"INNOVATIVE"

DNA

Throughout The Next Century

1980

TOTO launched WASHLET, providing consumers with a whole new level of cleanliness and comfort.

1946

After World War II, TOTO began manufacturing metal fittings and faucets in addition to ceramics.

1993

NEOREST toilet was launched incorporating WASHLET with a comprehensive range of TOTO innovations. It brought with it the fullest realization yet of the principle of Clean Technology.

1917

The company was established by Kazuchika Okura under the name, TOYO TOKI CO. LTD. which was later renamed to TOTO.

1923

The Great Kanto Earthquakes struck devastating Tokyo. A sewage system was built during the reconstruction, leading to a rapid growth in demand for sanitary wares.

2008

TOTO Asia Oceania Pte. Ltd. was established as the headquarters of the Middle East, South Asia, South East Asia, and Oceania.

2014

TOTO India Industries launched its first Indian factory in Halol, Gujarat on 20th Aug, 2014.

In May 2017, TOTO ushered in the 100th anniversary of the establishment. We look forward to tomorrow and the future, to provide people beyond expectations "every day".

2015

The TOTO Museum in Kitakyushu was opened to showcase the evolution of the business and its products. The museum highlights the historical landmarks that changed Japanese bathroom culture, including the move from rural to city living. Old toilet seats are on display, as well as exquisite porcelain tableware that the company used to produce as a side business in the past. TOTO aims to promote the appeal of this complex as a point of contact with visiting customers and clients. It positions as a landmark that disseminates information about the TOTO brand from Kokura, the birthplace of the company, to people all around the world.

TOTO Asia Oceania launched its first Technical Center in Singapore. It serves to introduce TOTO latest products and technologies to customers.

2013

2019

TOTO India launched its first company owned showroom in India. With an area of 12000 sq.ft. and over 900 exclusive sanitaryware & technology products TOTO DELHI SHOWROOM (TDS) has gained fast popularity as a place for a design & architecture industry professionals to explore, discuss and share bathroom solutions.

TOTO India Industries Pvt Ltd was established with its head office in Mumbai.

2011

Always Innovating to Spread a Culture of Everyday Comfort and Cleanliness.

Since its launch in the 1980s, WASHLET has continually evolved through the invention of countless innovative clean technologies. This is also our history of creating-and spreading around the world-a new culture of comfort and cleanliness through the shift from only wiping with toilet paper to cleansing with water. TOTO will continue pursuing technological innovation and design development to make the lives of people everywhere fresher and richer.

Understated Presence

**Our wish is to provide,
as an integral part of everyday life,
enrichment to every person.**

**Our goal is to design products
with integrity and longevity,
to which people form an attachment over time.**

**Weaving together spaces that are beautiful and comfortable,
and experiences that are pleasant.**

This is the TOTO design.

The three elements that bring the TOTO Design Philosophy to life.

Design Elements

Gentle to people

- **A part of everyday life**
- **Offers peace of mind**
- **Gentle to the human body**

Comfortable

- **Harmonizes with space**
- **Pleasant interface between people and objects**
- **Beautiful appliance**

Sincere on Beauty

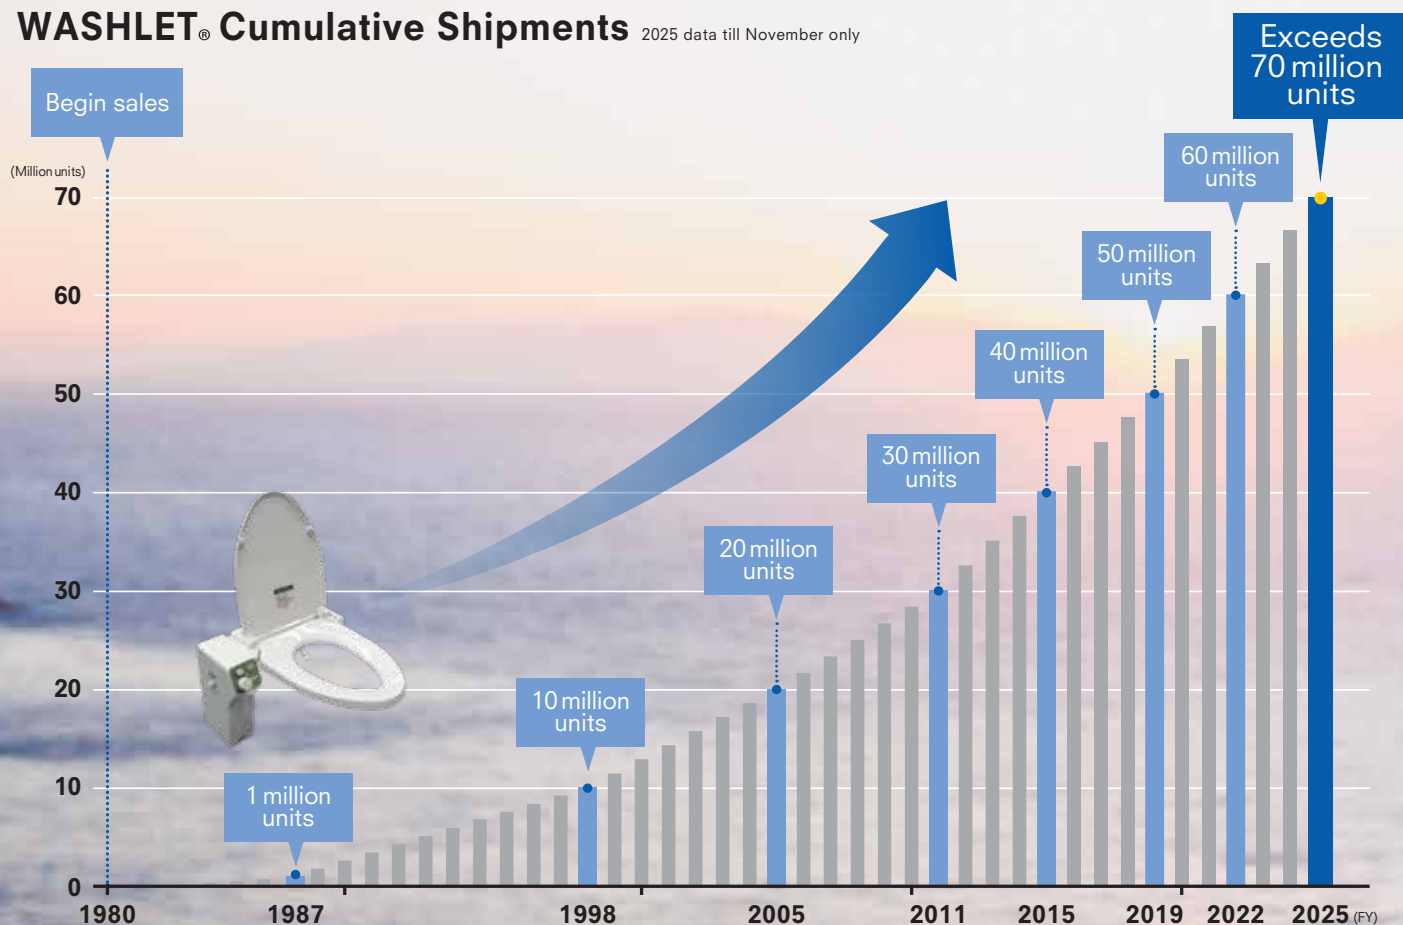

- **Users find it pleasurable**
- **Retains beauty over time**
- **Creating a sustainable future**

WASHLET®

Life-changing technology that brings wellness to life.

Launched in 1980, WASHLET began a revolution. It was a concept so innovative and so intelligently designed that it reinvented the way people perform the most vital daily ritual of the day. WASHLET introduced the custom of cleansing washing to a world that had long relied on the less sanitary and far less comfortable method of wiping with toilet paper. Beyond the hygiene, this life-changing product brings a sense of harmony and wellness to daily life. By 2025, over 70 million units had been sold. Today, with focus on wellness, TOTO continues to develop advanced new technologies for WASHLET.

WASHLET® Cumulative Shipments 2025 data till November only

ICON GUIDE

TOILET & WASHBASIN

EWATER+		Ewater+ sprays the wand, toilet bowl and the underneath of the seat with electrolyzed water, keeping them clean to reduce the need for harsh chemicals.
CEFIONTECT		Advanced CEFIONTECT glaze creates an ultra-smooth surface that resists dirt and buildup, keeping ceramics cleaner for longer with less water and chemical use.
PREMIST		A film of water keeps waste from sticking onto the toilet bowl.
TORNADO FLUSH		360° cleaning power reaches every spot using less water.
RIMLESS		The RIMLESS design not only leaves no place for waste and germs to hide, it's also much easier to clean.
AIR-IN WONDER-WAVE		AIR-IN WONDER-WAVE uses air-rich water to create a comfortable washing sensation while ensuring better cleansing with less water.
LINEARCERAM		Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.
WATER SAVING		Innovative design that minimizes water usage with every flush, ensuring efficiency and environmental sustainability.

COMFORT TECHNOLOGY

AUTO FUNCTIONS		Product featuring integrated and automated sensor-activated functions.
HEATED SEAT		The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.
DEODORIZER		Highly- effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.
WARM AIR DRYING		The warm air dryer works in sync with the water spray for a fresh, dry feeling.

FAUCET

SOFT FLOW		Elegant streams of water gently touch skin. A premium calming experience. Soft and soothing.
COMFORT GLIDE		Comfort goes beyond ease of movement, lasting ease of use becomes true comfort. That's why TOTO designed an internal valve based on user touch, ensuring smooth, reliable operation.
ECO CAP		A feature that mixes air with water to reduce water usage while still providing an effective wash, helping to conserve resources without compromising performance.
ECO POWER		A touchless faucet technology that generates its own electricity using water flow, eliminating the need for external power sources and promoting energy efficiency.

SHOWER

MIST SPA		The mist is infused with ultrafine bubbles and is gentle on the skin
CALMING SHAWL		The spray holes of the overhead shower are arranged in a arc shape to prevent water from getting your face or hair wet.
WARM SPA		Embraced in warmth, relaxed & Ready for rest Gentle stream of warm water that envelops the body.

SHOWER

GYROSTREAM

A rotating shower nozzle with pulsating water stream that creates a massaging effect.

COMFORT WAVE

Experience the sensation of large droplets of water, richly dense and pleasing to the scalp, delivering a luxurious sense of comfort with every use.

INTENSE WAVE

A stimulating water stream that provides a more vigorous showering experience. Ideal for relaxing tired muscles or kickstarting your day.

ACTIVE WAVE

Stimulating to both body and mind, awakening the senses with every moment.

INTENSE WAVE+

Enhanced with stronger water pressure, offering an even more intense, revitalizing flow for ultimate relaxation and stimulation.

SAFETY THERMO

SMA Thermostatic Valve Technology uses a responsive Shape Memory Alloy coil to quickly adjust water temperature for a safer shower experience.

HEAT PROTECT

Prevents burns by covering hot water paths with a layer of cold, ensuring safety and comfort with a beautifully designed fixture for a more pleasant bath experience.

MINI UNIT

Unified exterior sizes for concealed shower valves creating a balanced bathroom space.

BATH TUB

ZERO DIMENSION

ZERO DIMENSION bathing offers freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

RECLINE COMFORT

A reclined bathing position that supports the neck and back, delivering a deep sense of relaxation and tranquility for a rejuvenating experience.

NEOREST

Since 1993

NEW REST™ NEOREST is changing the conventional wisdom of restrooms through its creation of new restroom spaces and uses. It is constantly evolving for our everyday well-being.

