD Brushed High Brass *
*NB: nel caso di prodotto in Acciaio 316, nel codice dopo il punto, indicare anche 316

To communicate the order, indicate after the product code, “dot” followed by the 2 letters of the chosen finishing.

example:
E044200.**CR** Chrome finishing
E044200.**HB** PVD Brushed High Brass finishing
E044200.**HB316** 316 PVD Brushed High Brass finishing *
*N.B.: for products in 316 Stainless Steel, in the product code after “dot”, indicate also 316

KIT DISPLAY HIGH FLOW

HIGH FLOW UNIVERSAL KIT DISPLAY **D003076**

- Il modulo display per High Flow è universale:
- acquistare un numero di moduli pari al numero di maniglie desiderate (maniglia termostatica + maniglia/e deviatori)
 - completano il kit display le maniglie estetiche (maniglia termostatica + maniglia/e deviatori)
 - per indicare l'estetica delle maniglie selezionare il codice prodotto* presente nella sezione Water Control

* per le maniglie non esiste un “kit display” specifico in quanto queste corrispondono al prodotto da catalogo per la vendita