PURE LUXURY

CLEAN TECHNOLOGY

Ensuring lasting cleanliness
for your peace of mind

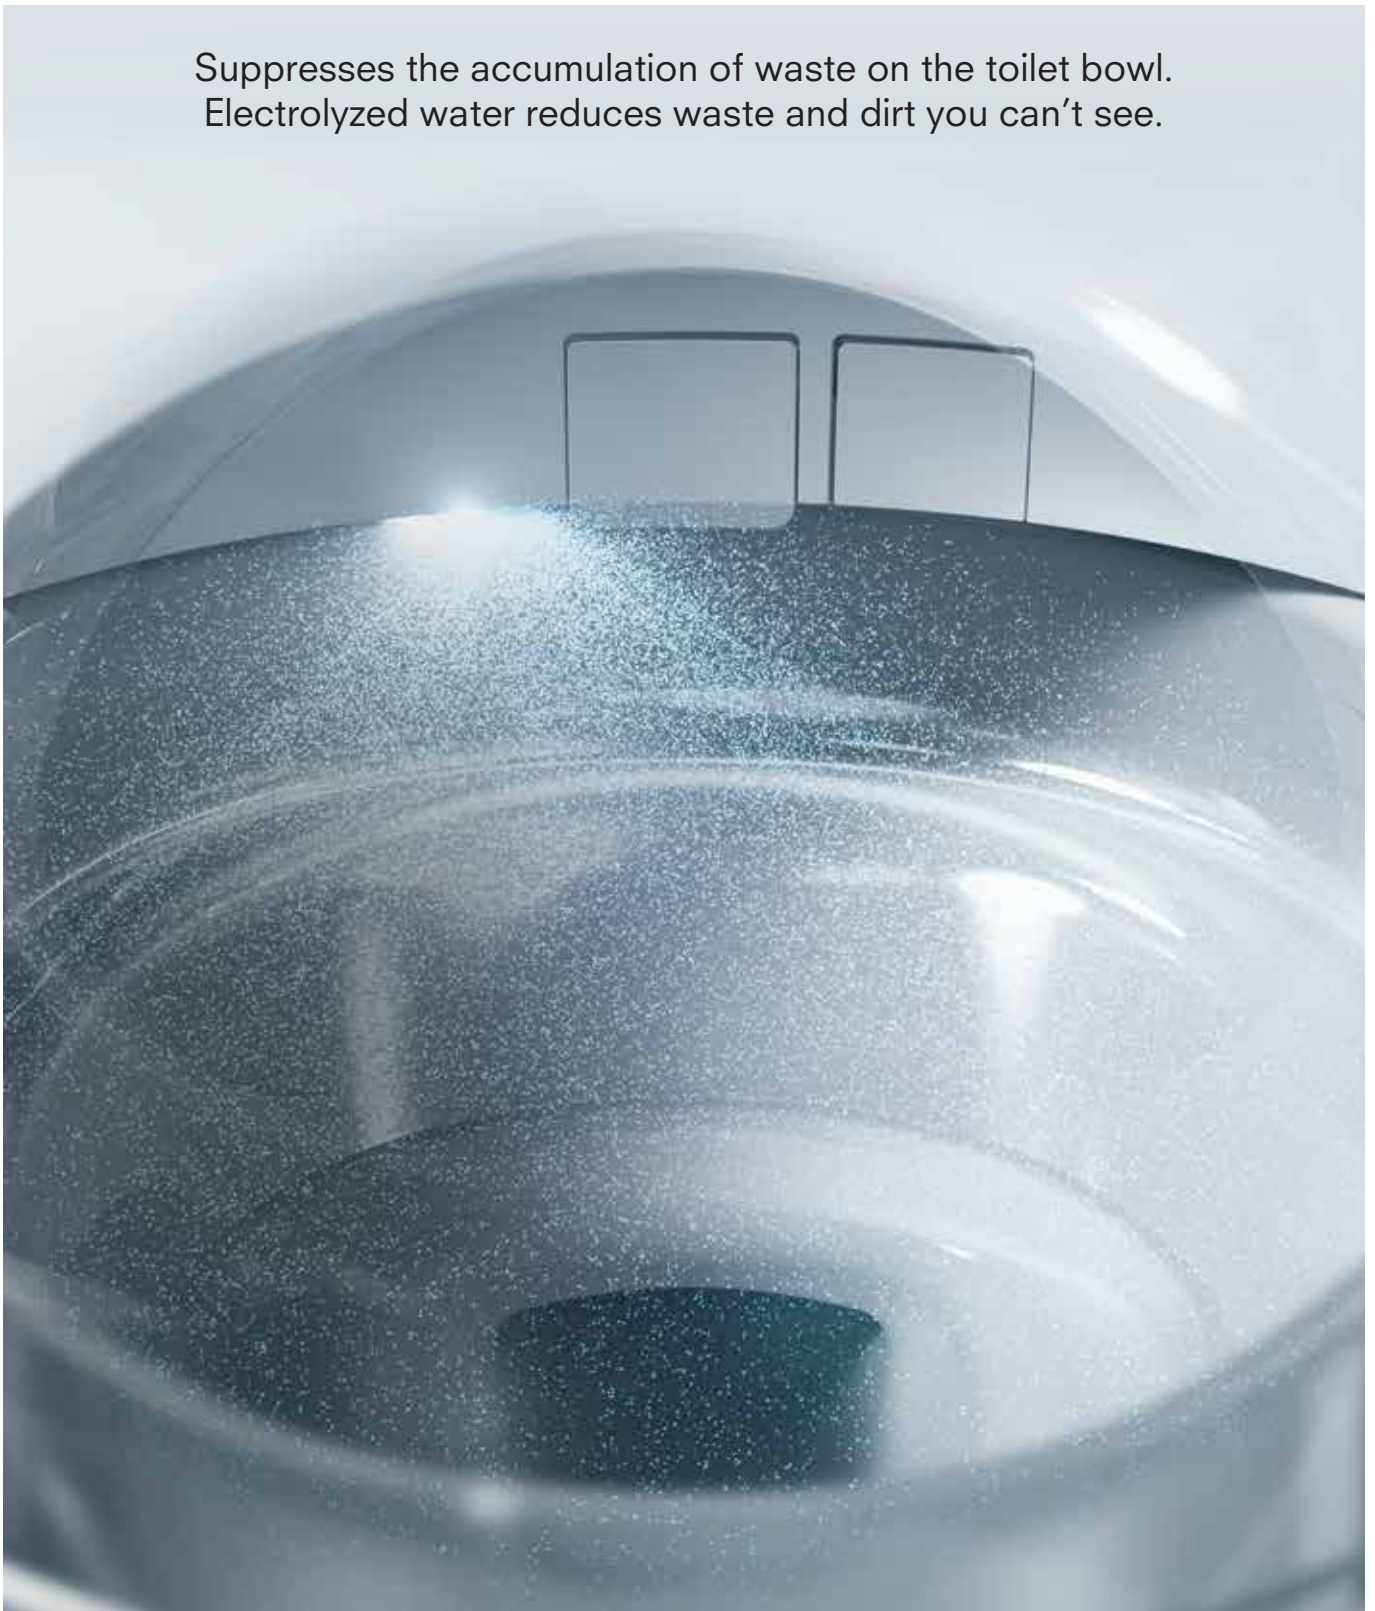

CLEAN SYNERGY

EWATER+

for BOWL

Suppresses the accumulation of waste on the toilet bowl.
Electrolyzed water reduces waste and dirt you can't see.

EWATER+

WASHES THE TOILET BOWL, WHERE WASTE TENDS TO ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ leaves microscopic waste no place to hide and provides everyday peace of mind.

Without EWATER+

With EWATER+

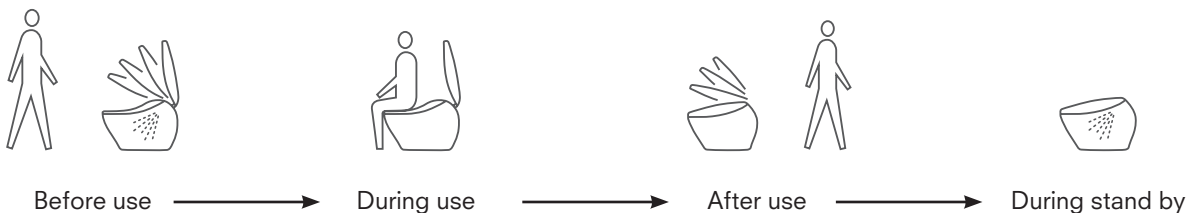

How EWATER+ Cleans

PREMIST, a fine mist of water is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

EWATER+ is applied to wash the wand and toilet bowl and remove waste

EWATER+ is automatically sprayed 8 hours after the last use

Generated from tap water

Uses no detergents or chemicals

Reverts to normal water with time

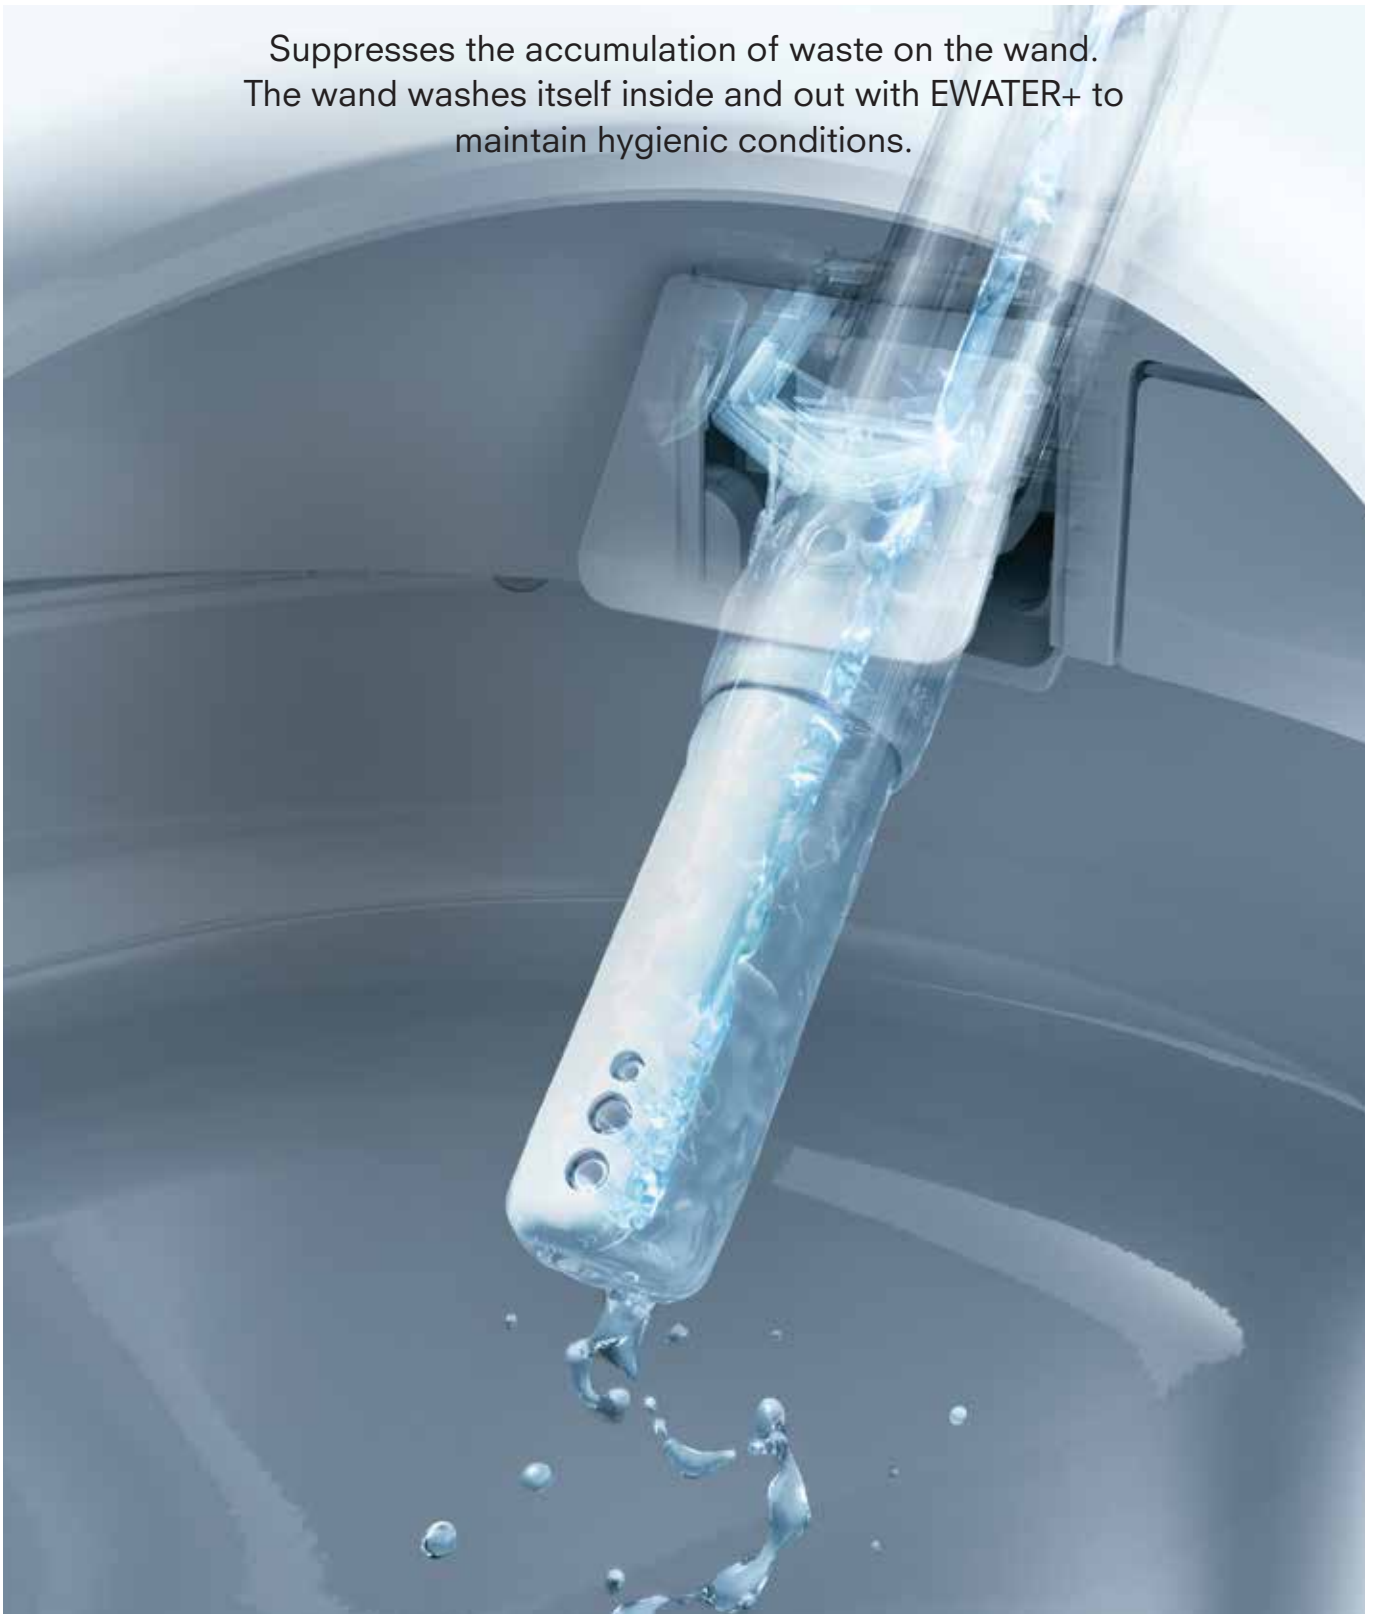

CLEAN SYNERGY

EWATER+

for WAND

Suppresses the accumulation of waste on the wand.
The wand washes itself inside and out with EWATER+ to
maintain hygienic conditions.

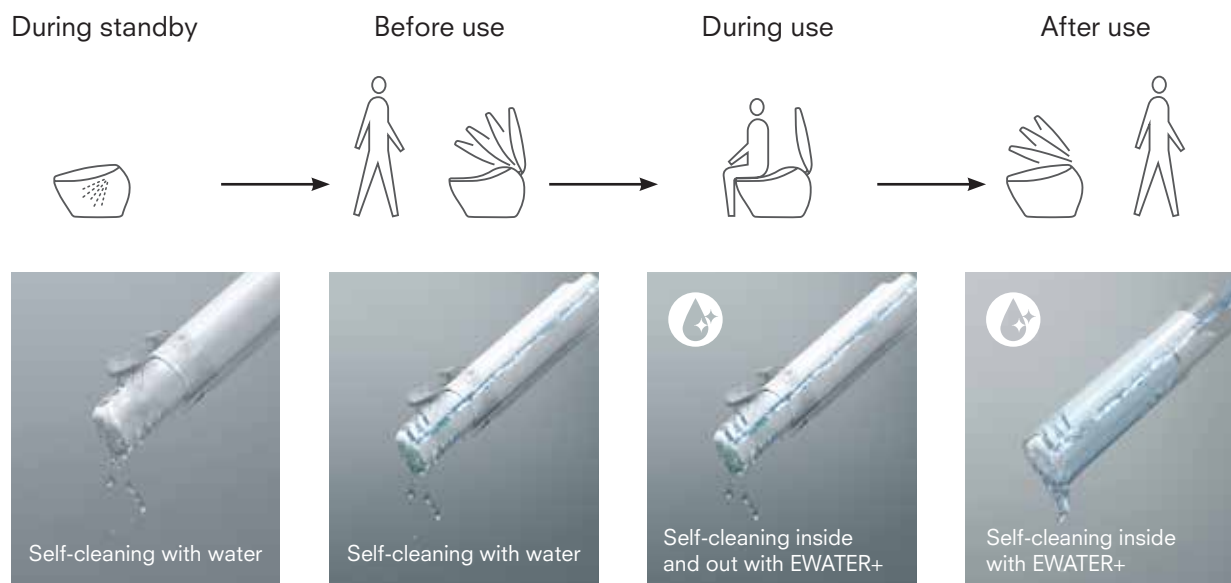

EWATER+

AFTER EACH USE,
THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically washes itself to ensure constant clean conditions.

Self-Cleaning Mechanism

Always Keeping Conditions Clean

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it.

Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

CLEAN SYNERGY

EWATER+

for UNDER SEAT

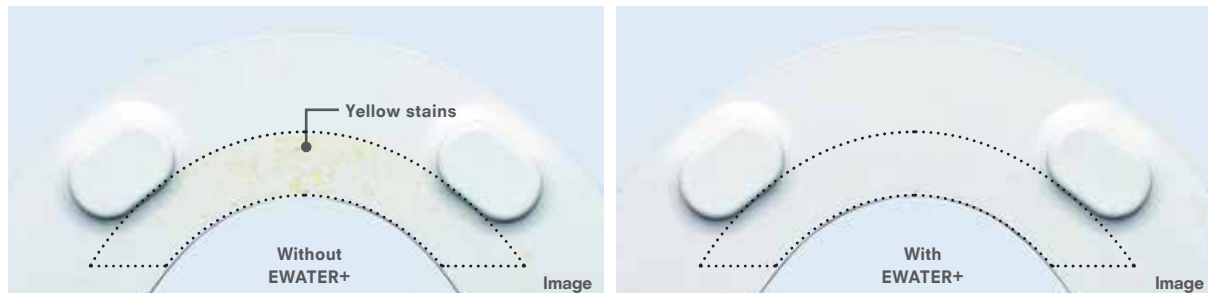

EWATER+ suppresses hard-to-see waste
underneath the toilet seat.

EWATER+

EWATER+ IS SPRAYED ON THE EASILY FOULED FRONT SECTION OF THE BACKSIDE OF THE TOILET SEAT.

This helps suppress urine and other waste from becoming yellow stains, for long-lasting cleanliness. A quick manual spray before cleaning allows you to remove waste with a light wipe.

Survey: Evaluation of waste on the front section of the backside of the toilet seat with and without use of EWATER+

Usage conditions: A number of uses equivalent to usage for two weeks by a family of four (without cleaning)

*Results vary according to usage and environmental conditions. All data collected by TOTO. The dotted lines in the figure show the area over which EWATER+ is sprayed.

How EWATER+ Cleans

PREMIST, a fine mist of water is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

After you step away from the toilet, EWATER+ is sprayed in the toilet bowl and underneath the toilet seat, after which the lid automatically closes

EWATER+ is automatically sprayed 8 hours after the last use

Before use

During use

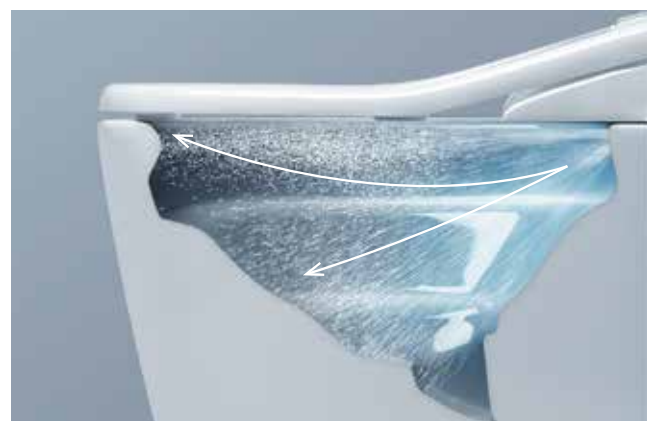

After use

During stand by

EWATER+ reaches underneath the toilet seat.

EWATER+ is sprayed throughout the toilet bowl, with large droplets covering the bowl surface and small droplets carried by air currents reaching the front section of the backside of the toilet seat

CLEAN SYNERGY

CEFIONTECT

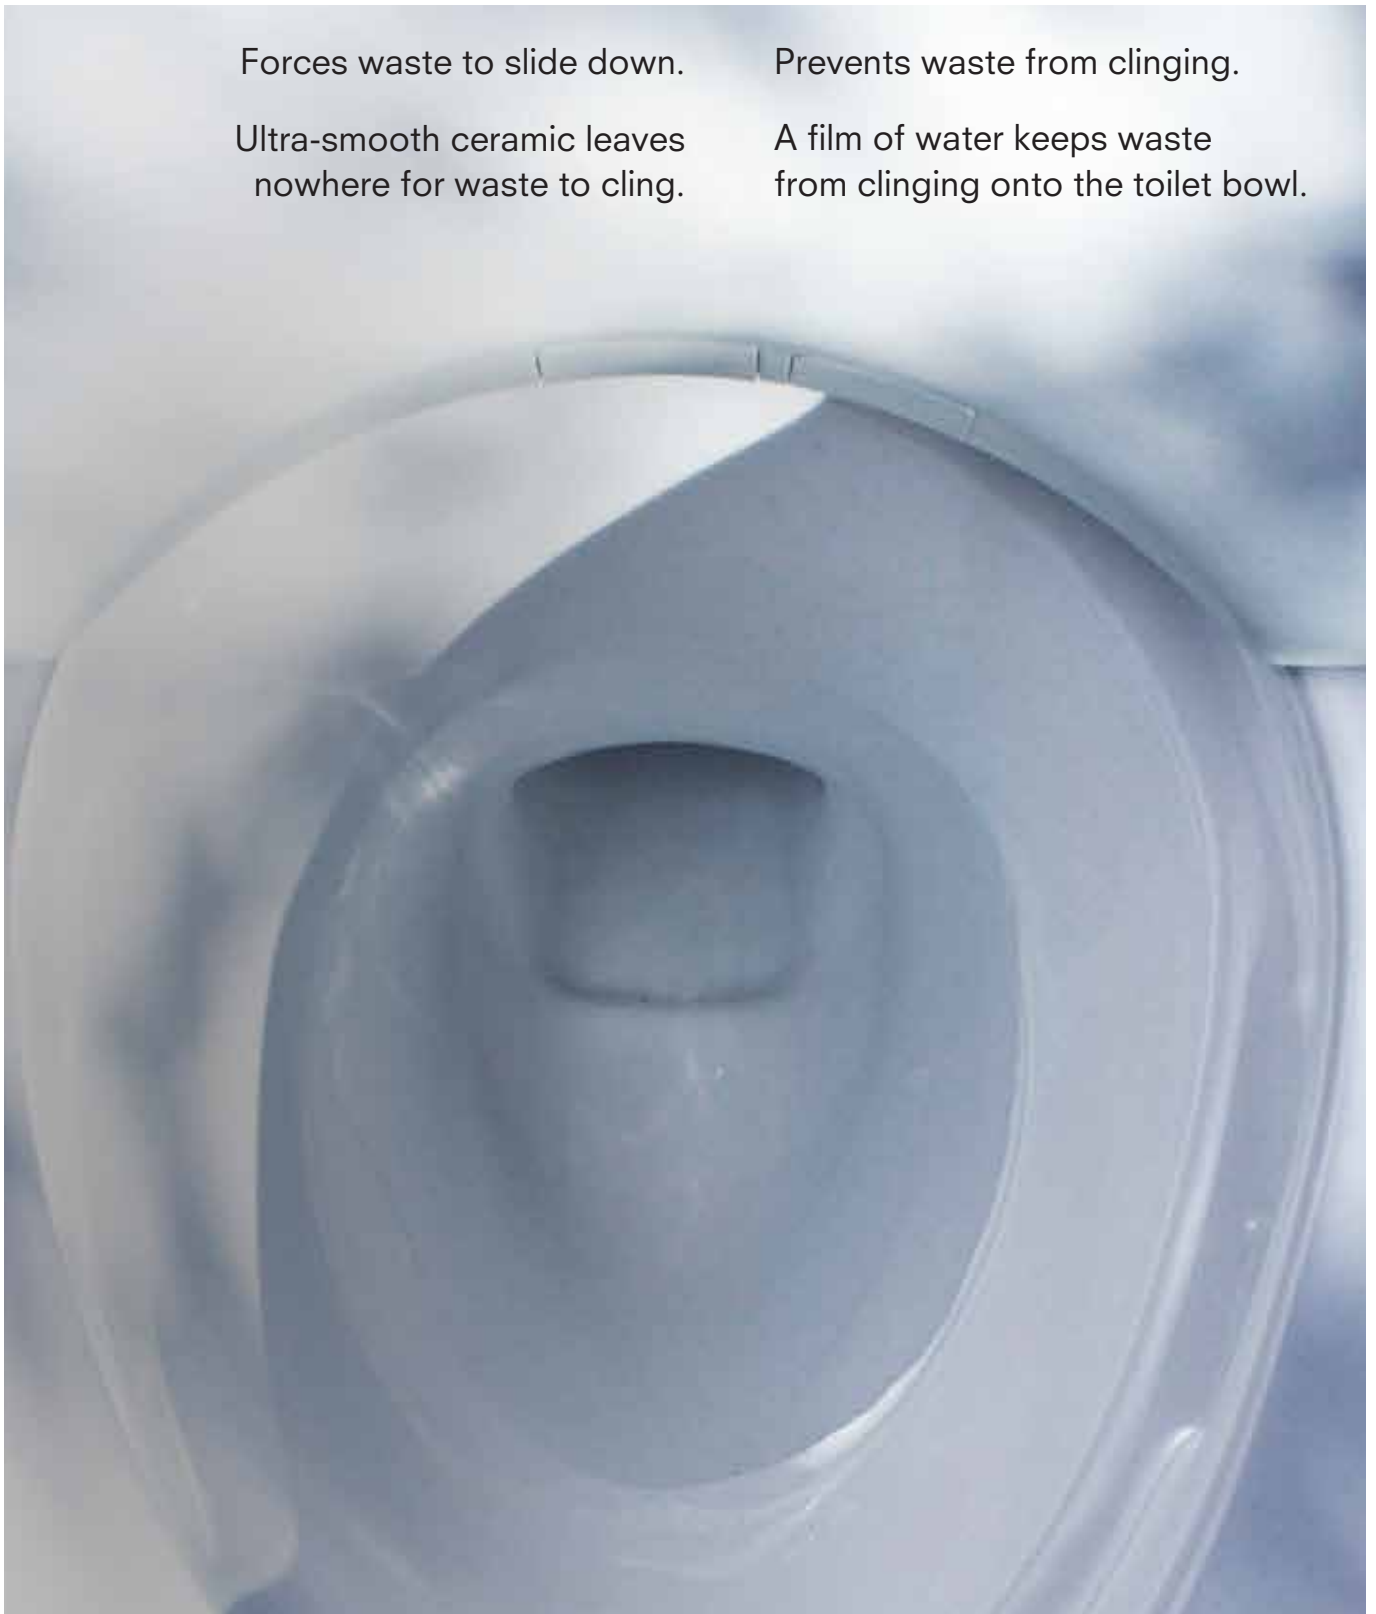

PREMIST

Forces waste to slide down.

Ultra-smooth ceramic leaves
nowhere for waste to cling.

Prevents waste from clinging.

A film of water keeps waste
from clinging onto the toilet bowl.

CEFIONTECT

IS AN ULTRA-SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

Eliminating the microscopic gaps where waste hides

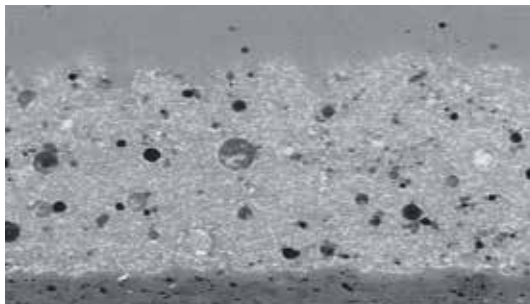

Conventional ceramic may appear perfectly smooth to the eye, but it has gaps where waste particles can hide.

At just one millionth of a millimeter, CEFIONTECT's surface ridges are much tinier than waste particles.

What makes CEFIONTECT so durable?

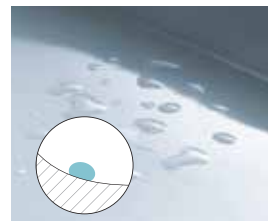

A glass layer is burned over the conventional glaze layer, making CEFIONTECT an extremely durable material.

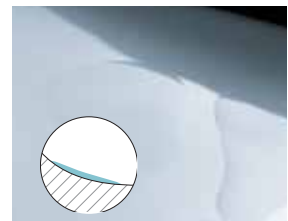

CEFIONTECT toilet micrograph *1Qm=0.001mm

Water has a strong affinity to CEFIONTECT

Hydrophilic describes organisms and materials that attract water. CEFIONTECT is hydrophilic. Water spreads easily over the toilet bowl, so waste particles easily wash away.

Hydrophobic

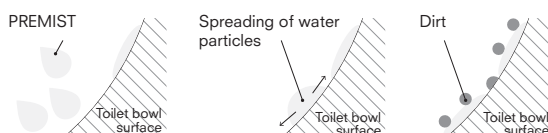

Hydrophilic

PREMIST

To ensure waste washes away easily, a film of water keeps waste from clinging onto the toilet bowl.

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

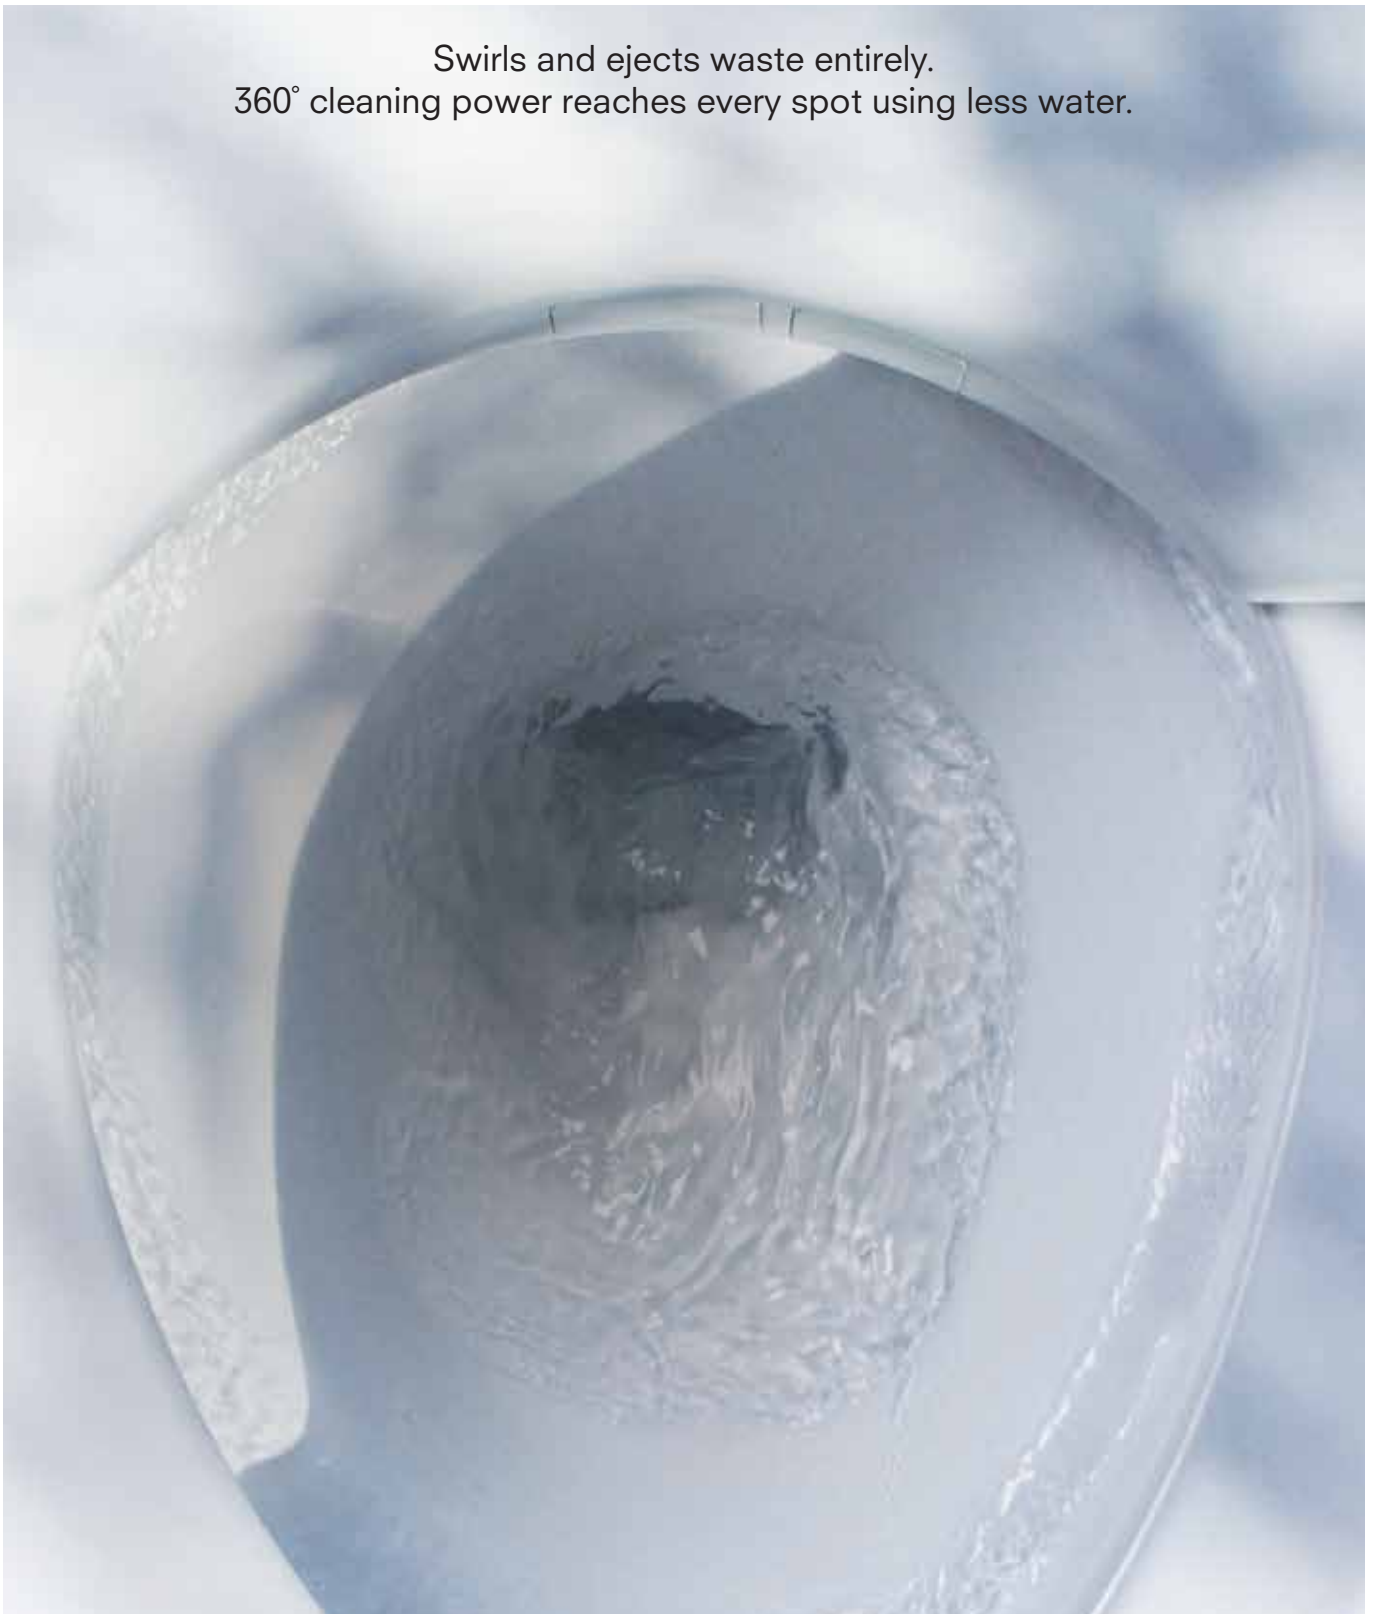

CLEAN SYNERGY

**TORNADO
FLUSH**

RIMLESS

Swirls and ejects waste entirely.
360° cleaning power reaches every spot using less water.

TORNADO FLUSH

NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY USING LESS WATER.

Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

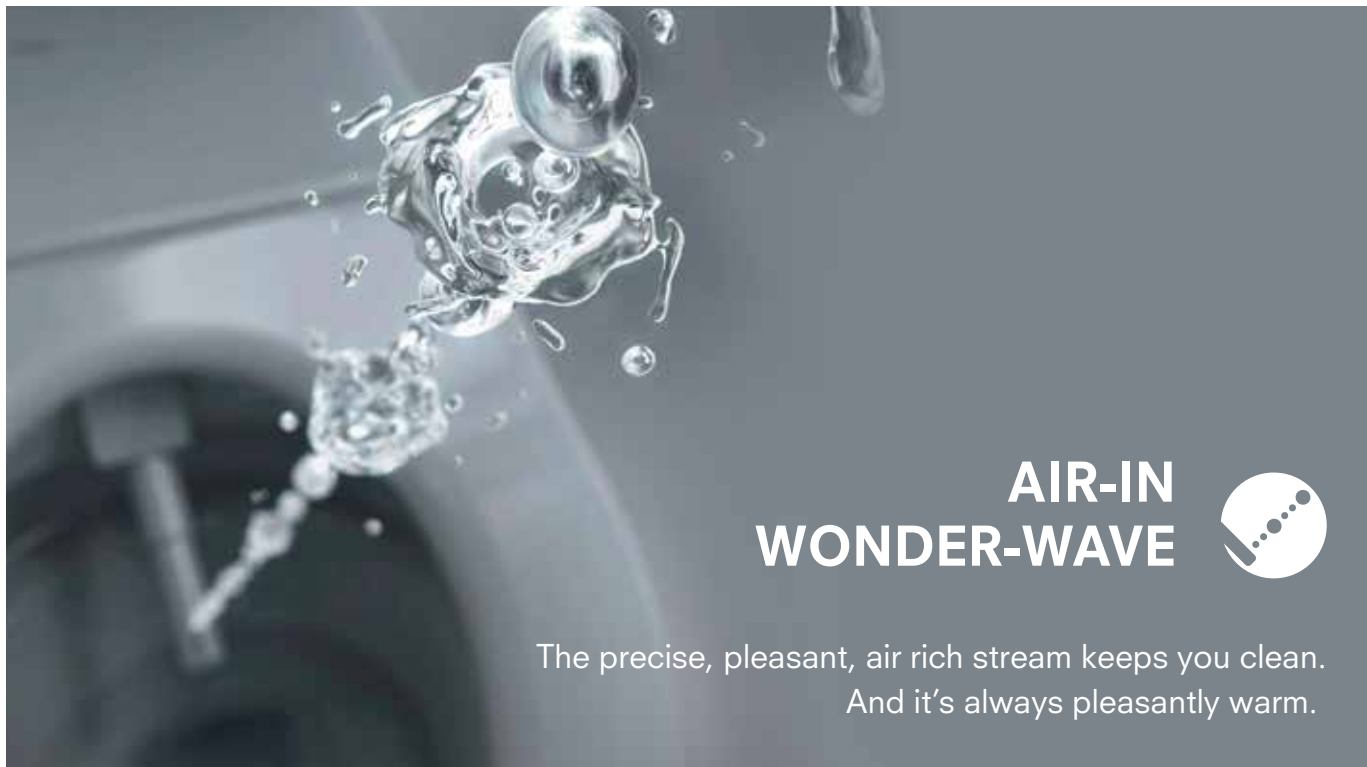

Powerful washing where waste can easily accumulate

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily to wash the entire bowl clean. The exquisitely-designed, high-quality ceramic bowl makes this innovative design possible.

RIMLESS

The RIMLESS design not only leaves no place for waste to hide, it also makes it much easier to clean the toilet.

AIR-IN WONDER-WAVE

The precise, pleasant, air rich stream keeps you clean.
And it's always pleasantly warm.

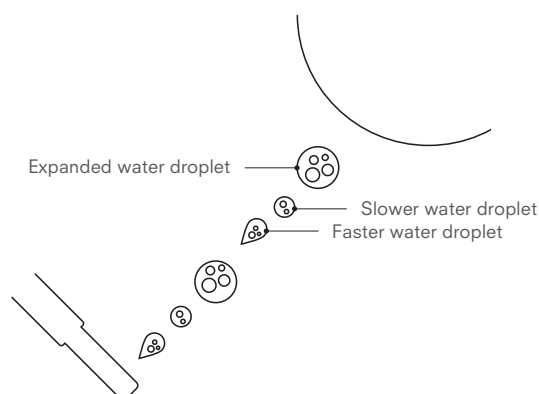

AIR-IN WONDER-WAVE

AIR RICH WATER DROPLETS TO PRODUCE A MORE COMFORTABLE
WASHING SENSATION AND DELIVER MORE THOROUGH CLEANSING
WITH LESS WATER CONSUMPTION.

Even more, water is warmed instantly as needed,
so you need not worry about running out of warm water.

How AIR-IN WONDER-WAVE works

AIR-IN WONDER-WAVE technology is a precise and pleasant air-rich stream that keeps you clean. As water droplets are fired at different speeds, small droplets collide with larger ones, combining and expanding as they fill with more air. The injection of air enlarges the water droplets by approximately 30%.

Select the type of cleansing you desire.

NEOREST® NX2, NX1 Remote Control

REAR CLEANSING

Large air-filled water droplets provide a comfortable sensation and complete cleansing with minimal water use.

FRONT CLEANSING

A gentle dispersion of large water droplets ensures intimate cleansing in the most comforting way.

SOFT REAR CLEANSING

Plentiful showers of water provide a gentle sensation and complete cleansing over a wide area.

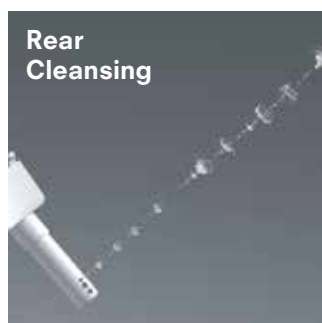

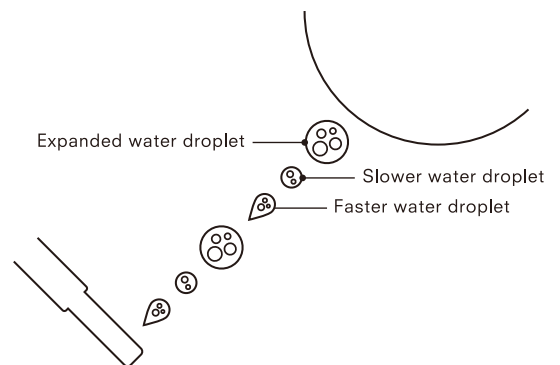

WIDE FRONT CLEANSING

Showers of small water droplets reach a wide area, ensuring a gentle sensation for sensitive skin.

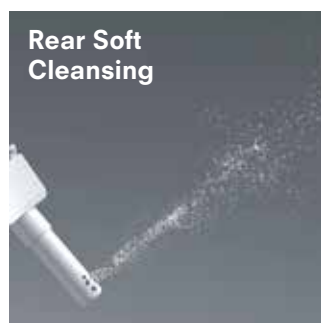

CLEANSING SPRAY PATTERNS

HOW AIR-IN WONDER-WAVE WORK

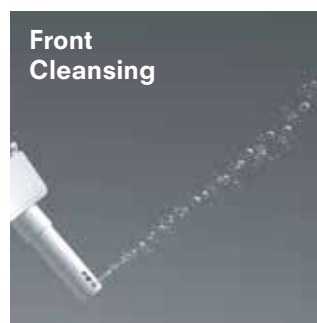

As water is fired at different speeds, small droplets collide with larger ones, combing and expanding as the droplets fill with more air. The injection of air enlarges water droplet by around 30%

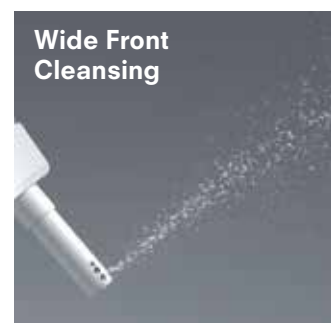

Large air-filled water droplets offer complete cleansing and a comfortable sensation with minimal water use.

Plentiful shower of water gives a gentle sensation for complete cleansing over a wider area.

Gentle dispersion of large water droplets ensure intimate cleansing in the most comforting way.

Shower of small water droplets reaches a wider area giving a gentle coddling sensation to sensitive skin.

The back-and-forth movement of the wand ensures thorough cleansing of the entire area.

Rhythmically pulsating stream of cleansing warm water.

You can easily set the wand position according to your preference.

Select from five levels of water pressure

COMFORT TECHNOLOGY

For greater performance and hygiene
in the bathroom

AUTO OPEN/ CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

SOFT LIGHT

Subdued lighting switches on when the toilet is approached, so users don't have to be exposed to bright bathroom lights at night.

HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.

DEODORIZER

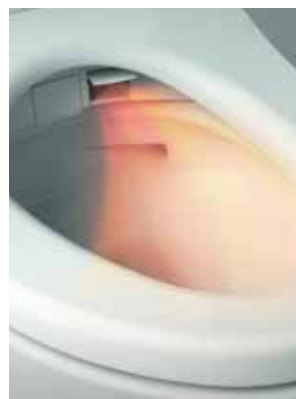

Highly-effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.

AUTO FLUSH

No need to touch buttons or the handle and never worry about someone forgetting to flush — it's automatic after each use.

WARM AIR DRYING

Enjoy the ease and comfort of the temperature-adjustable warm-air dryer.

washlet® +

Series of WASHLET-and-toilet sets.

New standard of comfort and cleanliness for daily life.

WASHLET+ is elegant. All connecting pipes and cords are hidden inside the smooth encasement. Even more than introducing a smarter sense of style to the bathroom, this design ensures easier cleaning and daily use. Various sets are available to choose from.

Toilet and WASHLET combinations that are beautiful from any angle.

Making it possible to pursue beautiful design, WASHLET+ is a new series of toilet and WASHLET combinations that use a TOTO proprietary system to conceal WASHLET water supply hose and electrical cord inside.

The gap between toilet and WASHLET is minimized for better balance.

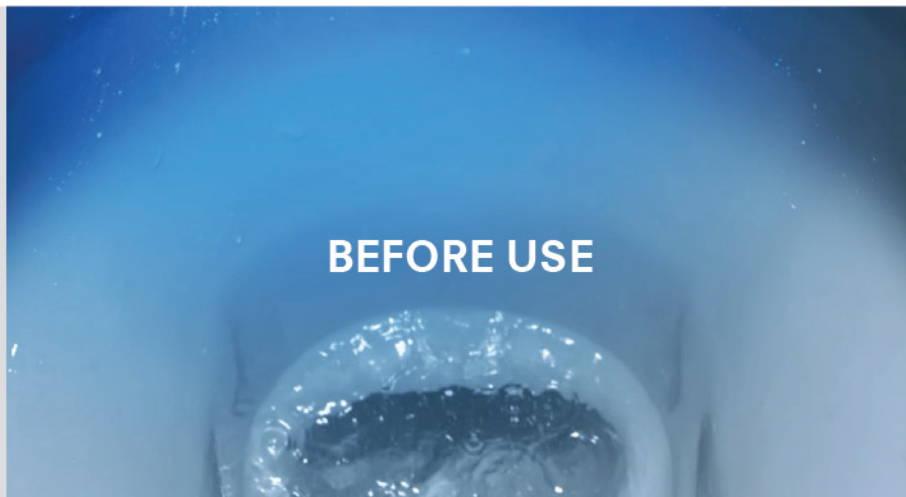

The simple, smooth shape of the toilet is easy to match with any space.

The clean line of the toilet bowl and lid creates a seamless design that fits any space.

ECOWASHER

The ECOWASHER is extremely convenient because it does not require any electricity. The water from the nozzle is controlled solely by water pressure. Without needing an electrical outlet, it is easy to install and remove for cleaning purposes.

BENEFITS & TECHNOLOGIES

CLEANLINESS

CEFIONTECT

TORNADO FLUSH

RIMLESS

SUSTAINABILITY

WATER SAVING

TOILET

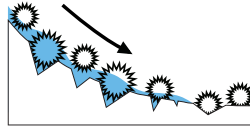

CEFIONTECT

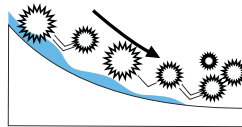

Ultra-smooth ceramic leaves nowhere for waste to cling

Advantages

Easier to clean, dirt resistant, minimises the amount of toilet cleaner required

Convnetional Toilet

CEFIONTECT Toilet

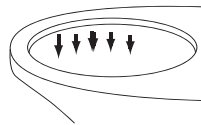

TORNADO FLUSH

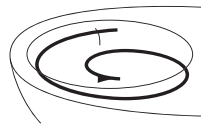

360° cleaning power reaches every spot using less water.

Advantages

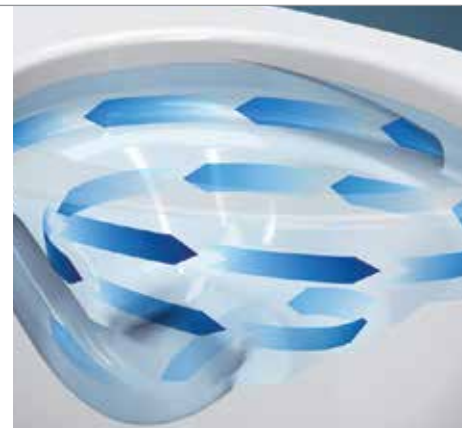

A more quiet flush, cleans the entire bowl more thoroughly hence reducing the need for chemical cleansers

Regular Flushing

TORNADO FLUSH

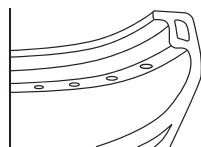

RIMLESS

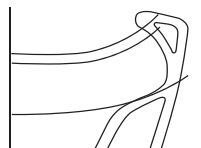

The RIMLESS design leaves no place for waste and germs to hide.

Advantages

Easier to clean, minimises the need for toilet cleaner

MATTE COLOUR COLLECTIONS

LINEARCERAM

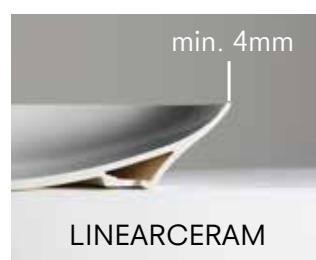

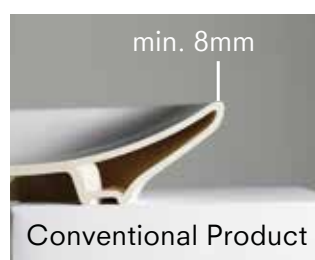

CEFIONTECT

Material used for washbasins that achieves an extremely thin design yet two times as strong as standard fireclay.

LINEARCERAM's accurate design harmonizes with any space. Sophisticated and inviting to use, LINEARCERAM is a new paradigm in bathroom aesthetics.

TOTO has developed a new material "LINEARCERAM" that is stronger than general fire clay by combining unique ingredients. This gave us more freedom of design and made a highly accurate design possible.

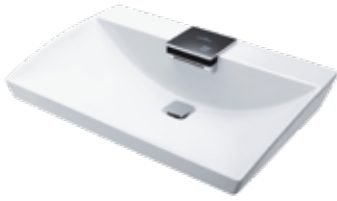

We created a cutting-edge design that is extremely thin, emphasizes its linear contours and smoothness.

CEFIONTECT clean

LINEARCERAM features TOTO's proprietary technology for preventing the adhesion of dirt and ensuring easy cleaning. CEFIONTECT has superior durability for long term use.

BATHTUB

Give yourself the time to indulge in luxury everyday. Taking a bath is no longer just about cleansing your body but also soaking in extreme comfort and tranquility.

TOTO's wide-range of bathtubs are specially designed to maximise the little time you have for yourself. Unwind in a luxurious sanctuary for relaxation and meditation.

ZERO
DIMENSION

HYDROHANDS

RECLINE
COMFORT

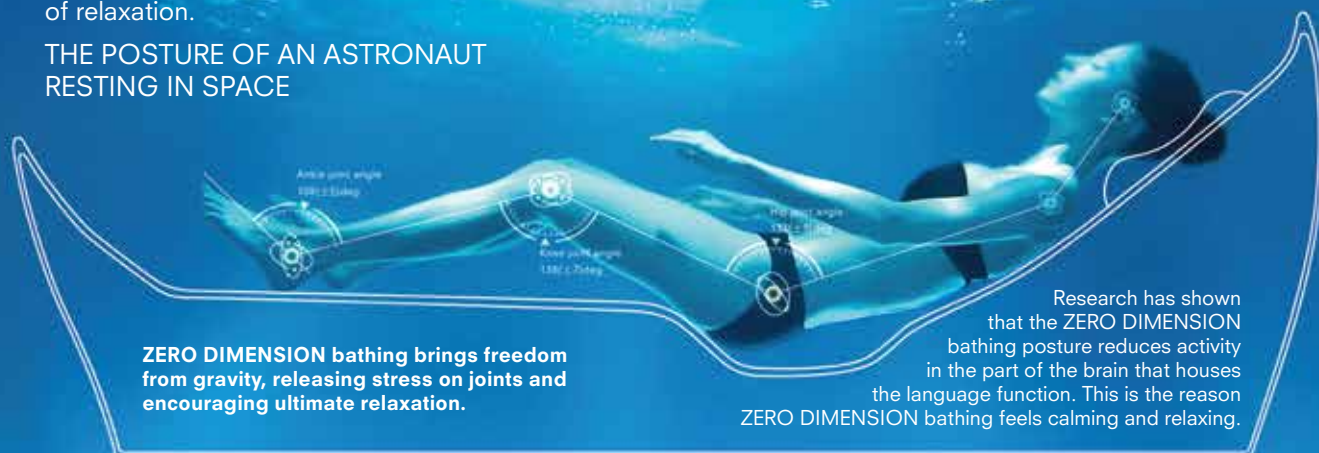

ZERO DIMENSION

Immersed in the meditative moment of relaxation.

THE POSTURE OF AN ASTRONAUT RESTING IN SPACE

THE BRAIN IN A STATE OF TRANQUILITY

ZERO DIMENSION bathing brings freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

Research has shown that the ZERO DIMENSION bathing posture reduces activity in the part of the brain that houses the language function. This is the reason ZERO DIMENSION bathing feels calming and relaxing.

After more than a decade of research on body positioning, bathing and neurological relaxation, TOTO developed the FLOTATION TUB. Its design simulates zero gravity by offering bathers the experience of total weightlessness. By releasing the bather from the bonds of gravity to float in a tension-free state, deep muscle relaxation occurs that calms the body, mind and spirit, creating a sanctuary from the physical and mental fatigue that today's world brings.

ADVANCED TECHNOLOGY ENCOURAGES RELAXATION

Exclusive features that make every bathing experience a luxurious occasion.

NECK BATH

With variable pillow positions ensuring stability, people of all body shapes can enjoy the warmth of the bath from above the shoulders to the neck.

CONTROLLER

The electrostatic controller is operated by the slightest touch.

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

LED LIGHTING

In the outer perimeter of the tub's base, LED lighting supplies a dream-like ambience.

AIR-JET

Fluctuating streams of air bubbles rise from below and envelop the body with a soothing sensation.

RECLINE COMFORT

Nestled in comfort, feel your body and mind release into a state of tranquility.

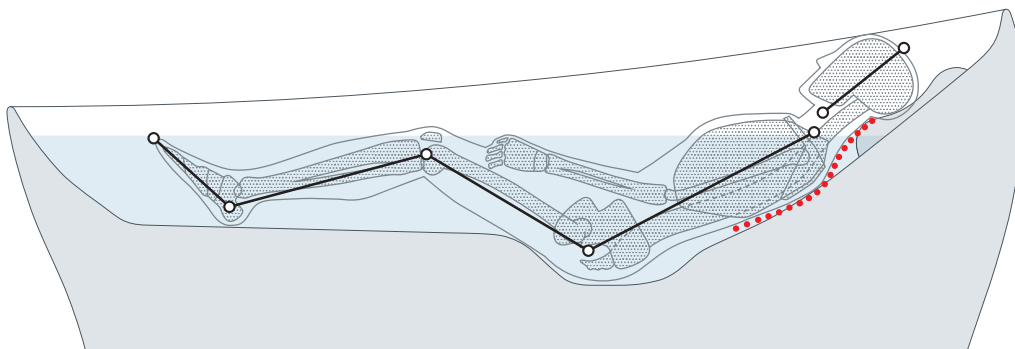

The weight of the head releases onto the headrest, the body receives the sensation of a comforting embrace. The natural S-curve of the spine is maintained all along the neck and down the back, encouraging deep release. This position provides a deep sensation of ease and tranquility. It is a bathing experience that brings relaxation beyond expectations.

Bathing position comparison

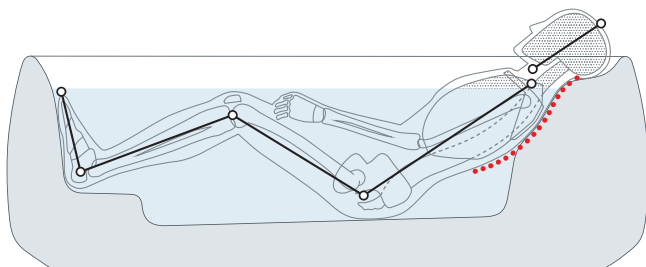

ZERO DIMENSION

The posture of an astronaut resting in space
ZERO DIMENSION bathing brings freedom
from gravity, releasing stress on joints and
encouraging ultimate relaxation.

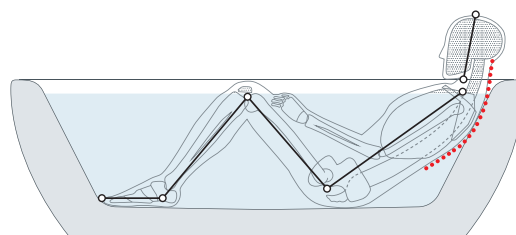

RECLINE COMFORT

The weight of the head releases onto the headrest, the body receives the sensation of a comforting embrace. The natural S-curve of the spine is maintained all along the neck and down the back, encouraging deep release. This position provides a deep sensation of ease and tranquility. It is a bathing experience that brings relaxation beyond expectations

CONVENTIONAL

In a conventional bathtub, the low water height and a rounded low back make complete relaxation difficult to attain. The shoulder and neck area do not receive warmth from soaking and the bathing position can feel tight and cramped.

COLOR

You can choose between a high-gloss finish that looks like ceramics or a matte finish with a subdued texture.

COMFORT GLIDE

Everyday ease-of-use that is grounded in the senses.

Comfort. For TOTO, this does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on users' touch.

Designed from the ground up to provide a fundamental comfort in operation.

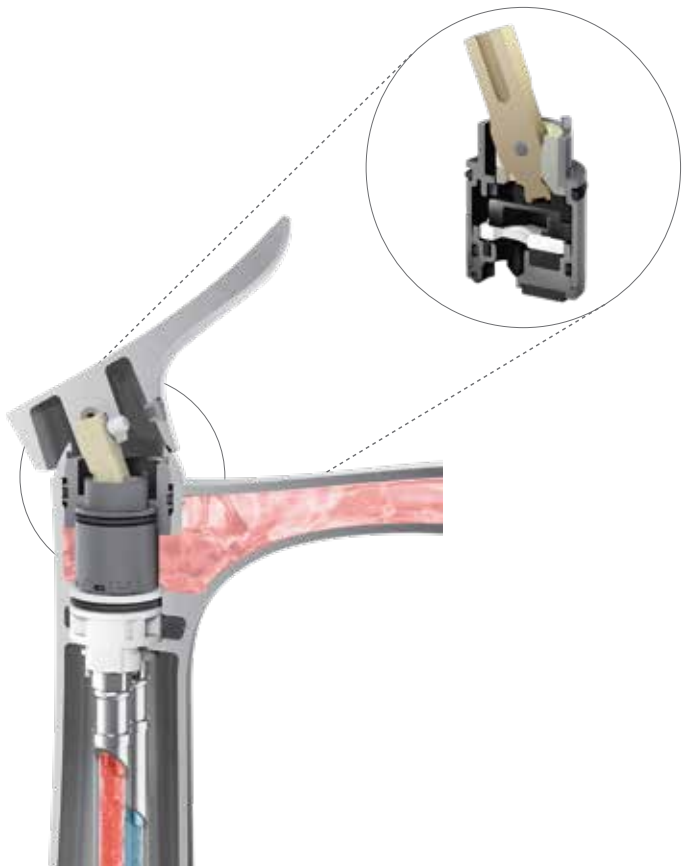

Special coating for prolonged comfort

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

Precise flow control, exclusive to TOTO.

Our exclusive technology means new functionality. We took the core component of the valve, the ceramic disc, and customized its shape for ease of use. Compared to conventional faucets, it's easier to control water flow when just a little is required, such as when you are washing a contact lens. Because you can achieve the right amount of water flow instantly, it helps conserve water.

*Adjustable flow functionality is not available on side-handle models.

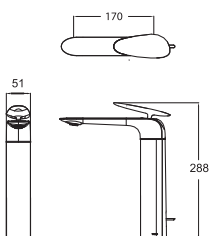

An asymmetrical faucet handle and washbasin bowl in beautiful harmony.

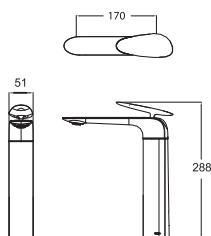

With the thinness of a flower petal, the organically shaped ZA series handle matches the delicate curve of the washbasin bowl in a way that suggests a breeze or a melody, further enhancing the appeal of the design for a fresher everyday in spaces that share its natural motif.

ZL SERIES

Enhancing flow and gesture,
the design fits the sharp washbasin bowl.

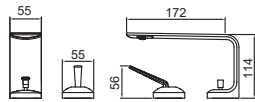

Abundant water flows like a waterfall from the horizontal spout, while the handle can be operated gracefully with a gentle pinch of the fingers. Beautifying even the flow of water and human gestures, the design resonates with the sharp, square washbasin bowl to create a richer space.

The beauty of traditional craft in
a characteristic sculptural form.

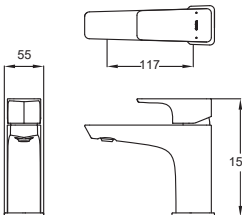

The sharp, taut V-shaped edge that extends up to the end of the spout generates multi-sided reflections revealing a range of expressions. The chrome finish further accentuates the distinctive design for a richer, more luxurious look that helps generate extraordinary, inspirational spaces.

reddot award 2018
winner

Subtle and sharp, this elegant, timeless design upgrades the everyday.

The subtle curves of the spout and handle, the sharpness of the edges, and the refined proportions of the whole combine in quiet harmony to create an atmosphere of advanced elegance.

GO SERIES

reddot winner 2017
best of the best

Flowing and curvaceous,
the organic form leaves a graceful impression.

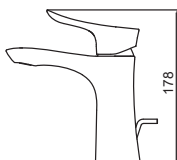

With a spout and handle that grow and a body defined by curves, the faucet suggests a plant bathed in sun-light, reaching higher and higher as it grows, with a soft, sculptural beauty that sustains both space and user.

GR SERIES

reddot award 2017
winner

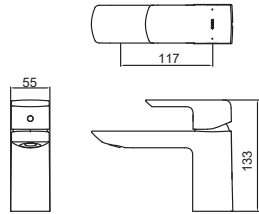

The weight of a metal ingot cut at right angles tightens up space.

The design contrasts found in this marriage between sharply honed edges and the gentle curves at the top of the spout and handle generates a regal air while further bolstering its imposing sculptural beauty.

This stunning Matte Black finish adds sophistication and depth to our elegant faucet designs. Its silky sheen and delicate color gradation create a sense of luxury like no other.

Our “shot-blast processing” forms a chrome plating by physical vapor deposition (PVD) on faucet fixture surface irregularities. The result is a gorgeous Matte Black finish with a lustrous sheen and fine color nuances.

A durable, scratch- and tarnish-resistant surface for long-lasting beauty and cleanliness.

This surface is proven to be more resistant to scratching than coated products. Even in high-traffic bathrooms with daily cleaning, beautiful Matte Black(PVD) finish will stand the test of time.

PVD coating: No peeling off even after 100,000 uses

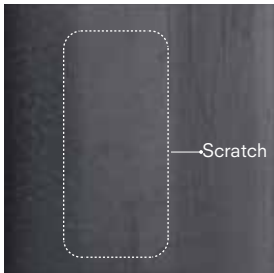

Coated product

Matte Black (PVD)

Scratches from ten years’ cleaning

Coated product

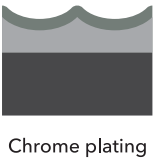

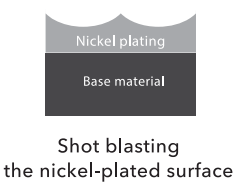

Matte Black (PVD)

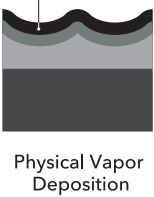

What is Matte Black by TOTO?

Matte Black (PVD)

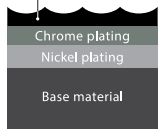

The PVD surface includes metallics deposited at the atomic level, making it stronger. This dark, rich finish and sleek texture will add beauty for years to come.

Coated product

The coat has a resin surface, making it weaker

Coated surface

Pull-out lavatory faucet Comfortable and happy family moments

Trusted quality for your everyday needs

A faucet for joyful routines

Extendable faucet for easy handwashing

Easy-to-clean bowl

Soft aerated flow, reduces splashes, great for filling.

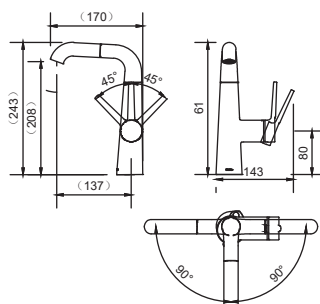

Effortless and comfortable foot washing after walks.

Human Approach

Our aim was to create a shower that is closely attuned to people

OVER HEAD SHOWER

The water-spraying plate's pattern designs were inspired by "water," with its rippling waves, and "people," the product's concept.

The overhead shower avoids straight lines and simple curves, instead featuring a gentle shape that fits the body.

Unlike typical geometric designs, smooth curves are used to create a wide head shower design.

CONCEALED THERMOSTAT

The Thermostat controls have large, high-visibility panel buttons. The dials also have finger ridges for both aesthetics and usability.

HAND SHOWER

The hand shower, with its soft-edged shape made up of numerous freely flowing curves, offers four shower modes.

EASY TO USE

Shower mode switching Built-in type

VALVE TECHNOLOGY

RELAXING

CALMING SHAWL

The spray holes of the overhead shower are arranged in an arc shape to prevent water from getting your face or hair wet.

10-11 L/min at 0.3 MPa
(normal home pressure)

Water envelops your whole body, from the shoulders down, while you stand with a comfortable posture.

Keeps your face or hair from getting wet.

REFRESHING

COMFORT WAVE

The spray from the large, wide showerhead face and the large oscillating streams of water droplets allow users to enjoy the feel of a strong flow of water.

10.5 L/min at 0.3 MPa
(normal home pressure)

Creates a rich shower feel.

A shower experience you can lose yourself in.

REVITALIZING

INTENSE WAVE

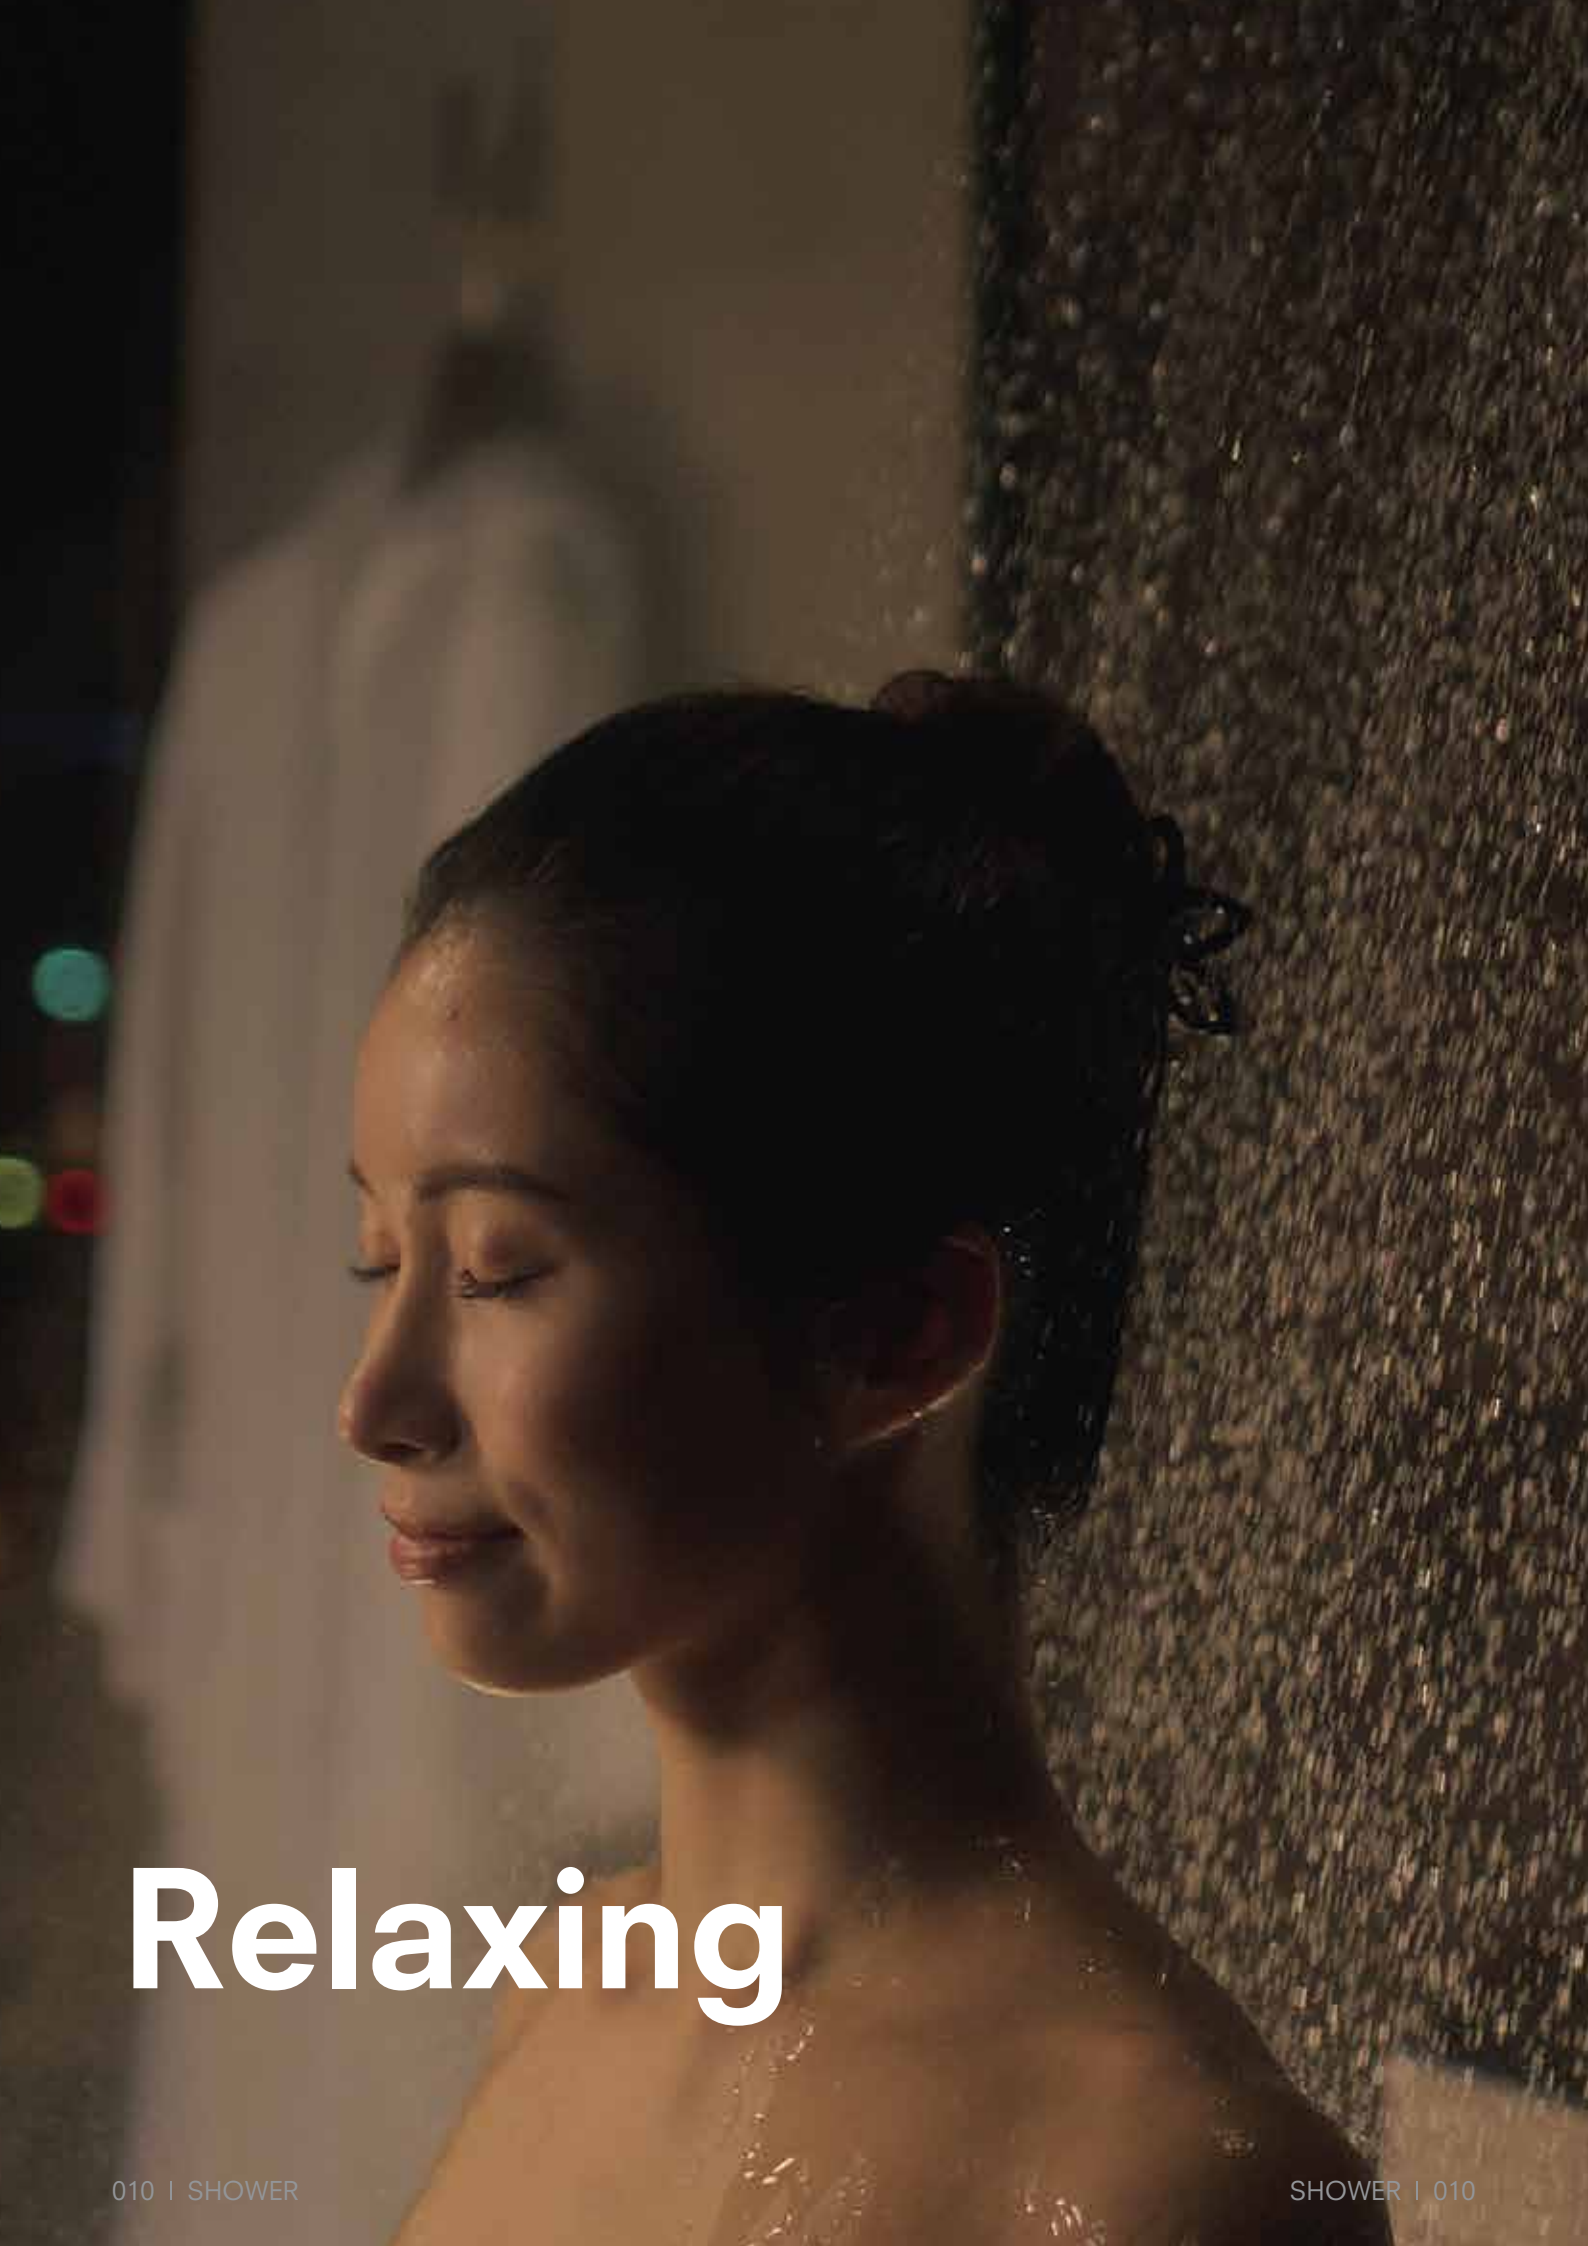

Strong streams from five central spray holes create a refreshing shower experience.

The powerful streams of water hit pinpoint locations, producing a stimulating, massage-like feel.

9-9.5 L/min. at 0.3 MPa
(normal home pressure)

Feel refreshed and energized.

Relaxing

CALMING SHAWL

Feel the warmth spreading
from your shoulders

Control the waters flow

The spray holes at the front of the overhead shower are arranged in an arc shape to prevent water from getting your face or hair wet.

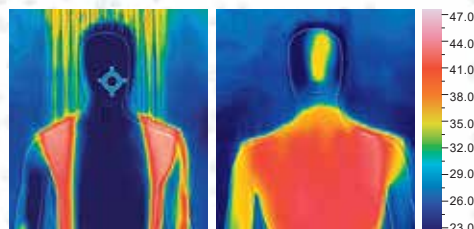

Keeps your face or hair from getting wet

It can keep your face or hair from getting wet, but also allows you to wash your face and perform face care while maintaining a natural posture.

Water envelops your whole body, from the shoulders down

Twisting streams of water flow from five spray holes, enveloping you and warming you from the shoulders down.

Front Side

Back Side

Thermography testing showed that the water envelops the user from their shoulders like a shawl, warming their body both front and back.

Measurement conditions

Position from wall: 400 mm

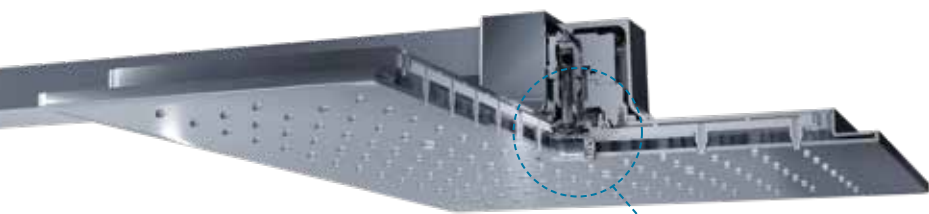

Water flow: 7 L / min

Revitalizing

MIST SPA

Let the luxurious microbubbles
wrap their veil of mist around you,
rinsing away everything but your true self.

1.3 times the rinsing power of COMFORT WAVE

Testing conditions

Testing product code: TBW01035

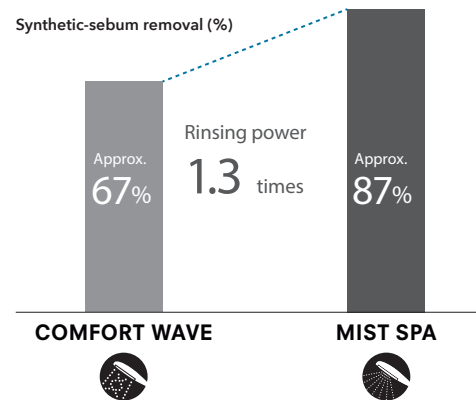

MIST SPA flow rate: 3.5 L/min (0.92 GPM)

COMFORT WAVE flow rate: 6.5 L/min (1.72 GPM)

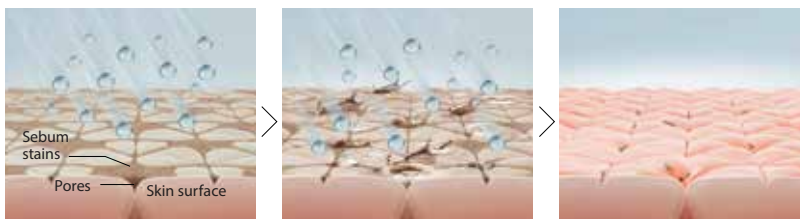

Flow duration: 15 sec. Flow temperature: 42±1°C (98° - 102° F)

Note: One microliter synthetic sebum was applied to a human subject's arm and rinsed off under the testing conditions specified above. The percentage of synthetic sebum removed was then measured. Testing performed by TOTO.

Note: Results may vary based on usage conditions and individual differences.

A mist of ultrafine bubbles gently cleanses the skin

The mist is infused with ultrafine
bubbles and is gentle on the skin

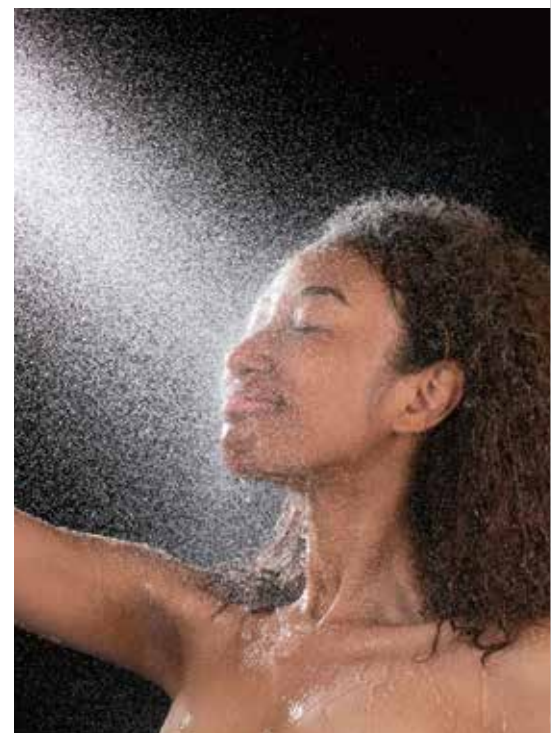

What are ultrafine bubbles (UFB)?

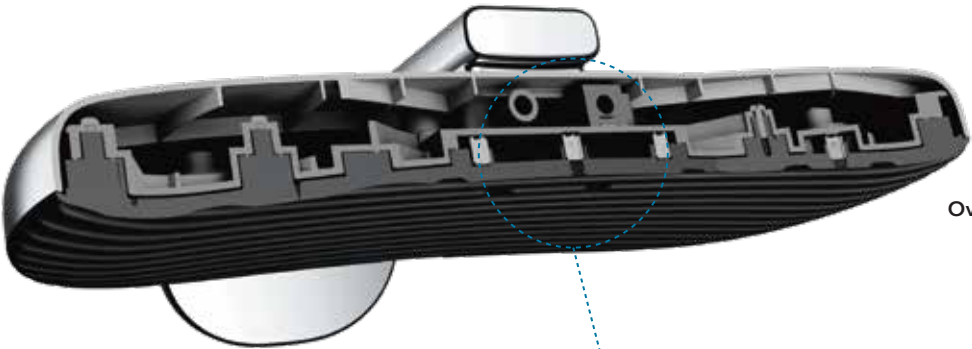

Air bubbles smaller than 1 micrometer in size.

Size and amount of MIST SPA's UFB

UFB diameter: approx. 0.11 micrometer

UFB amount: average of approx. 18.8 million/ml

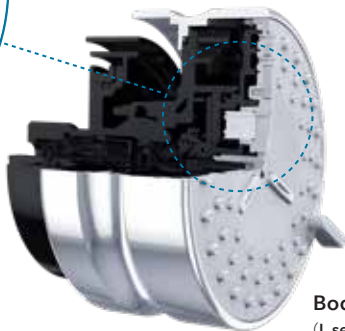

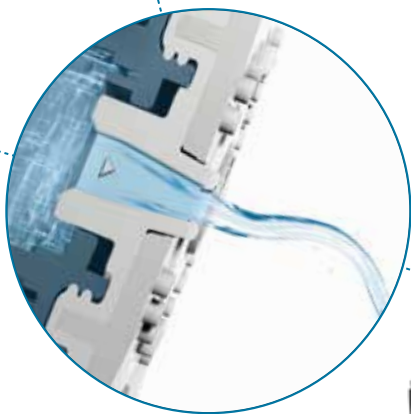

Stimulating to body and mind.
Awakening to the senses.

SAFETY THERMO

Prevents rapid rises in temperature for a safer bath time.

A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

By comparison with the SINGLE product, SAFETY THERMO produces a smaller range of temperature fluctuations during bathing, even when the water pressure drops due to a toilet flushing.

HEAT PROTECT

Prevents getting too hot and is beautifully shaped for a more pleasant daily bath time.

By covering the path of the hot water with a layer of cold, HEAT PROTECT is able to prevent burns when accidentally touching the fixtures.

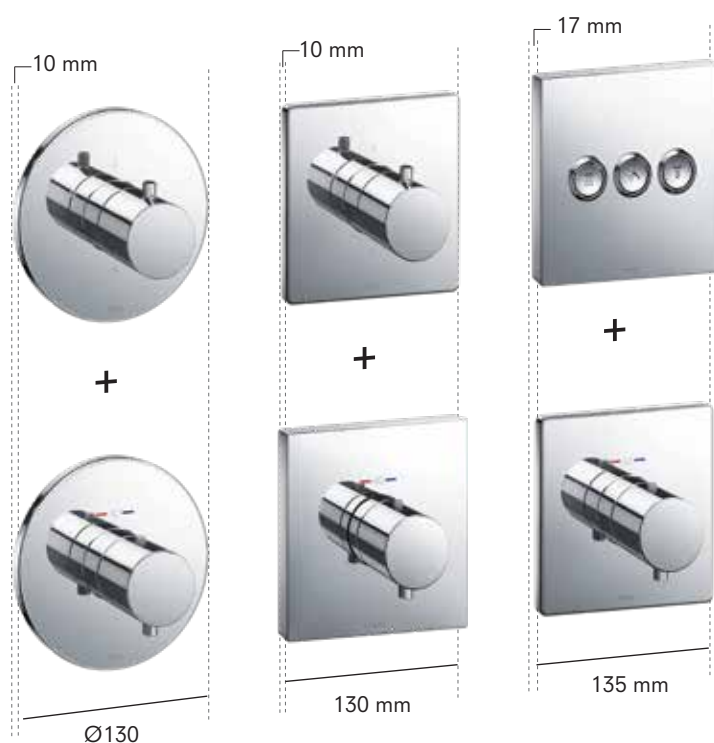

Easy installation in any bathroom

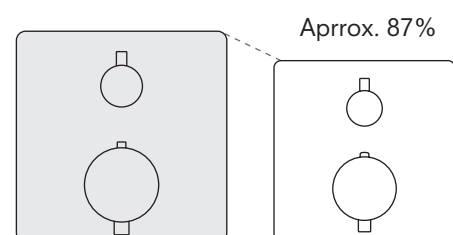

One of the most compact, miniaturized units in the industry supports the advanced features of this shower.

This allows easy bathroom upgrades without over-burdening current bathroom structures.

Industry-leading miniaturization. beauty in balance.

We shrunk the unit to one of the industry's smallest. The trims are also some of the most compact. In addition, our progress towards uniform sizes mean units can be used simultaneously to create a beautiful space. We also strived to make the trim as thin as possible. A bathroom of unity and style can be yours.

MINI UNIT

A compact unit offering freedom of choice for more beautiful bathrooms.

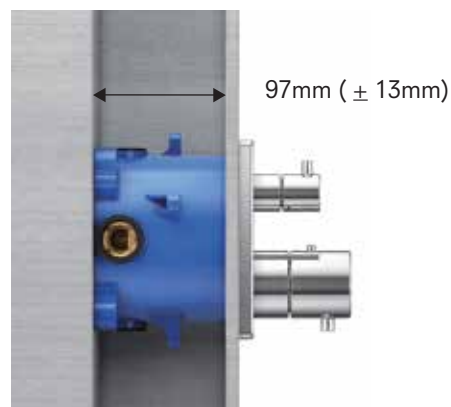

Concealed faucets liven up the bathroom. TOTO's MINI UNIT is a technology that gives you more freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a single lever type, thermostat type, or touch button type, and also make choices based on design features such as round or square fixtures.

Easier to install.
Less load on the frame.

A high degree of flexibility when installing the MINI UNIT is one of its most attractive features. We were able to achieve one of the industry's smallest and lightest bodies for the concealed system. It puts only a minimal load on the architectural frames and has improved manageability during installation. In order to conceal the unit, the wall only needs to be 97mm, and the system is able to absorb installation errors of $\pm 13\text{mm}$.

MINI UNIT

TBN01001B

Z SELECTION

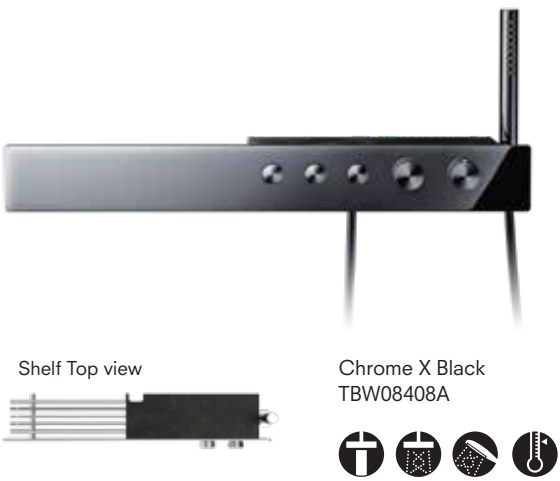

Meticulous attention to design and function for an even richer shower.

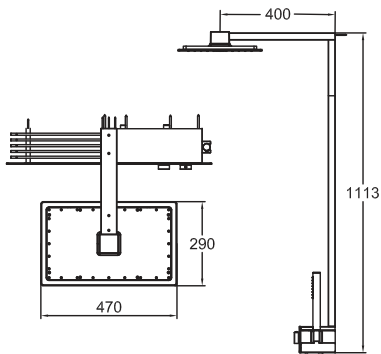

Stainless steel panels in a rich array of colours and finishes combine with artificial marble shelf-tops. The fine materiality resonates richly in the shower room, raising it to a higher level. Equipped with a rack that enables unobtrusive storage and an overhead shower that envelops the entire body for a rich shower time.

Intuitive operations make it easy to get the showering experience you want

The handheld shower is equipped with a lever that is easily operated with your thumb while you hold it. Moving this lever left or right changes the water discharge mode. The body shower provides two water discharge modes. It has a form that allows a comfortable grip, with water delivery switched by rotating the main body left or right. Being able to freely switch between water discharge modes provides a pleasant bath time.

PUBLIC

A public restroom. It's not just where you "go to the toilet". It's also a place for freshening up, touching up makeup, and much more. For many years, our approach at TOTO has always been to put the user first. Offering products that combine unique technologies and sophisticated designs, TOTO proposes restrooms that anyone can use in comfort and with peace of mind

CLEANLINESS

Touchless Technology

Protect your hands from infectious diseases.

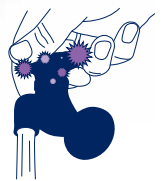

From the time you enter a restroom until you leave, TOTO's touchless products perform every action necessary without direct physical contact.

With many people using the restrooms in train stations, shopping centers, schools, offices and other facilities, it is of utmost importance that public restrooms are sanitary. Plumbing fixtures should have functions that can reduce the spread of coronaviruses, influenza, noroviruses, and other infectious diseases which can have a serious impact on society. TOTO restroom fixtures are equipped with touchless functions that enable people to use the toilets, then wash and dry their hands without having to come into contact with the fixtures themselves. In addition to ensuring that restrooms can be used sanitarly and comfortably, the risk of spreading infectious diseases is greatly reduced. TOTO goes beyond merely 'sanitary' to achieve an extraordinarily high level of hygiene for restroom fixtures.

Touchless

Bacteria and viruses may be present on restroom fixtures used by large number of people. Touching the fixtures can transfer the bacteria or viruses to your hands. Our touchless faucets let you easily wash your hands without any need to touch the fixture.

Every action is performed hands-free.

EARTH-FRIENDLY

Restrooms in
harmony with nature.

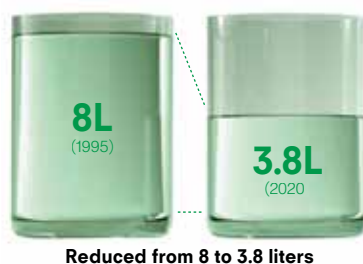

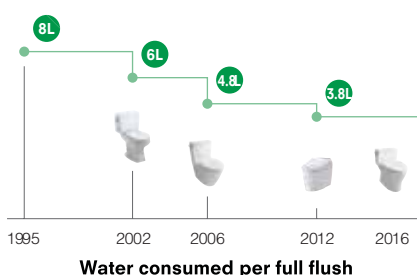

Features for enhanced water-saving and energy-saving without sacrificing comfort or convenience.

Reducing CO2 emissions has become an issue of global importance, but how can public restrooms be made more earth-friendly? The answer is to minimize the amounts of water and electricity used. As a leading manufacturer of plumbing fixtures, TOTO has been working to reduce water and electricity consumption by our fixtures for many years. Today, TOTO's water-saving toilets use just 3.8 liters of water per flush, the world's highest standard of water-saving performance and about half the amount of water used by toilets in 1995. TOTO continues to develop fixtures that conserve water and electricity while maintaining comfort and convenience. One example is ECOPOWER touchless faucets, which use the flow water to generate electricity and ECO CAP, which mixes air with water so users can thoroughly wash their hands while using less water.

This ECOPOWER touchless faucet uses the flowing water to generate the electricity it needs to operate. There is no need for electrical wiring, making installation and renovation easier.

Steadily reducing toilet water consumption

ECO CAP

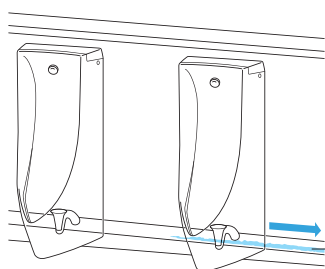

SERVICEABILITY

Making servicing easier while enhancing user satisfaction.

Clean and sanitary even in places that can't be seen. Public restrooms that are easier to clean and service.

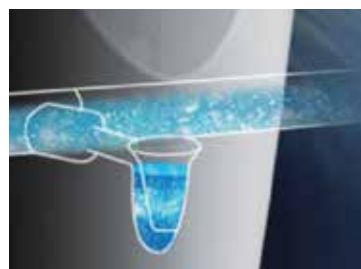

It is important to maintain a high level of comfort and convenience when considering ways to reduce the amount of work needed to clean and service a restroom. TOTO has developed a variety of innovations and technologies for keeping restrooms clean and sanitary and for suppressing the accumulation of waste, not only in visible areas but also in places hidden from sight such as the inside of pipes. Urinals are periodically flushed automatically when not in use, such as at night to keep drainpipes clean. Though innovations such as a compact urinal trap that efficiently replaces the water after use, and EWATER+ for preventing stains and odors, restrooms are kept sanitary while effectively conserving water.

Interval Flushing System

Automatically flushing after each use, the urinal also flushes periodically to prevent the buildup of urine scale in the drainpipe.

Wastewater containing a high volume of urine remains in the drainpipe even after flushing with each use.

EWATER+

ZN series

Bringing elegance to handwashing Soft and calming to the touch, graceful water streams gently caress your hands.

GM series

Graceful arch design echoing traditional architecture.

ECOPOWER

This sensor-activated TOUCHLESS FAUCET generates its own electricity. ECOPOWER technology requires no external power source, has no minimum daily usage requirement, and is capable of generating its own power at the ultra-low flow water volume is only 2.0 L/min. ECOPOWER is environmentally sustainable.

SOFT FLOW

Elegant streams of water from SOFT FLOW faucets gently touch skin. A premium calming experience. Soft and soothing. Sensor-operation eliminates the need for levers or buttons to touch, offering a new level of cleanliness for your health and wellbeing.

ECO CAP

ECO CAP is an air-injection technology, which reduces water consumption. Aerating the water increases its volume, so you can wash your hands with full stream while using less water.

Functions and durability that prevent malfunction and troubles due to misuse or vandalism.

A wide variety of people utilize public spaces, from small children to adults, and misuse or vandalism can lead to malfunctions and other troubles. TOTO automatic soap dispensers have functions and durability to minimize breakdowns and troubles, regardless of the circumstances.

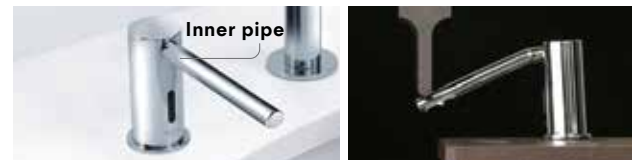

Designs that prevent liquid soap from getting on people.

Children sometimes play with automatic soap dispensers, and even adults may press against the spout, having confused them with push-type dispensers. We therefore designed our spouts with a groove so that when liquid soap is dispensed, if the tip is covered soap will squirt out toward the back, not in a way that will cause it to spray on the user.

A spout structure designed for strength, difficult to break.

Assuming that strong forces might be applied to the spout tip, we inserted a pipe within the base for increased strength. Even if the spout is damaged, this prevents cracking and breaking at the base.

URINALS

Bringing a whole new level of hygiene with TOTO integrated urinal

without EWATER+

with EWATER+

Integrated with EWATER+ that are electrolyzed water that will help to reduce waste and dirt. It helps to break down organic matters found on the urinal.

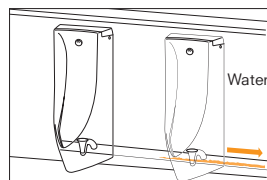

A super smooth ion barrier glazing on the urinal. Helps prevent stains event after a long term usage

SUPPRESSES bacteria growth in the trap of urinal

Urinal Automatic Interval Flush

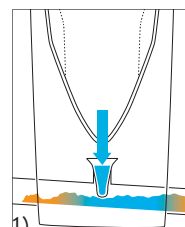

Regularly spray EWATER+ to effectively inhibit pollution in the trap area

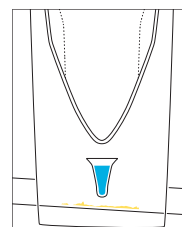

Every 2 hours, it will flush automatically

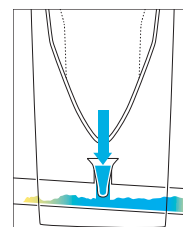

Schedule Flush

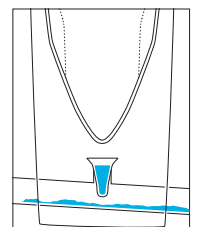

1) The first initial flush will clear the drain pipe to avoid any harden debris.

2) 1st Flush State

3) The second schedule flush will then further dilute the urine concentrate and make the pipe cleaner

4) 2nd Flush State

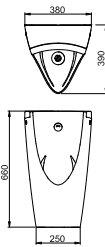

Urinary Concentrates
